San Jacinto 1 A Historical Ecological Approach To An Archaic Site In Colombia:

San Jacinto 1 Augusto Oyuela-Caycedo, Renee M. Bonzani, 2005-06-26 A significant work of neotropical archaeology presenting evidence of early hunter gatherers who produced fiber tempered ceramics Few topics in the development of humans have prompted as much interest and debate as those of the origins of pottery and agriculture The first appearance of pottery in any area of the world is heralded as a new stage in the progress of humans toward a more complex arrangement of thought and society Cultures are defined and separated by the occurrence of pottery types and the association of pottery with mobility and agriculture continues to drive research in anthropology For these reasons the discovery of the earliest fiber tempered pottery in the New World and carbonized remains identified as maize kernels is exciting San Jacinto 1 is the archaeological site located in the savanna region of the north coast of Colombia South America where excavations by led by the authors have revealed evidence of mobile hunter gatherers who made pottery and who collected and processed plants from 6000 to 5000 B P The site is believed to show an early human adaptation to the tropics in the context of significant environmental changes that were taking place at the time This volume presents the data gathered and the interpretations made during excavation and analysis of the San Jacinto 1 site By examining the social activities of a human population in a highly seasonal environment it adds greatly to our contemporary understanding of the historical ecology of the tropics Study of the artifacts excavated at the site allows a window into the early processes of food production in the New World Finally the data reveals that the origins of ceramic technology in the tropics were tied to a reduction in mobility and an increase in territoriality and are widely applicable to similar studies of sedentism and agriculture worldwide **A Prehistory of South**

America Jerry D. Moore, 2014-07-09 A Prehistory of South America is an overview of the ancient and historic native cultures of the entire continent of South America based on the most recent archaeological investigations This accessible clearly written text is designed to engage undergraduate and beginning graduate students in anthropology For more than 12 000 years South American cultures ranged from mobile hunters and gatherers to rulers and residents of colossal cities In the process native South American societies made advancements in agriculture and economic systems and created great works of art in pottery textiles precious metals and stone that still awe the modern eye Organized in broad chronological periods A Prehistory of South America explores these diverse human achievements emphasizing the many adaptations of peoples from a continent wide perspective Moore examines the archaeologies of societies across South America from the arid deserts of the Pacific coast and the frigid Andean highlands to the humid lowlands of the Amazon Basin and the fjords of Patagonia and beyond Illustrated in full color and suitable for an educated general reader interested in the Precolumbian peoples of South America A Prehistory of South America is a long overdue addition to the literature on South American archaeology *The Eastern Archaic, Historicized* Kenneth E. Sassaman, 2010-08-16 The Eastern Archaic Historicized offers an alternative perspective on the genesis and transformation of cultural diversity over eight millennia of hunter gatherer dwelling in

eastern North America For many decades archaeological understanding of Archaic diversity has been dominated by perspectives that emphasize localized relationships between humans and environment The evidence shows however that Archaic people routinely associated with other groups throughout eastern North America and expressed themselves materially in ways that reveal historical links to other places and times Starting with the colonization of eastern North America by two distinct ancestral lines the Eastern Archaic was an era of migrations ethnogenesis and coalescence an 8 200 year era of making histories through interactions and expressing them culturally in ritual and performance

The Archaeology of Caribbean and Circum-Caribbean Farmers (6000 BC - AD 1500) Basil Reid, 2018-05-16 Comprising 17 chapters and with a wide geographic reach stretching from the Florida Keys in the north to the Guianas in the south this volume places a well needed academic spotlight on what is generally considered an integral topic in Caribbean and circum Caribbean archaeology The book explores a variety of issues including the introduction and dispersal of early cultivars plant manipulation animal domestication dietary profiles and landscape modifications Tried and true and novel analytical techniques are used to tease out aspects of the Caribbean and circum Caribbean database that inform the complex and often subtle processes of domestication under varying socio environmental conditions Contributors discuss their findings within multiple constructs such as neolithisation social interaction trade mobility social complexity migration colonisation and historical ecology Multiple data sources are used which include but are not restricted to rock art cooking pits and pots stable isotopes dental calculus and pathologies starch grains and proxies for past environmental conditions Given its multi disciplinary approaches this volume should be of immense value to both researchers and students of Caribbean archaeology biogeography ethnobotany zooarchaeology historical ecology agriculture environmental studies history and other related fields

Andean Foodways John E. Staller, 2020-12-01 There is widespread acknowledgement among anthropologists archaeologists ethnobotanists as well as researchers in related disciplines that specific foods and cuisines are linked very strongly to the formation and maintenance of cultural identity and ethnicity Strong associations of foodways with culture are particularly characteristic of South American Andean cultures Food and drink convey complex social and cultural meanings that can provide insights into regional interactions social complexity cultural hybridization and ethnogenesis This edited volume presents novel and creative anthropological archaeological historical and iconographic research on Andean food and culture from diverse temporal periods and spatial settings The breadth and scope of the contributions provides original insights into a diversity of topics such as the role of food in Andean political economies the transformation of foodways and cuisines through time and ancient iconographic representations of plants and animals that were used as food Thus this volume is distinguished from most of the published literature in that specific foods cuisines and culinary practices are the primary subject matter through which aspects of Andean culture are interpreted

Historical Ecologies, Heterarchies and Transtemporal Landscapes Celeste Ray, Manuel Fernández-Götz, 2019-04-23 Interlacing varied approaches within Historical

Ecology this volume offers new routes to researching and understanding human environmental interactions and the heterarchical power relations that shape both socioecological change and resilience over time Historical Ecology draws from archaeology archival research ethnography the humanities and the biophysical sciences to merge the history of the Earth's biophysical system with the history of humanity Considering landscape as the spatial manifestation of the relations between humans and their environments through time the authors in this volume examine the multi directional power dynamics that have shaped settlement agrarian monumental and ritual landscapes through the long term field projects they have pursued around the globe Examining both biocultural stability and change through the longue dur e in different regions these essays highlight intersectionality and counterpoised power flows to demonstrate that alongside and in spite of hierarchical ideologies the daily life of power is heterarchical Knowledge of transtemporal human environmental relationships is necessary for strategizing socioecological resilience Historical Ecology shows how the past can be useful to the future

The Nature and Pace of Change in American Indian Cultures R. Michael Stewart, Kurt W. Carr, Paul A. Raber, 2016-03-31 Three thousand to four thousand years ago the Native Americans of the mid Atlantic region experienced a groundswell of cultural innovation This remarkable era known as the Transitional period saw the advent of broad bladed bifaces cache blades ceramics steatite bowls and sustained trade among other ingenious and novel objects and behaviors In *The Nature and Pace of Change in American Indian Cultures* eight expert contributors examine the Transitional period in Pennsylvania and posit potential explanations of the significant changes in social and cultural life at that time Building upon sixty years of accumulated data corrected radiocarbon dating and fresh research scholars are reimagining the ancient environment in which native people lived *The Nature and Pace of Change in American Indian Cultures* will give readers new insights into a singular moment in the prehistory of the mid Atlantic region and the daily lives of the people who lived there The contributors are Joseph R Blondino Kurt W Carr Patricia E Miller Roger Moeller Paul A Raber R Michael Stewart Frank J Vento Robert D Wall and Heather A Wholey

Rethinking the Andes-Amazonia Divide Adrian J. Pearce, David G. Beresford-Jones, Paul Heggarty, 2020-10-21 Nowhere on Earth is there an ecological transformation so swift and so extreme as between the snow line of the high Andes and the tropical rainforest of Amazonia The different disciplines that research the human past in South America have long tended to treat these two great subzones of the continent as self contained enough to be taken independently of each other Objections have repeatedly been raised however to warn against imagining too sharp a divide between the people and societies of the Andes and Amazonia when there are also clear indications of significant connections and transitions between them *Rethinking the Andes Amazonia Divide* brings together archaeologists linguists geneticists anthropologists ethnohistorians and historians to explore both correlations and contrasts in how the various disciplines see the relationship between the Andes and Amazonia from deepest prehistory up to the European colonial period The volume emerges from an innovative programme of conferences and symposia conceived explicitly to foster awareness

discussion and co operation across the divides between disciplines Underway since 2008 this programme has already yielded major publications on the Andean past including History and Language in the Andes 2011 and Archaeology and Language in the Andes 2012

Handbook of South American Archaeology Helaine Silverman, William Isbell, 2008-04-06 Perhaps the contributions of South American archaeology to the larger field of world archaeology have been inadequately recognized If so this is probably because there have been relatively few archaeologists working in South America outside of Peru and recent advances in knowledge in other parts of the continent are only beginning to enter larger archaeological discourse Many ideas of and about South American archaeology held by scholars from outside the area are going to change irrevocably with the appearance of the present volume Not only does the Handbook of South American Archaeology HSAA provide immense and broad information about ancient South America the volume also showcases the contributions made by South Americans to social theory Moreover one of the merits of this volume is that about half the authors 30 are South Americans and the bibliographies in their chapters will be especially useful guides to Spanish and Portuguese literature as well as to the latest research It is inevitable that the HSAA will be compared with the multi volume Handbook of South American Indians HSAI with its detailed descriptions of indigenous peoples of South America that was organized and edited by Julian Steward Although there are heroic archaeological essays in the HSAI by the likes of Junius Bird Gordon Willey John Rowe and John Murra Steward states frankly in his introduction to Volume Two that arch ology is included by way of background to the ethnographic chapters

Islands in the Rainforest Stéphen Rostain, 2016-12-05 St phen Rostain s book is a culmination of 25 years of research on the extensive human modification of the wetlands environment of Guiana and how it reshapes our thinking of ancient settlement in lowland South America and other tropical zones Rostain demonstrates that populations were capable of developing intensive raised field agriculture which supported significant human density and construct causeways habitation mounds canals and reservoirs to meet their needs The work is comparative in every sense drawing on ethnology ethnohistory ecology and geography contrasting island Guiana with other wetland regions around the world and examining millennia of pre Columbian settlement and colonial occupation alike Rostain s work demands a radical rethinking of conventional wisdom about settlement in tropical lowlands and landscape management by its inhabitants over the course of millennia

The Ancient Central Andes Jeffrey Quilter, 2022-05-05 The Ancient Central Andes presents a general overview of the prehistoric peoples and cultures of the Central Andes the region now encompassing most of Peru and significant parts of Ecuador Bolivia northern Chile and northwestern Argentina The book contextualizes past and modern scholarship and provides a balanced view of current research Two opening chapters present the intellectual political and practical background and history of research in the Central Andes and the spatial temporal and formal dimensions of the study of its past Chapters then proceed in chronological order from remote antiquity to the Spanish Conquest A number of important themes run through the book including the tension between those scholars who wish to study Peruvian antiquity

on a comparative basis and those who take historicist approaches the concept of Lo Andino commonly used by many specialists that assumes long term unchanging patterns of culture some of which are claimed to persist to the present and culture change related to severe environmental events Consensus opinions on interpretations are highlighted as are disputes among scholars regarding interpretations of the past The Ancient Central Andes provides an up to date objective survey of the archaeology of the Central Andes that is much needed Students and interested readers will benefit greatly from this introduction to a key period in South America s past

Communities in Contact Corinne Lisette Hofman, Anne van Duijvenbode, 2011 Communities in Contact represents the outcome of the Fourth International Leiden in the Caribbean symposium entitled From Prehistory to Ethnography in the circum Caribbean The contributions included in this volume cover a wide range of topics from a variety of disciplines archaeology bioarchaeology ethnohistory and ethnography revolving around the themes of mobility and exchange culture contact and settlement and community The application of innovative approaches and the multi dimensional character of these essays have provided exiting new perspectives on the indigenous communities of the circum Caribbean and Amazonian regions throughout prehistory until the present

South American Contributions to World Archaeology Mariano Bonomo, Sonia Archila, 2021-11-08 This book focuses on South American archaeology and its contributions to the broader global archaeological discussion in theory methods and new interpretations of the archaeological record These include discussions on human peopling and colonization of the continent domestication of plants and emergence of complex societies This volume covers a wide variety of sub disciplines in archaeology including archaeobotany zooarchaeology molecular archaeology bioarchaeology geoarchaeology The chapters span from the pre Columbian to contemporaneous indigenous societies for all the main geographical and ecological zones of South America The book discusses how particular cases of South American archaeology have contributed to the understanding of a global and basic issue human relations with their environments and landscapes during the past The authors focus on the latest results produced by multidisciplinary studies carried out at archaeological sites in several areas of South America ranging from studies of early hunter gatherers through the historic period This work would be of interest to researchers in archaeology and Latin American studies

Archaeological Soil and Sediment Micromorphology Cristiano Nicosia, Georges Stoops, 2017-10-23 Archaeological Soil and Sediment Micromorphology goes beyond a mere review of current literature and features the most up to date contributions from numerous scientists working in the field The book represents a groundbreaking and comprehensive resource covering the plethora of applications of micromorphology in archaeology Archaeological Soil and Sediment Micromorphology offers researchers students and professionals a systematic tool for the interpretation of thin sections of archaeological contexts This important resource is also designed to help stimulate the use of micromorphology in archaeology outside Europe where the technique is less frequently employed Moreover the authors hope to strengthen the proper application of soil micromorphology in archaeology by illustrating its possibilities and referring in

several cases to more specialized publications for instance in the field of plant remains pottery and phytoliths Written for anyone interested in the topic this important text offers Contributions from most of the world s leading authorities on soil micromorphology A series of chapters on the major topics selected among the most recurrent in literature about archaeological soil micromorphology Systematic descriptions of all important micromorphological features Special analytical tools employed on thin sections such as SEM EDS image analysis fluorescence microscopy mass spectrometry among others Numerous cross references 400 illustrated full colour plates The resource provides the most current and essential information for archaeologists geoarchaeologists soil scientists and sedimentologists Comprehensive in scope Archaeological Soil and Sediment Micromorphology offers professionals and students a much needed tool for the interpretation of thin sections of archaeological contexts

San Jacinto 1 Augusto Oyuela Caicedo, Renée M. Bonzani, 2014 Uno de los mayores aportes que hace esta obra producto de un juicioso ejercicio de investigación que se inició en la década de 1980 y que fue publicado originalmente por The University of Alabama Press 2005 se relaciona con la identificación de los orígenes de la alfarería americana en el norte de Colombia hace unos 6 mil años Este hecho aunado a un grupo sólido de datos permite a los autores presentar un nuevo punto de vista acerca del significado de la tecnología cerámica la reducción de la movilidad de los grupos étnicos y el incremento de la territorialidad en San Jacinto localidad arqueológica que hasta la fecha ostenta la cerámica más antigua de América

Antes de Colombia (País 360) Carl Henrik Langebaek, 2021-07-01

En su género el nuevo libro de Carl Langebaek abre una ventana a nuestro pasado remoto cuando los primeros humanos llegaron al territorio que hoy conocemos como Colombia Ocurrió hace 14 000 años o más Los primeros en llegar fueron cazadores recolectores que entraron en el territorio un ecosistema cuyas implicaciones ambientales favorecieron entre ellos formas culturales de las que hasta ahora poco se sabía Langebaek ofrece una visión crítica y amplia sobre la historia de las comunidades indígenas y sobre nuestra propia sociedad En esta apasionante expedición a las culturas originarias desmitifica ideas preconcebidas y de la mano de los más importantes hallazgos arqueológicos en suelo colombiano hace luminosas inferencias sobre lo que sucedió en este lugar del mundo antes de la llegada de los españoles
