Salvage Rites And Other Stories:

Salvage Rites and Other Stories Ian Watson,1990 Salvage Rites: And Other Stories Ian Watson,2011-09-29 Ian Watson's latest collection shows the same range and apparently inexhaustible fund of ideas that have characterized all his previous books. No other contemporary figure in SF is so prolific or inventive a writer of short stories. In the title story we immediately encounter a phantasmagoric vision of a society increasingly dependent on recycling its usable material. Other brilliant inventions include a planet inhabited by lemur-like aliens who bafflingly produce marvellously finished stone carvings without apparently having the tools to do so. The Moon and Michelangelo people fighting their way through the various levels of what appears to be a real-life version of a computer adventure game. Jewels in an Angel's Wing and a zoo in which are caged the extensions into our universe of four-dimensional hyperbeings. Hyperzoo. And that is only the beginning. There are fifteen stories in all, each one a state-of-the-art example of short science fiction at its finest. Evil Water: And Other Stories Ian Watson,2011-09-29 In his fourth short story collection, Watson again demonstrates the extraordinary scope of his imagination. The title story has ancient witchcraft meeting complacent modern suburbia in a tale of spine-chilling horror. While *When the Timegate Failed* casts an unexpected light on the dangers of space travel and man's powers of self-delusion. Alien matters of a different kind crop up in *Windows* in which mysterious artefacts found on Mars prove to be something of a problem for their chic human owners. *Evil Water* is a highly inventive collection which is a delight to read.

Stalin's Teardrops: And Other Stories Ian Watson,2011-09-29 Ian Watson is one of the most prolific short story writers in contemporary science fiction with a range and invention that others might envy. In this collection we move from a ghostly occurrence in Catalonia to a memorably hallucinatory and atmospheric tale of eggs and ectoplasm in pre glasnost Russia. The Times said of Watson that his stories are springloaded with effect, compressed with a drama that in others might take a novel to eke out. A judgement confirmed by the dozen stories collected here. **Sunstroke: And Other Stories** Ian Watson,2011-09-29 This second collection of Watson's short stories further demonstrates his seemingly inexhaustible imagination. In *The Thousand Cuts* the entire human race finds its consciousness blanked out for varying periods, but life seems somehow to have gone on in the missing days and indeed previously intractable problems have moved towards a solution. In *Sunstroke* a doctor blinded accidentally during the voyage to a seemingly benign new world becomes gradually aware of disturbing changes afflicting her sighted companions. These stories and many others confirm Watson's place in the forefront of contemporary SF writers. *The Coming of Vertumnus: And Other Stories* Ian Watson,2011-09-29 A collection of science fiction short stories by the author of *Lucky's Harvest*. They feature dozens of characters, a new way of travelling between the stars, a strange planet, magical powers, bravura set pieces and manoeuvres of narrative. *The Mammoth Encyclopedia of Science Fiction* George Mann,2012-03-01 This encyclopedia is the most up-to-date, concise, clear and affordable guide to all aspects of science fiction, from its background to generic themes and devices from authors established

and new to films Science fiction has evolved into one of the most popular cutting edge and exciting fiction genres with a proliferation of modern and classic authors themes and ideas movies TV series and awards Arranged in an A Z format and featuring a comprehensive index and cross referencing system The Mammoth Encyclopedia of Science Fiction is also the most accessible and easy to use encyclopedia of its kind currently available *Deathhunter* Ian Watson,2011-09-29 The regions that have survived the holocaust in Watson's new novel have largely transformed themselves from prewar violence into a peaceful utopia without either conflict or art In place of belief in a religious afterlife the old and ailing accept euthanasia at Houses of Death where priestlike guides counsel them One of these guides is Jim Todhunter who pursues research into the nature of death despite official censure When he is assigned to guide that rarity in the new world a murderer he finds a natural ally in the obsessive Nathan Weinberger himself an ex guide As usual with Watson the initial impression of a green and pleasant land is revealed to be only one facet of a more complex and disturbing reality **The Gardens of Delight** Ian Watson,2011-09-29 In *The Gardens of Delight* Ian Watson boldly lands a starship within the hallucinatory terrain of Hieronymus Bosch's painting *The Garden of Earthly Delights* a medieval masterpiece which enchants and horrifies all who see it for the picture shows what looks to be a paradise of pleasure yet it also displays a terrible hell of torments And so the ship's psychologist Sean Athlone and two women companions explore the luxurious landscape of giant fruits and birds and strange towers and naked celebrating people in quest of the godlike alien intelligence that has transformed a planet according to Bosch's vision populating it with the colonists from a previous starship *The Jonah Kit* Ian Watson,2011-09-29 When a young Russian boy disappears from a top secret Soviet research establishment and turns up in Tokyo he presents a major problem for the American security officials For the boy appears to be part of a sophisticated experiment and to have the mind of a supposedly dead astronaut imperfectly imprinted on his own If the boy is to be believed then the experiment has been extended to a whale In Mexico ground breaking research by Nobel Prize winner Paul Hammond has shown that what we perceive as the Universe is no more than the ghost of the real thing Signals received by his radio telescope have shown him that the Universe God created no longer exists Winner of the BSFA Award for best novel 1977 **The Book of the River** Ian Watson,2011-09-29 The river cuts right across the known world from the impassable Far Precipices to the sea The people on one bank are cut off from those on the other for the black current has the power to stop them crossing Only women can travel repeatedly up and down the river but when Yaleen joins the boating guild and becomes a riverwoman she is singled out to follow an even more extraordinary path **Lucky's Harvest** Ian Watson,2011-09-29 When she was a young girl Lucky belonged to a space going mining commune which came upon an asteroid whose caves concealed the bones of serpentine aliens and humanoids It was Lucky who discovered that the rock was an Ukko a mysterious entity which would respond to stories told to it Centuries later Lucky altered by the Ukko is still alive though capricious and sometimes crazy By mating with her her consort Bertel has had his life prolonged for centuries as will

the men who first bed her daughters Lucky's harvest **Dying Light and Other Stories** Donald Hays, 2010-05-16

Uncompromising often dark and always insightful *Dying Light* explores the mysteries of duty forgiveness power and love through a broad range of narrative voices We meet a football coach who seeks to avenge his wife's affair a delusional poet who escapes from a hospital as the bombing of Baghdad begins a woman whose son was killed in a car accident and an almost widower wistful about his first love In these and other stories Hays illuminates his characters most secret and human realizations with unwavering candor and clarity *The Book of Being* Ian Watson, 2011-09-29 The megalomaniac Godmind is still planning to use all the minds in creation to make a vast lens and if necessary it will burn out all life in the process Back beside the river and literally born again Yaldeen represents to the guild of riverwomen the perfect proof of salvation of life after death In fact she is desperately searching for a way to save the whole universe from imminent destruction

Queenmagic, Kingmagic Ian Watson, 2011-09-29 In another world somewhere in space and time two countries Bellogard and Chorny are locked in perpetual war conducted by magic Each of the main members of the two countries king queen prince bishop knight and squire has their own form of magic and special ways of moving magically A war may continue for centuries until one side succeeds in killing the other side's king at which point the whole world vanishes only to reappear and have the cycle begin again Pedino is a young Bellogardian who becomes the queen's squire and as part of his training is sent into a seedier part of the city to uncover a Chornian spy During his adventures he meets and falls in love with a whore Sara who turns out to be a Chornian bishop's squire Pedino succeeds in killing the other Chornian bishop a remarkable achievement for a mere squire but in the manoeuvres which follow Chorny proves to have outwitted its rival and Pedino's whole world is threatened with extinction There have been many stories modelled on chess games but none so ingenious and enjoyable as Ian Watson's latest novel And as one would expect from Watson the story of Bellogard and Chorny is only the beginning When Pedino and Sara manage to escape the destruction of their universe they find themselves in a series of even more bizarre worlds operating under still stranger rules as they seek to discover the purpose of their existence and the meaning of their universe *Queenmagic Kingmagic* is Ian Watson in sparkling exuberant form *The Flies of Memory* Ian Watson, 2011-09-29 Charles Spark is an expert on body language a bestselling author and a consultant or walking lie detector much in demand with industry and government So when the aliens arrive who better to join the team that will attempt to understand them But even though these insectoid aliens the Flies in their pyramid ship speak both English and Russian they seem unreadable We have come to your planet to remember it they say and at first they seem indeed to be a bizarre group of intergalactic tourists When human beings start to interfere things begin disappearing The Dome of St Peter's in Rome is the first to go followed by downtown Prague old Mombasa M nich the heart of New Orleans In an effort to understand what has happened Spark and a strange group of pilgrims embark on a bizarre journey to Mars where the city of M nich has reappeared in a canyon And where time and memory have become manifest **The Fallen Moon** Ian Watson, 2011-09-29

The second and concluding volume of Ian Watson's extraordinary epic *The Book of Mana Kaleva* is Earth's first and only interstellar colony discovered by Lucky Sariola who was transported there by an Ukko a mysterious asteroid-like entity that responds to stories told to it in Lucky's case those of her Finnish grandmother. Now Queen Lucky half mad and newly widowed is obsessed by relocating that Ukko but this is potentially disastrous as the snakelike alien Isi are also on its trail as part of their design to enslave humans. Understanding this one of Lucky's daughters with obsessions of her own crowns herself rival queen. A summer turns into unseasonable winter and elysian peace turns to bitter civil war and Ukko once more has a role to play in the history of Kaleva.

The Book of Ian Watson Ian Watson, 2011-09-29 British Science Fiction award winner Ian Watson graces us here with a brilliant new collection of short stories and essays. Though he dazzles the reader with his footwork in the kaleidoscope intensity of his vision each piece is plainly the work of a master craftsman. Whether he is dealing with a future culture where whales control us *The Culling* or taking a hilarious poke at the matter of government funding *The President's Not for Turning* his concepts are clear and undeniably logical. True to the highest ideal of science fiction Watson carries present tendencies of our society to possible conclusions in *Roof Gardens under Saturn* and points a warning finger at the consequences of alienation from the environment. In an innovative style which borders on the experimental Watson explores in *The Pharaoh and the Mademoiselle* the horrors of fascism. Ian Watson's writing stays with us. He entertains and he makes us think. If in some future and better world politicians were to take advice from writers Watson should be one of them.
