San Vincenzo Al Volturno: The finds from the 1980-86 excavations (2 v.) v.1: Text. v. 2: Illustrations Richard Hodges, 2001 **Shaping a Monastic Identity** Susan Boynton, 2006 During the eleventh and early twelfth centuries the imperial abbey of Farfa was one of the most powerful institutions on the Italian peninsula In this period many of the lands of central Italy fell under its sway and it enjoyed the protection of the emperor until the 1120s when it passed gradually into the control of the papacy At the same time the monastery was an influential religious center and the monks of Farfa filled their days with the celebration of the liturgy through prayers processions sermons chants and hymns Susan Boynton a historian of medieval music addresses several of the major themes of present day medieval historiography through a close study of the liturgical practices of the abbey of Farfa Boynton's findings are a striking demonstration of the local nature of liturgical practices in the centuries before church ritual was controlled and codified by the papacy Boynton shows that the liturgy was highly flexible continually adapting to the monastery's changing circumstances The monks regularly modified traditional forms to reflect new realities often in the service of Farfa's power and prestige Equally fascinating is Boynton's examination of the process by which Farfa like other monasteries cathedral chapters and royal houses constantly rewrote its history particularly the stories of its founding as part of the continuous negotiation of power that was central to medieval politics and

John Mitchell,2018-12-31 Using the great south Italian monastery of San Vincenzo al Volturno one of the best preserved monasteries of the earliest Middle Ages as a case study and heuristic paradigm John Mitchell has engaged in a wide ranging examination of the ways in which visual culture was developed and deployed by ambitious states and institutions in early medieval Europe The present volume includes studies on the cultural dynamics of Italy and its contribution to the visual complexion of Europe in the period as well as essays on many aspects of the artistic culture of San Vincenzo including a series of papers on the display of script in the physical fabric of the monastery and the prominent role it played in its self image

San Vincenzo al Volturno. 3 : 2. The finds from the 1980 - 86 excavations : illustrations John Mitchell,Inge Lyse Hansen,2001 **Between Town and Monastery. Peasant economy in the first millennium AD** Luigi Pinchetti,2021-10-31 Approaches to early medieval peasantry are often polarized either enhancing the benefits brought by the weakening of aristocratic dominance or emphasizing the limited prospects for peasant development in the absence of a solid extra regional trade network This study offers a long term overview of the peasant economy throughout the 1st millennium AD in the Upper Volturno Basin between the town of Isernia and the monastery of San Vincenzo al Volturno The reader is presented with data collected from two archaeological surveys and is invited to scrutinize changes in settlement patterns ancient land use and ceramic distributions while the main economic center shifted from town to monastery These proxies of economic performance offer a vantage point to reconstruct the history of agrarian production and of exchange networks in Central Italy opening a novel outlook on peasant social dynamics at a time when the Roman economic system transitioned into the feudal system The results show that the golden age of peasants was an age of experimentation forcing to reconsider the role of the peasantry in the making of the feudal economy *Encounters, Excavations and Argosies* John Moreland,John Mitchell,Bea Leal,2017-10-09 Richard Hodges one of Europe s preeminent archaeologists has throughout his career transformed the way we understand the early Middle Ages this volume pays tribute to him with a series of reflections on some of the themes and issues which have been central to his work over the last forty years *Towns and their Territories Between Late Antiquity and the Early Middle Ages* Brogiolo,N.
