Samaritans Of Molokai:

The Samaritans of Molokai Charles Judson Dutton, 1932 *The Samaritans of Molokai, Etc* Charles Judson DUTTON, 1934 *The Samaritans of Molokai. The Lives of Father Damien and Brother Dutton Among the Lepers, Etc. [With Portraits.]* Charles Judson DUTTON, Ira Barnes DUTTON, 1932 *Exile in Paradise* Linda W. Greene, 1985 *St. Philomena Catholic Church (Father Damien's Church)*, 1985 **A Disease Apart** Tony Gould, 2014-10-07 This fascinating cultural and medical history of leprosy enriches our understanding of a still feared biblical disease. It is a condition shrouded for centuries in mystery, legend, and religious fanaticism. Societies the world over have vilified its sufferers by the sheer accident of mycobacterial infection; they have been condemned to exile and imprisonment; illness itself considered evidence of moral taint. Over the last 200 years, the story of leprosy has witnessed dramatic reversals in terms of both scientific theory and public opinion. In *A DISEASE APART*, Tony Gould traces the history of this compelling period through the lives of individual men and women, intrepid doctors, researchers, and missionaries, and a vast spectrum of patients. We meet such pioneers of treatment as the Norwegian microbe hunter Armauer Hansen. Though Hansen discovered the leprosy bacillus in 1873, the heredity vs. contagion debate raged on for decades. Meanwhile, across the world, Belgian Catholic missionary Father Damien became an international celebrity, tending to his stricken flock at the Hawaiian settlement of Molokai. He contracted the disease himself. To the British, leprosy posed an imperial danger to their sprawling colonial system. In the 1920s, Sir Leonard Rogers of the Indian Medical Service found that the ancient Hindu treatment of chaulmoogra oil could be used in an injectable form. The Cajun bayou saw the inspiring rise of leprosy's most zealous campaigner of all, a patient. At Carville, Louisiana, a Jewish Texan pharmacist named Stanley Stein was transformed by leprosy into an eloquent editor and writer. He ultimately became a thorn in the side of the U.S. Public Health Department and a close friend of Tallulah Bankhead. The personalities met on this journey are remarkable, and their stories unfold against the backgrounds of Norway, Hawaii, the Philippines, Japan, South Africa, Canada, Nigeria, Nepal, and Louisiana. Although, since the 1950s, drugs and treatments have been able to cure cases caught early, and arrest advanced cases, leprosy remains a subject mired in ignorance. In this superb and enlightened book, Tony Gould throws light into the shadows. *Missionary Women, Leprosy and Indigenous Australians, 1936-1986* Charmaine Robson, 2022-10-01 This book focuses on twentieth-century Australian leprosia to explore the lives of indigenous patients and the Catholic women missionaries who nursed them. Distinguished from previous historical studies of leprosy, the book examines the care and management of the incarcerated, enabling a broader understanding of their experience beyond a singular trope of banishment, oppression, and death. From the 1930s until the 1980s, respective governments appointed the trained sisters to four leprosia across remote northern Australia, where almost two thousand people had been removed from their homes and detained under law for years, sometimes decades. The book traces the sisters' holistic nursing from early efforts of amelioration and palliation to their part in the successful treatment of leprosy after World War II. It reveals the

ways the sisters stepped out of their assigned roles and attempted to shape the institutions as places of health and hygiene of European culture and education and of Christianity Making use of accounts from patients doctors bureaucrats missionary men and Indigenous families and communities the book offers fresh perspectives on two important strands of history First its attention to the day to day work of the Australian sisters helps to demystify leprosy healthcare by female missionaries generally Secondly with the sisters specifically caring for Indigenous people this book exposes the institutional practices and goals specific to race relations of both the Australian government and Catholic missionaries An important and timely read for anyone interested in Indigenous history medical history and the connections between race religion and healthcare this book contextualizes the twentieth century leprosy epidemic within Australia s broader colonial history **The Colony** John Tayman,2010-05-11 In the bestselling tradition of In the Heart of the Sea The Colony an impressively researched Rocky Mountain News account of the history of America s only leper colony located on the Hawaiian island of Molokai is an utterly engrossing look at a heartbreaking chapter Booklist in American history and a moving tale of the extraordinary people who endured it Beginning in 1866 and continuing for over a century more than eight thousand people suspected of having leprosy were forcibly exiled to the Hawaiian island of Molokai the longest and deadliest instance of medical segregation in American history Torn from their homes and families these men women and children were loaded into shipboard cattle stalls and abandoned in a lawless place where brutality held sway Many did not have leprosy and many who did were not contagious yet all were ensnared in a shared nightmare Here for the first time John Tayman reveals the complete history of the Molokai settlement and its unforgettable inhabitants It s an epic of ruthless manhunts thrilling escapes bizarre medical experiments and tragic irreversible error Carefully researched and masterfully told The Colony is a searing tale of individual bravery and extraordinary survival and stands as a testament to the power of faith compassion and the human spirit **Pirates, Prisoners, and Lepers** Paul H. Robinson,Sarah M. Robinson,2015-07-15 It has long been held that humans need government to impose social order on a chaotic dangerous world How then did early humans survive on the Serengeti Plain surrounded by faster stronger and bigger predators in a harsh and forbidding environment Pirates Prisoners and Lepers examines an array of natural experiments and accidents of human history to explore the fundamental nature of how human beings act when beyond the scope of the law Pirates of the 1700s the leper colony on Molokai Island prisoners of the Nazis hippie communes of the 1970s shipwreck and plane crash survivors and many more diverse groups they all existed in the absence of formal rules punishments and hierarchies Paul and Sarah Robinson draw on these real life stories to suggest that humans are predisposed to be cooperative within limits What these communities did and how they managed have dramatic implications for shaping our modern institutions Should today s criminal justice system build on people s shared intuitions about justice Or are we better off acknowledging this aspect of human nature but using law to temper it Knowing the true nature of our human character and our innate ideas about justice offers a roadmap to a better society Bulletin of the
