Reggae, Rastafari, and the Rhetoric of Social Control Stephen A. King, 2014-07-10 Who changed Bob Marley's famous peace and love anthem into Come to Jamaica and feel all right When did the Rastafarian fighting white colonial power become the smiling Rastaman spreading beach towels for American tourists Drawing on research in social movement theory and protest music Reggae Rastafari and the Rhetoric of Social Control traces the history and rise of reggae and the story of how an island nation commandeered the music to fashion an image and entice tourists Visitors to Jamaica are often unaware that reggae was a revolutionary music rooted in the suffering of Jamaica's poor Rastafarians were once a target of police harassment and public condemnation Now the music is a marketing tool and the Rastafarians are no longer a violent counterculture but an important symbol of Jamaica's new cultural heritage This book attempts to explain how the Jamaican establishment's strategies of social control influenced the evolutionary direction of both the music and the Rastafarian movement From 1959 to 1971 Jamaica's popular music became identified with the Rastafarians a social movement that gave voice to the country's poor black communities In response to this challenge the Jamaican government banned politically controversial reggae songs from the airwaves and jailed or deported Rastafarian leaders Yet when reggae became internationally popular in the 1970s divisions among Rastafarians grew wider spawning a number of pseudo Rastafarians who embraced only the external symbolism of this worldwide religion Exploiting this opportunity Jamaica's new Prime Minister Michael Manley brought Rastafarian political imagery and themes into the mainstream Eventually reggae and Rastafari evolved into Jamaica's chief cultural commodities and tourist attractions

Hare Krishna Soka Gakkai and many more **Africa and the African Diaspora** E. Kofi Agorsah and G. Tucker Childs, 2005-12-29 Africa and the African Diaspora is the outcome of a symposium held at Portland State University in Portland Oregon February 2002 entitled Symposium on Freedom in Black History designed to celebrate Black History Month. The major themes of the conference were how Africans both at home on the continent and dispersed abroad often by forces beyond their control reacted to oppression and subjugation in seeking freedom from slavery colonialism and discrimination. The volume documents the many forms that oppression has taken the many forms that resistance has taken and the cultural developments that have allowed Africans to adapt to the new and changing economic social and environmental conditions to win back their freedom. Oppressive strategies as divide and rule could be based on any one of a number of features such as skin color place of origin culture or social or economic status. People drawn into the vortex of the Atlantic trade and funneled into the sugar fields the swampy rice lands or the cotton coffee or tobacco plantations of the new world and elsewhere had no alternative but to risk their lives for freedom. The plantation provided the context for the dehumanization of disadvantaged groups subjected to exhausting work frequent punishment and personal injustice of every kind. This book demonstrates that the history and interpretation of these struggles of the oppressed peoples to free themselves have not received proportionate attention and analysis as have other aspects of that history.
