Sana Sana An Arabian Islamic City:

San'ā', an Arabian Islamic City Robert Bertram Serjeant, Ronald B. Lewcock, 1983 **Principles for the rejuvenation of an islamic city in the modern context** ADEL S. AL-DOSARY, MOHAMMAD MIR SHAHID, 2014-05-15

Arabian Nights and Daze Susan Clough Wyatt, 2010 A United States Foreign Service couple renews an official presence in Yemen Set only eight years after the Republican Revolution had ousted a thousand year old dynasty of Shiite Zaydi Muslim imams the memoir describes with both humor and respect the country's struggles in the early throes of becoming a modern viable state *San'ā'* Robert Bertram Serjeant, Ronald B. Lewcock, 1983 , *The Bazaar in the Islamic City* Mohammad Gharipour, 2012 The Middle Eastern bazaar is much more than a context for commerce the studies in this book illustrate that markets regardless of their location scale and permanency have also played important cultural roles within their societies reflecting historical evolution industrial development social and political conditions urban morphology and architectural functions This interdisciplinary volume explores the dynamics of the bazaar with a number of case studies from Cairo Damascus Aleppo Nablus Bursa Istanbul Sana'a Kabul Tehran and Yazd Although they share some contextual and functional characteristics each bazaar has its own unique and fascinating history traditions cultural practices and structure One of the most intriguing aspects revealed in this volume is the thread of continuity from past to present exhibited by the bazaar as a forum where a society meets and intermingles in the practice of goods exchange a social and cultural ritual that is as old as human history *Planning Middle Eastern Cities* Yasser Elsheshtawy, 2004-08-02 How did colonial influences change the urban form of the Arab capitals The author here poses and answers many questions on globalisation and the Middle East

The Water Crisis in Yemen Christopher Ward, 2014-10-16 Christopher Ward provides a complete analysis of the water crisis in Yemen including the institutional environmental technical and political economy components He assesses the social and economic impacts of the crisis and provides in depth case studies in the key management areas The final part of the book offers an assessment of current strategy and looks at future ways in which the people of the country and their government can influence outcomes and make the transition to a sustainable water economy The Water Crisis in Yemen offers a comprehensive practical and effective approach to achieving sustainable and equitable management of water for growth in a country whose water problems are amongst the most serious in the world *Building a World Heritage City* Michele Lamprakos, 2016-03-03 Society of Architectural Historians Spiro Kostof Book Award Honorable Mention 2018 The conservation of old Sana'a is a major cultural heritage initiative that began in the 1980's under the auspices of UNESCO it continues today led by local agencies and actors In contrast to other parts of the world where conservation was introduced at a later date to remediate the effects of modernization in Yemen the two processes have been more or less concurrent This has resulted in a paradox unlike many other countries in the Middle East that abandoned traditional construction practices long ago in Yemen these practices have not died out Builders and craftsmen still work in traditional construction and see

themselves as caretakers of the old city At the same time social forms that shaped the built fabric persist in both the old city and the new districts Yemenis in effect are not separated from their heritage by an historical divide What does it mean to conserve in a place where the historic past is in some sense still alive How must international agencies and consultants readjust theory and practice as they interact with living representatives of this historic past And what are the implications of the case of Sanaa for conservation in general Building a World Heritage City addresses these questions and also fosters greater cultural understanding of a little known but geopolitically important part of the world that is often portrayed exclusively in terms of unrest and political turmoil

The Importance of Wood and Timber in Sustainable Buildings

Ali Sayigh,2021-09-13 This book emphasizes the important message that architects and structural engineers must strive to ensure that the buildings they design and construct should not be major contributors to climate change Rather they should be exploring the use of green materials and building methods such as timber wood and associated materials in order to safeguard the environment These sustainable materials are not only environmentally friendly but they have the added benefit of being easy to manufacture cost effective often locally available and easily replenished Moreover it has been demonstrated that wood and timber are viable materials in the construction of a wide variety of building types including medium and high rise buildings The Importance of Wood and Timber in Sustainable Buildings brings together a distinguished group of contributors from different cultures and building traditions to address why now is the time to rethink our construction methods and explore replacing many of the carbon intensive materials that are currently being used with wood and timber

The Oxford Handbook of Islamic Archaeology

Bethany Walker,Timothy Insoll,Corisande Fenwick,2020-10-06 Born from the fields of Islamic art and architectural history the archaeological study of the Islamic societies is a relatively young discipline With its roots in the colonial periods of the late 19th and early 20th centuries its rapid development since the 1980s warrants a reevaluation of where the field stands today This Handbook represents for the first time a survey of Islamic archaeology on a global scale describing its disciplinary development and offering candid critiques of the state of the field today in the Central Islamic Lands the Islamic West Sub Saharan Africa and Asia The international contributors to the volume address such themes as the timing and process of Islamization the problems of periodization and regionalism in material culture cities and countryside cultural hybridity cultural and religious
