Association Educational Binds of Poverty tackles the assumptions made by many recent social and educational policy initiatives suggesting that the best way to improve educational prospects of children in poverty is through an increased emphasis upon a culture of control discipline regulation and accountability In this book Ceri Brown presents these assumptions against a review of the research literature and an original ethnographic longitudinal study into the lives of children in poverty in order to highlight the gap between policy discourses and the lived experiences of children themselves Through the theoretical concept of a set of binds against educational success the book explores four key areas that children in poverty have to navigate if they are to be successful in school These are material deprivation the cultural contexts of school home and the community friendship and social capital the effects of student mobility through atypical school changes In seeking to characterise and explain what life is like for young school children this book questions why policy makers have a radically different frame of reference in purporting to understand how their policies will change the behaviour of those living in poverty This leads onto a consideration of what lessons may be learned in order to contribute towards a more appropriate policy agenda that attends to the multiple binds that children in poverty have to negotiate América, su historia, primer libro, segundo libro ,1992

Critiquing Social and Emotional Learning Clio Stearns,2019-03-08 Social and Emotional Learning SEL has been steadily gaining traction in education but little attention has been paid to its underlying assumptions In Critiquing Social and Emotional Learning Psychodynamic and Cultural Perspectives Clio Stearns draws on qualitative classroom observations teacher interviews and analysis of prominent SEL program materials to offer a critique of SEL as a codified phenomenon Stearns questions undergirding presumptions about children teachers and SEL s interplay with cultural and educational trends Claiming that SEL participates in cultural demands for hegemonic positivity Stearns illustrates the dangers and undesirable demands of this impossible curricular regime In particular Stearns highlights how closeness and understanding in the classroom are repeatedly circumvented and how normative and necessary parts of life like negative affect and interpersonal conflict are disregarded In Stearns s view the educational community should not consider children s social and emotional worlds as fair domain for mastery or learning Instead we should consider social and emotional education as something without a predetermined endpoint requiring the joint and ongoing participation of teachers and students 66th Art Directors Annual and the First Annual International Exhibition Art Directors Club,Silver Associates Robert,1987 Josefina Learns a Lesson Valerie Tripp,1997 Josefina and her sisters do not trust the changes Tia Dolores brings to the household
