**San Francisco's Bayview Hunters Point** Tricia O'Brien, 2005 It's hard to imagine cows walking up Third Street or sheep on Innes Avenue yet a large portion of the area known today as Bayview Hunters Point was once extremely rural. Called Butchertown by locals, the neighborhood was a source of much of San Francisco's food. Over the years it evolved into an interesting combination of residences, businesses, and industries. The area was home to slaughterhouses, tanneries, tallow works, a saddle shop, the Bethlehem Steel Corporation, numerous boat yards including the legendary Allemand Brothers Boat Repair and the U.S. Naval operations at Hunters Point Shipyard. Alongside these entities lived thousands of residents with unique stories and lifestyles.

**San Francisco's Pacific Heights and Presidio Heights** Tricia O'Brien, 2008 The prestige of Pacific Heights and Presidio Heights has long fascinated and awed San Francisco residents and visitors. The westward expansion of the city followed by the addition of cable car lines quickly transformed these once barren outlands into gardens, schools, consulates, and homes both extravagant and simple. Attracted to the stunning views and unique architecture, prominent and humble families alike have formed the fascinating role of Pacific Heights and Presidio Heights in San Francisco lore.

*Lefty O'Doul* Dennis Snelling, 2017-05-01 From San Francisco to the Ginza in Tokyo, Lefty O'Doul relates the untold story of one of baseball's greatest hitters, most colorful characters, and the unofficial father of professional baseball in Japan. Lefty O'Doul, 1897-1969, began his career on the sandlots of San Francisco and was drafted by the Yankees as a pitcher. Although an arm injury and his refusal to give up the mound clouded his first four years, he converted into an outfielder. After four Minor League seasons, he returned to the Major Leagues to become one of the game's most prolific power hitters, retiring with the fourth highest lifetime batting average in Major League history. A self-taught scientific hitter, O'Doul then became the game's preeminent hitting instructor, counting Joe DiMaggio and Ted Williams as his top disciples. In 1931, O'Doul traveled to Japan with an All-Star team and later convinced Babe Ruth to headline a 1934 tour. By helping to establish the professional game in Japan, he paved the way for Hideo Nomo, Ichiro Suzuki, and Hideki Matsui to play in the American Major Leagues. O'Doul's finest moment came in 1949 when General Douglas MacArthur asked him to bring a baseball team to Japan, a tour that MacArthur later praised as one of the greatest diplomatic efforts in U.S. history. O'Doul became one of the most successful managers in the Pacific Coast League and was instrumental in spreading baseball's growth and popularity in Japan. He is still beloved in Japan, where in 2002 he was inducted into the Japanese Baseball Hall of Fame.

**The Western Historical Quarterly**, 2019 *Pictures of a Gone City* Richard A. Walker, 2018-06-01 The San Francisco Bay Area is currently the jewel in the crown of capitalism, the tech capital of the world, and a gusher of wealth from the Silicon Gold Rush. It has been generating jobs, spawning new innovation, and spreading ideas that are changing lives everywhere. It boasts of being the Left Coast, the Greenest City, and the best place for workers in the USA. So what could be wrong? It may seem that the Bay Area has the best of it in Trump's America, but there is a dark side of success: overheated.

bubbles and spectacular crashes exploding inequality and millions of underpaid workers a boiling housing crisis mass displacement and severe environmental damage a delusional tech elite and complicity with the worst in American politics This sweeping account of the Bay Area in the age of the tech boom covers many bases It begins with the phenomenal concentration of IT in Greater Silicon Valley the fabulous economic growth of the bay region and the unbelievable wealth piling up for the 1% and high incomes of Upper Classes in contrast to the fate of the working class and people of color earning poverty wages and struggling to keep their heads above water The middle chapters survey the urban scene including the greatest housing bubble in the United States a metropolis exploding in every direction and a geography turned inside out Lastly it hits the environmental impact of the boom the fantastical ideology of TechWorld and the political implications of the tech led transformation of the bay region

**Peoples Temple and Black Religion in America** Rebecca Moore,Anthony B. Pinn,Mary R. Sawyer,2004-03-11 The Peoples Temple movement ended on November 18 1978 when more than 900 men women and children died in a ritual of murder and suicide in their utopianist community of Jonestown Guyana Only a handful lived to tell their story As is well known Jim Jones the leader of Peoples Temple was white but most of his followers were black Despite that little has been written about Peoples Temple in the context of black religion in America In 10 essays writers from various disciplines address this gap in the scholarship Twenty five years after the tragedy at Jonestown they assess the impact of the black religious experience on Peoples Temple

The Green City and Social Injustice Isabelle Anguelovski,James J. T. Connolly,2021-11-29 The Green City and Social Injustice examines the recent urban environmental trajectory of 21 cities in Europe and North America over a 20 year period It analyses the circumstances under which greening interventions can create a new set of inequalities for socially vulnerable residents while also failing to eliminate other environmental risks and impacts Based on fieldwork in ten countries and on the analysis of core planning policy and activist documents and data the book offers a critical view of the growing green planning orthodoxy in the Global North It highlights the entanglements of this tenet with neoliberal municipal policies including budget cuts for community initiatives long term green spaces and housing for the most fragile residents and the focus on large scale urban redevelopment and high end real estate investment It also discusses hopeful experiences from cities where urban greening has long been accompanied by social equity policies or managed by community groups organizing around environmental justice goals and strategies The book examines how displacement and gentrification in the context of greening are not only physical but also socio cultural creating new forms of social erasure and trauma for vulnerable residents Its breadth and diversity allow students scholars and researchers to debunk the often depoliticized branding and selling of green cities and reinsert core equity and justice issues into green city planning a much needed perspective Building from this critical view the book also shows how cities that prioritize equity in green access in secure housing and in bold social policies can achieve both environmental and social gains for all

San Francisco Landmarks Catherine Accardi,2012 San Francisco is one of the most

recognized and beloved cities in the United States brilliantly illustrated through a visual history of 493 designated local state and national landmarks San Francisco's attributes speak to us through stunning topography the arts and a unique array of architectural styles The city inherited the imprint left by the Spanish with Mission Dolores by the Gold Rush with Jackson Square and by 20th century entrepreneurs with the Bank of Italy The period from the 1920s to 1950s brought a growing cosmopolitan metropolis with such landmarks as the Mark Hopkins Hotel and the Golden Gate Bridge Residents and visitors want to know why there is a monument in the neighborhood park and why the delightful Victorians next door have a historic plaque by their front steps Each landmark embodies the characteristics of the surrounding community and the history of the City by the Bay

**The Love That Matters** Charles H. Featherstone, 2015-01-01 A blond haired blue eyed Lutheran man is approached on the streets of Chicago by members of the Latin Kings so he may teach them how to pray and he does so with grace this man's story one suspects isn't going to be a typical one Life has not been easy for Charles Featherstone From being bullied by peers and teachers in school to his refusing to become a bully himself by leaving the armed services to wandering the world in search of work and finding unexpected hospitality as an outsider nearly everywhere to witnessing the 9/11 attacks from his nearby office Featherstone's story is a tale of survival akin to Jacob's wrestling the angel at the River Jabbok It may well leave the reader limping a bit too for the encounter with God found in these pages is stark and startling Truly God's love knows no bounds and cannot be captured by labels but as Featherstone's life attests that love just might capture you
