**Inclusion in Urban Educational Environments** Denise E. Armstrong, Brenda J. McMahon, 2006-06-01 This book is motivated by our experiences in working with students and their families in urban communities We are particularly concerned about the urgent imperative to address the endemic educational and societal challenges that pervade the lives of urban students particularly those who live in poverty are of minority and immigrant backgrounds and are otherwise marginalized within the current educational discourses and practices In spite of the fact that over the last 3 decades policy makers educators and communities across the globe have called for in depth structural changes this is rarely evidenced in the discourses practices and structures within academic and practitioner spheres This reluctance despite articulations to the contrary can be directly linked to normative theoretical and practical perspectives that are defined by assumptions that constrain urban students within restrictive boundaries These narrow outsider worldviews based on notions of what ought to be combined with ignorance of the realities of students lives focus on deviance and deficits They blind prospective change agents to the strengths and richness that students bring and they delimit the transformative potential of social justice praxis within urban environments The resulting discourse in the form of deficit beliefs thoughts actions and dialogues shapes urban research theory and practice We contend that in order to counteract the debilitating impacts of these harmful constructions of urban and social justice it is important to clarify this terminology

Common Law Judging Douglas E. Edlin, 2020-03-06 Are judges supposed to be objective Citizens scholars and legal professionals commonly assume that subjectivity and objectivity are opposites with the corollary that subjectivity is a vice and objectivity is a virtue These

assumptions underlie passionate debates over adherence to original intent and judicial activism In Common Law Judging Douglas Edlin challenges these widely held assumptions by reorienting the entire discussion Rather than analyze judging in terms of objectivity and truth he argues that we should instead approach the role of a judge s individual perspective in terms of intersubjectivity and validity Drawing upon Kantian aesthetic theory as well as case law legal theory and constitutional theory Edlin develops a new conceptual framework for the respective roles of the individual judge and of the judiciary as an institution as well as the relationship between them as integral parts of the broader legal and political community Specifically Edlin situates a judge s subjective responses within a form of legal reasoning and reflective judgment that must be communicated to different audiences Edlin concludes that the individual values and perspectives of judges are indispensable both to their judgments in specific cases and to the independence of the courts According to the common law tradition judicial subjectivity is a virtue not a vice
