Alcock, Robin Osborne, 1994 Cult activity played an extremely important role in ancient Greece to the point historians believe that the placing of cult centers played a major part in establishing the whole concept of the city state in archaic Greece The essays in this collection critically examine the social and political importance

of sanctuary placement extending the analysis back to Mycenaean Greece and on to Greece under Roman occupation. Revealing the complexity of relations between religion and politics in ancient Greece, these essays show how important tradition, gender, relations and cult identity were in creating and maintaining the religious mapping of the ancient Greek countryside.

The archetype of wisdom Roberto Malvezzi, 2018-11-05T00:00:00+01:00. This book analyzes the rise of the earliest Greek temples through an innovative phenomenological approach in which lived experiences are assumed as key tools of investigation. Accordingly, much space is dedicated to exploring the connections that tied the Greeks to their surroundings, environment, by surviving records of Greek religion, poetry, art, philosophy, and architecture from the archaic times. This framework sheds a new light on the relationship between human and divine in the ancient Greek world, suggesting that the archetypal structure of temple was devised to facilitate a particular kind of experience, that of the Divine. Such an experience produced a break from ordinary and profane life, allowing a special awareness to be gained. The findings and method of this book enable us to bridge the gap between our present days and that distant era, rediscovering our ancient past as an endless source of inspiration.

City, Countryside, and the Spatial Organization of Value in Classical Antiquity Ralph Rosen, Ineke Sluiter, 2017-07-31. The third in a series that explores cultural and ethical values in Classical antiquity, this volume examines the dichotomy between city and country in ancient Greek and Roman cultures. Fourteen papers address a variety of topics on this theme and include a variety of methodological approaches: archaeological, iconographic, literary, and philosophical. The book demonstrates that despite a common rhetoric of polarity in antiquity that tended to construct city and countryside as very distinct oppositional categories, there was far less consistency and far more nuance about the ideologies felt to inhere in each.

Heritage and War William Bülow, Helen Frowe, Derek Matravers, Joshua Lewis Thomas, 2023-02-07. The world responded with horror to ISIS's campaign of destruction of cultural heritage across the Middle East, including with calls for an international response to prevent such damage. At the same time, newspapers and screens were filled with images of human destruction, devastated cities, and thousands of refugees fleeing the conflict. This juxtaposition caused a backlash against those voicing their concerns about the destruction of ancient ruins, popularly framed as dispute about stone versus lives. In the face of so much human suffering, it can seem inappropriate to worry about anything but the urgent basic needs of people. *Heritage and War* addresses this issue within the context of a wider debate amidst a range of moral questions. Eleven original essays investigate a variety of philosophical and moral questions arising from the phenomenon of heritage destruction in war: such how we ought to respond to heritage that is damaged in war, the nature of the harm caused by such damage, and the morally appropriate treatment of sites of war and conflict that have themselves become heritage sites. Such issues are philosophically rich, and yet they have been largely neglected by academic philosophers. This book makes a substantial contribution to developing this new philosophical territory and identifying the role that philosophers have to play in developing our understanding of and responses to these important issues.

Archaic Greece Brian M. Lavelle, 2019-03-20.

Revelation and Material Religion in the Roman East Nathan Leach,Daniel Charles Smith,Tony Keddie,2023-11-30 This collection of essays from a diverse group of internationally recognized scholars builds on the work of Steven J Friesen to analyze the material and ideological dimensions of John s Apocalypse and the religious landscape of the Roman East Readers will gain new perspectives on the interpretation of John s Apocalypse the religion of Hellenistic cities in the Roman Empire and the political and economic forces that shaped life in the Eastern Mediterranean The chapters in this volume examine texts and material culture through carefully localized analysis that attends to ideological and socioeconomic contexts expanding upon aspects of Friesen s research and methodology while also forging new directions The book brings together a diverse and international set of experts including emerging voices in the fields of biblical studies Roman social history and classical archeology and each essay presents fresh critically informed analysis of key sites and texts from the periods of Christian origins and Roman imperial rule Revelation and Material Religion in the Roman East is of interest to students and scholars working on Christian origins ancient Judaism Roman religion classical archeology and the social history of the Roman Empire as well as material religion in the ancient Mediterranean more broadly It is also suitable for religious practitioners within Christian contexts Epigraphic Culture in the Eastern Mediterranean in Antiquity Krzysztof Nawotka,2020-09-21 This book investigates the epigraphic habit of the Eastern

Mediterranean in antiquity from the inception of alphabetic writing to the seventh c CE aiming to identify whether there was one universal epigraphic culture in this area or a number of discrete epigraphic cultures Chapters examine epigraphic culture s through quantitative analysis of 32 062 inscriptions sampled from ten areas in the Eastern Mediterranean from the Black Sea coast to Greece western to central Asia Minor Phoenicia to Egypt They show that the shapes of the epigraphic curves are due to different factors occurring in different geographical areas and in various epochs including the pre Greek epigraphic habit the moment of urbanization and Hellenization and the organized Roman presence Two epigraphic maxima are identified in the Eastern Mediterranean in the third c BCE and in the second c CE This book differs from previous studies of ancient epigraphic culture by taking into account all categories of inscriptions not just epitaphs and in investigating a much broader area over the broadly defined classical antiquity This volume is a valuable resource for anyone working on ancient epigraphy history or the cultures of the Eastern Mediterranean *Travel and Religion in Antiquity* Philip A.

Harland,2011-03-08 *Travel and Religion in Antiquity* considers the importance of issues relating to travel for our understanding of religious and cultural life among Jews Christians and others in the ancient world particularly during the Hellenistic and Roman eras The volume is organized around five overlapping areas where religion and travel intersect travel related to honouring deities including travel to festivals oracles and healing sanctuaries travel to communicate the efficacy of a god or the superiority of a way of life including the diffusion of cults or movements travel to explore and encounter foreign peoples or cultures including descriptions of these cultures in ancient ethnographic materials migration and travel to engage in an occupation or vocation With interdisciplinary contributions that cover a range of literary epigraphic and archeological materials the volume sheds light on the importance of movement in connection with religious life among Greeks Romans Nabateans and others including Judeans and followers of Jesus *Cities Called Athens* Kevin F. Daly, Lee Ann

Riccardi,2014-12-18 The fourteen essays in this volume share new and evolving knowledge theories and observations about the city of Athens or the region of Attica The contents include essays on topography architecture religion and cult sculpture ceramic studies iconography epigraphy trade and drama This volume is dedicated to John McK Camp II to acknowledge the extraordinary impact he has had on the field of Greek archaeology through his work in the Athenian Agora as a scholar of ancient Greece and as Mellon Professor at the American School of Classical Studies The contributors work represents current research by the latest generation of scholars with ties to Athens All of the contributors were students of Professor Camp in Greece and their essays are dedicated to him in gratitude for his profound influence on their lives and careers

Aristocracy in Antiquity Nick Fisher, Hans Van Wees,2015-10-31 The words aristocrats aristocracy and aristocratic values appear in many a study of ancient history and culture Sometimes these terms are used with a precise meaning More often they are casual shorthand for upper class ruling elite and high standards This book brings together 12 new studies by an impressive international cast of specialists It demonstrates not only that true aristocracies were rare in the ancient world

but also that the modern use of aristocracy in a looser sense is misleading. The word comes with connotations derived from medieval and modern history. Antiquity it is here argued was different. An introductory chapter by the editors argues that aristocracy is rarely a helpful concept for the analysis of political struggles of historical developments or of ideology. The editors call instead for close study of the varied nature of social inequalities and relationships in particular times and places. The following eleven chapters explore and in most cases challenge the common assumption that hereditary aristocrats who derive much of their status, privilege and power from their ancestors are identifiable at most times and places in the ancient world. They question too the related notion that deep ideological divisions existed between aristocratic values such as hospitality, generosity and a disdain for commerce or trade and the norms and ideals of lower or middling classes. They do so by detailed analysis of archaeological and literary evidence for the rise and nature of elites and leisure classes, diverse elite strategies and political conflicts in a variety of states across the Mediterranean. Chapters deal with archaic and classical Athens, Samos, Aigina and Crete, the Greek colonial settlements such as Sicily, archaic Rome and central Italy and the Roman empire under the Principate.

Experiencing Dodona Diego Chapinal-Heras, 2021-03-08. A monograph concerning the sanctuary of Dodona and its role in the political context of Epirus might be a remarkable input. Located in a region that has received more interest in the last years, this book attempts to analyze the way the shrine evolved in connection with the political developments of its surrounding region. The study employs a diachronic perspective and emphasizes throughout that religion was a dynamic, not a static phenomenon. The chronology of this research extends from the Archaic to Hellenistic periods. Its key novelty is that it offers an entirely new holistic approach to an ancient religious site by considering its polyfunctionality. At the same time that it presents a state of the art analysis of the shrine of Dodona and contributes with a new theory concerning the function of some structures located in the sacred area, it also highlights the close connection between a settlement and its region. For this reason, the aim is to become a reference work that allows continuing the current trend of studies focused on Epirus, a territory traditionally considered as secondary.

Phoenicians and the Making of the Mediterranean Carolina López-Ruiz, 2022-01-04. Long before Greeks dominated the ancient Mediterranean, Phoenicians were the lords of the sea. Setting out from their Levantine cities, they introduced their alphabet, art, technology and gods to places as far as off as Iberia. Carolina López-Ruiz highlights the enduring Phoenician imprint, displacing the Hellenocentric model of the ancient world.
