Samtliche Werke Und Briefe Vol 1:

Women Warriors in Romantic Drama Wendy C. Nielsen, 2013 Women Warriors in Romantic Drama advances scholarship on late eighteenth and early nineteenth century theater by bringing together for the first time female and male dramatists as well as British German Irish and French writers thinkers actors and philosophers This transnational perspective allows Women Warriors in Romantic Drama to make the provocative claim that in some instances the violence of the French Revolution and especially women s participation in it advances proto feminist concerns Staging Blackness and Performing Whiteness in Eighteenth-Century German Drama Wendy Sutherland, 2017-05-15 Focusing on eighteenth century cultural productions Wendy Sutherland examines how representations of race in philosophy anthropology aesthetics drama and court painting influenced the construction of a white bourgeois German self Sutherland positions her work within the framework of the transatlantic slave trade showing that slavery colonialism and the triangular trade between Europe West Africa and the Caribbean function as the global stage on which German bourgeois dramas by Friedrich Wilhelm Ziegler Ernst Lorenz Rathlef and Theodor Körner and a novella by Heinrich von Kleist on which Körner s play was based were performed against a backdrop of philosophical and anthropological influences Plays had an important role in educating the rising bourgeois class in morality Sutherland argues with fathers and daughters offered as exemplary moral figures in contrast to the depraved aristocracy At the same time black female protagonists in nontraditional dramas represent the boundaries of physical beauty and marriage eligibility while also complicating ideas of moral beauty embodied in the concept of the beautiful soul Her book offers convincing evidence that the eighteenth century German stage grappled with the representation of blackness during the Age of Goethe even though the German states were neither colonial powers nor direct participants in the slave trade Tragedy and the Tragic in German Literature, Art, and Thought Stephen D. Dowden, Thomas P. Quinn, 2014 Essays in this volume seek to clarify the meaning of tragedy and the tragic in its many German contexts art forms and disciplines from literature and philosophy to music painting and history **1870/71 - 1989/90** Walter Pape, 2013-08-08 No detailed description available for 1870 71 1989 90 *Operatic Pasticcios in 18th-Century Europe* Berthold Over, Gesa zur Nieden, 2021-04-16 In Early Modern times techniques of assembling compiling and arranging pre existing material were part of the established working methods in many arts In the world of 18th century opera such practices ensured that operas could become a commercial success because the substitution or compilation of arias fitting the singer s abilities proved the best recipe for fulfilling the expectations of audiences Known as pasticcios since the 18th century these operas have long been considered inferior patchwork The volume collects essays that reconsider the pasticcio contextualize it define its preconditions look at its material aspects and uncover its aesthetical principles *Georg Büchner*, 2017-03-06 Georg Büchner Contemporary Perspectives examines the continuing relevance of Büchner in the early twenty first century in terms of politics science philosophy aesthetics cultural studies and performance studies It situates B

Chner's interdisciplinary work in relation to the philosophical scientific and religious discourses of his time while also investigating the ways in which Bchner's intersectional writings anticipated sometimes uncannily questions and problems which were to become central concerns in modernism and after. The nineteen essays in the book some in English and some in German uniquely combine close readings of individual passages and images with wide ranging intertextual comparisons linking Bchner to more than twenty five writers thinkers and theoreticians from his time and ours. Der Band Georg Bchner Contemporary Perspectives beschäftigt sich mit Bchners anhaltender Aktualität in den Bereichen Politik Naturwissenschaft Philosophie Ästhetik Kulturwissenschaft und Theater. Er setzt Bchners interdisziplinäres Werk in Beziehung zu den philosophischen naturwissenschaftlichen und religiösen Themen seiner Zeit untersucht aber auch wie sein Schreiben auf manchmal verblüffende Weise Fragen und Probleme vorwegnimmt die für die Moderne und die Nachmoderne bis zum heutigen Tag zentral werden sollten. Die neunzehn teils auf Englisch teils auf Deutsch verfassten Beiträge zeichnen sich dadurch aus dass sie eingehende Einzelinterpretationen bestimmter Werkstellen mit weitreichenden intertextuellen Bezügen zu mehr als 25 SchriftstellerInnen KünstlerInnen DenkerInnen und TheoretikerInnen verbinden.

The Aesthetics of Kinship Heidi Schlipphacke, 2023-01-13 The Aesthetics of Kinship intervenes critically into rigidified discourses about the emergence of the nuclear family and the corresponding interior subject in the eighteenth century. By focusing on kinship constellations instead of family plots in seminal literary works of the period this book presents an alternative view of the eighteenth century literary social world and its concomitant ideologies. Whereas Enlightenment and post Enlightenment philosophy and political theory posit the nuclear family as a microcosm for the ideal modern nation state literature of the period offers a far more heterogeneous image of kinship structures one that includes members of various classes and is not defined by blood. Through a radical re-reading of the multifarious kinship structures represented in literature of the long eighteenth century The Aesthetics of Kinship questions the inevitability of the dialectic of the Enlightenment and invokes alternative futures for conceptions of social and political life.

Performing Knowledge, 1750-1850 Mary Helen Dupree, Sean B. Franzel, 2015-07-31 The period between 1750 and 1850 was a time when knowledge and its modes of transmission were reconsidered and reworked in fundamental ways. Social and political transformations such as the French Revolution and the Industrial Revolution went hand in hand with in new ways of viewing sensing and experiencing what was perceived to be a rapidly changing world. This volume brings together a range of essays that explore the performance of knowledge in the period from 1750 to 1850 in the broadest possible sense. The essays explore a wide variety of literary theatrical and scientific events staged during this period including scientific demonstrations philosophical lectures theatrical performances stage design botany primers musical publications staged Schiller memorials acoustic performances and literary declamations. These events served as vital conduits for the larger process of generating differentiating and circulating knowledge. By unpacking the significance of performance and performativity for the creation and circulation of

knowledge in Germany during this period the volume makes an important contribution to interdisciplinary German cultural studies performance studies and the history of knowledge

The Third Culture: Literature and Science Elinor S. Shaffer, 2011-05-02 No detailed description available for The Third Culture Literature and Science Bach's Cycle, Mozart's Arrow Karol Berger, 2007 Karol Berger uses the works of Monteverdi Bach Mozart and Beethoven to support two claims first that it was only in the later 18th century that music began to take the flow of time from the past to the future seriously and second that this change in structure was an aspect of a larger transformation towards modernity Hegel and the Freedom of Moderns Domenico Losurdo, 2004-08-18 Translated into English for the first time this work portrays a different side of Hegel not just as a philosopher preoccupied with abstract ideas but a man deeply enmeshed and active in the pressing concrete political issues of his time Absolute War Mark Hewitson, 2017-02-09 Wars have played a fundamental part in modern German history Although infrequent conflicts involving German states have usually been extensive and often catastrophic constituting turning points for Europe as a whole Absolute War is the first in a series of studies from Mark Hewitson that explore how such conflicts were experienced by soldiers and civilians during wartime and how they were subsequently imagined and understood during peacetime from Clausewitz and Kleist to J nger and Adorno Without such an understanding it is difficult to make sense of the dramatic shifts characterising the politics of Germany and Europe over the past two centuries The studies argue that the ease or reluctance with which Germans went to war and the far reaching consequences of such wars on domestic politics were related to soldiers and civilians attitudes to violence and death as well as to long term transformations in contemporaries conceptualisation of conflict Absolute War reassesses the meaning of military conflict for the millions of German subjects who were directly implicated in the Revolutionary and Napoleonic Wars Based on a re reading of contemporary diaries letters memoirs official correspondence press reports pamphlets treatises plays and cartoons this volume refocuses attention on combat and conscription as the central components of new forms of mass warfare It concentrates in particular on the impact of violence killing and death on many soldiers and some civilians experiences and subsequent memories of conflict War has often been conceived of as an act of violence pushed to its utmost bounds as Clausewitz put it but the relationship between military conflicts and violent acts remains a problematic one
