Same Only Different:

The Same . . . Only Different Don Souden, 2003-12 The past comes alive with deadly force when Dan Fowler returns to the Connecticut town where he grew up He is quickly thrust into the mysterious shooting of a young soldier by a beautiful woman in the waning days of World War II The shooting had been swept swiftly under a rug but Dan's new employer thinks it was cold blooded murder And as Dan starts sifting through the remaining evidence he begins to smell the fishy stench of a massive cover up Dan goes back a half century in time and as far south as Florida as he seeks to make sense of a very cold trail Things heat up in a hurry however and Dan soon finds himself the target of a very much alive and resourceful enemy determined to keep the past buried As he tries to keep himself alive while he untangles the mystery Dan also attempts to cope with the many changes his hometown has endured He meets old friends makes new ones and with their help uncovers the sordid truth behind murders old and new

Same Sex, Different Politics Gary Mucciaroni, 2009-05-15 Why is it so much harder for American same sex couples to get married than it is for them to adopt children And why does our military prevent gays from serving openly even though jurisdictions nationwide continue to render such discrimination illegal Illuminating the conditions that engender these contradictory policies *Same Sex Different Politics* explains why gay rights advocates have achieved dramatically different levels of success from one policy area to another The first book to compare results across a wide range of gay rights struggles this volume explores debates over laws governing military service homosexual conduct adoption marriage and partner recognition hate crimes and civil rights It reveals that in each area the gay rights movement's achievements depend both on Americans' perceptions of its demands and on the political venue in which the conflict plays out Adoption policy for example generally takes shape in a decentralized system of courts that enables couples to target sympathetic judges while fights for gay marriage generally culminate in legislation or ballot referenda against which it is easier to mount opposition Brilliantly synthesizing all the factors that contribute to each kind of outcome *Same Sex Different Politics* establishes a new framework for understanding the trajectory of a movement

Same Bodies, Different Women Christopher Mielke, Andrea-Bianka Znorovszky, 2019-12-31 This volume is a collection

of essays focusing on marginalized women mostly in Central and Eastern Europe from around 1350 to 1650 Other women are discussed in three different categories women whose religious practices put them on the social margins common women who are in society but not of society because they are in the sex trade and women whose occupations were reason enough to shunt them In order to fill a gap in gender history for countries east of the Rhine River the studies included present how official city funded brothels in medieval Austria worked how a princess disability affected her life as Byzantine empress how one unmarried Transylvanian woman who got pregnant dealt with being the center of a court case and how enslaved women in medieval Hungary were treated as sexual property The hope with this volume is that it will show the many interdisciplinary ways that women on the margins can be studied in this region and to diminish the taboo of discussing this topic to begin with

Can Different Cultures Think the Same Thoughts? Kenneth Dorter, 2018-04-30 A welcome contribution to the burgeoning multicultural revolution in philosophy persuasively shows that ethics cannot be innocent of metaphysics Bryan W Van Norden author of Introduction to Classical Chinese Philosophy Kenneth Dorter's Can Different Cultures Think the Same

Thoughts is a study of fundamental issues in metaphysics and ethics across major philosophical traditions of the world including the way in which metaphysics can be a foundation for ethics as well as the importance of metaphysics on its own terms. Dorter examines such questions through a detailed comparison of selected major thinkers and classic works in three global philosophical traditions: those of India, China, and the West. In each chapter, Dorter juxtaposes and compares two or more philosophers or classic works from different traditions, from Spinoza and Shankara to Confucius and Plato to Marcus Aurelius and the Bhagavad Gita. In doing so, he explores different perspectives and reveals limitations and assumptions that might otherwise be obscure. The goal of Dorter's cross-cultural approach is to consider how far works from different cultures can be understood as holding comparable philosophical views. Although Dorter reveals commonalities across the different traditions, he makes no claim that there is such a thing as a universal philosophy. Clearly, there are fundamental disagreements among the philosophers and works studied. Yet in each of the case studies of a particular chapter, we can discover a shared or at least analogous way of looking at issues across different cultures. All those interested in metaphysics, ethics, Indian philosophy, Chinese philosophy, and comparative philosophy will find much of interest in this book.

Same Family, Different Colors Lori L. Tharps, 2017-10-03 Weaving together personal stories, history, and analysis, *Same Family, Different Colors* explores the myriad ways skin color politics affect family dynamics in the United States. Colorism and color bias—the preference for or presumed superiority of people based on the color of their skin—is a pervasive and damaging but rarely openly discussed phenomenon. In this unprecedented book, Lori L. Tharps explores the issue in African American, Latino, Asian American, and mixed-race families and communities by weaving together personal stories, history, and analysis. The result is a compelling portrait of the myriad ways skin color politics affect family dynamics in the United States. Tharps, the mother of three mixed-race children with three distinct skin colors, uses her own family as a starting point to investigate how skin color difference is dealt with. Her journey takes her across the country and into the lives of dozens of diverse individuals, all of whom have grappled with skin color politics and speak candidly about experiences that sometimes scarred them. From a Latina woman who was told she couldn't be in her best friend's wedding photos because her dark skin would spoil the pictures to a light-skinned African American man who spent his entire childhood trying to be Black, Tharps illuminates the complex and multifaceted ways that colorism affects our self-esteem and shapes our lives and relationships. Along with intimate and revealing stories, Tharps adds a historical overview and a contemporary cultural critique to contextualize how various communities and individuals navigate skin color politics. Groundbreaking and urgent, *Same Family, Different Colors* is a solution-seeking journey to the heart of identity politics so that this more subtle cousin to racism, in the author's words, will be exposed and confronted.

Foundations of Modern Harmony by composer and music theorist Karel Janec ek addresses the analysis and composition of music not based on the tonal harmony that was common language until the early 20th century Discussing this newer music requires a vocabulary in which all combinations of notes or chords can be named Janec ek developed his theory of modern harmony over many years In this book he classifies chords according to their intervallic structure their possible arrangements and then based on their consonance and dissonance His focus on what we hear leads to a discussion of imaginary pitches those that are still heard after they are no longer sounding Dealing with such issues as harmonizing a melody resolving dissonant chords and the formation and extinction of a sense of the tonic Jane ek s work is an exciting complement to the theories of Schoenberg and Hindemith His discussion of harmonic motion leads to the consideration of harmonic function of establishing the tonic of modulation of atonal composition and of static and kinetic conceptions of harmony First published in 1965 and translated into English for the first time Jane ek s concerns are of continuing
