Rare And Endangered Biota Of Florida Mammals Rare And Endangered Biota Of Florida:

Rare and Endangered Biota of Florida: Mammals Ray E. Ashton, 1992 This is part of a two volume reference work on rare and endangered biota of Florida Each volume is arranged in order of species status extinct extirpated endangered threatened rare and special concern The account of each species contains data categories of taxonomy description population size and trend history and range of distribution geographic status habitat requirements and vulnerability of species and habitat The review of the environmental situation of the species includes causes of threat responses to habitat modification demographic characteristics key behaviours and conservation measures that have been taken and those proposed for the future Tables list species currently on the FCREPA list with their status Also included are the current designations of status by the US Fish and Wildlife Service and the Florida Game and Fresh Water Fish Commission Of the 43 mammals listed in this volume four subspecies have been recognized as extinct since the publication of the original edition In the case of the endangered Florida panther despite many conservation measures experts predict it will be extinct in 30 35 years without the radical intervention of captive rearing and re establishment of new populations Volume II focuses on fishes Rare and Endangered Biota of Florida James A. Rodgers Jr, Ray E. Ashton, Herbert W. Kale li, Henry T. Smith, 1996 High scientific value to biologists conservationists teachers students and the general birdwatching public Frances C James curator of birds and mammals Florida State University Deals authoritatively with the most important Florida birds from the viewpoint of conservation Will be required reading for conservationists and many serious birdwatchers and naturalists Richard L West regional editor Audubon Field Notes The series has served as the definitive reference compendium on endangered and threatened species in Florida and is widely recognized as among the most authoritative such works in the nation I hope this revised series reinvigorates our resolve and commitment to endangered and threatened species conservation These volumes provide a comprehensive database from which to embark Robert M Brantly executive director Florida Game and Fresh Water Fish Commission from the Foreword to the series This volume contains accounts of 66 bird species and subspecies that the Florida Committee on Rare and Endangered Plants and Animals recognizes as in decline or in danger It also includes accounts of six species that have been already extirpated in Florida or are now extinct The species accounts are arranged by family within each status category recently extinct extirpated endangered threatened rare species of special concern and status undetermined Each account contains detailed sections on taxonomy description population size and trend habitat requirements and trend vulnerability of species and habitat causes of threats responses to habitat modification demographic characteristics key behaviors and conservation measures taken and proposed for the species Each also includes a range map an extensive section of literature cited and a synthesis and discussion of the ecology habitat requirements and anthropogenic factors affecting the species survival especially in Florida In addition 61 photographs and 4 drawings accompany the species accounts Much of the information on the Florida population status is presented here for the first time and is based on

previously unpublished research This volume is an essential reference for biologists conservationists environmental consultants educators and amateur ornithologists interested in the endangered and threatened birdlife of Florida **Rare and Endangered Biota of Florida** ,1992 *Rare and Endangered Biota of Florida* Paul E. Moler,1992 A definitive reference on endangered and threatened species in Florida offers information on species status taxonomy description population size and trend distribution range and history of distribution geographic status habitat requirements and vulnerability of species and habitat **Rare and Endangered Biota of Florida: Fishes** ,1992 *Rare and Endangered Biota of Florida, Vol. IV Invertebrates* RE Ashton (Ed),1992 Rare animals endangered species rare plants and endangered plants of Florida state **Rare and Endangered Biota of Florida, Vol. III Amphibians and Reptiles** RE Ashton (Ed),1992 Rare animals endangered species rare plants and endangered plants of Florida state *Florida Keys National Marine Sanctuary: Development of the management plan : environmental impact statement* ,1996 Florida Keys National Marine Sanctuary Comprehensive Management Plan, Monroe County ,1996 Rare and Endangered Biota of Florida: Amphibians and reptiles Ray E. Ashton,Paul E. Moler,1992 The series has served as the definitive reference compendium on endangered and threatened species in Florida and is widely recognized as among the most authoritative such works in the nation I hope this revised series reinvigorates our resolve and commitment to endangered and threatened species conservation These volumes provide a comprehensive database from which to embark Robert M Brantly executive director Florida Game and Fresh Water Fish Commission from the Foreword to the series Increasing human populations and their use of land and water resources are placing unprecedented stress upon many plant and animal species unique to Florida Native habitats are rapidly being lost to agriculture ranching and forestry as well as residential and commercial development Conservation measures have been taken with success in some cases but in other cases the necessity for more stringent measures to protect the native fauna and flora has been proven Though substantial strides have been made in the last decade many Florida species are still perilously near extinction In the decades since the original publication of the Rare and Endangered Biota of Florida series new data have been gathered and the condition of the natural environment has changed In light of the continuing and increasing need to inform the residents private and government agencies and the business sector of the state the Florida Committee on Rare and Endangered Plants and Animals FCREPA has rewritten the original series Each volume is arranged in order of species status extinct extirpated endangered threatened rare and special concern The account of each species contains data categories of taxonomy description population size and trend distribution range and history of distribution geographic status habitat requirements and vulnerability of species and habitat The review of the environmental situation of the species includes causes of threat responses to habitat modification demographic characteristics key behaviors conservation measures that have been taken and those proposed for the future Tables list species currently on the FCREPA list with their status Also included are the current designations of status by the U S Fish

and Wildlife Service and the Florida Game and Fresh Water Fish Commission designations A distribution map of Florida with an inset of the continental United States Caribbean and Central and upper South America shows the range of each species and photographs or finely drawn illustrations of the species accompany the description
