Shevlin, 2017-03-02 Influenced by Enlightenment principles and commercial transformations the history of the book in the eighteenth century witnessed not only the final decades of the hand press era but also developments and practices that pointed to its future the foundations of modern copyright a rapid growth in the publication circulation and reading of periodicals the promotion of niche marketing alterations to distribution networks and the emergence of the publisher as a central figure in the book trade to name a few The pace and extent of these changes varied greatly within the different sociopolitical contexts across the western world The volume s twenty four articles many of which

proffer broader theoretical implications beyond their specific focus highlight the era's range of developments Complementing these articles the introductory essay provides an overview of the eighteenth century book and milestones in its history during this period while simultaneously identifying potential directions for new scholarship

Richard Gameson, Nigel J. Morgan, D. F. McKenzie, Lotte Hellinga, Rodney M. Thomson, John Barnard, Joseph Burney Trapp, Maureen Bell, David McKitterick, 1999 Volume 4 of The Cambridge History of the Book in Britain covers the years between the incorporation of the Stationers Company in 1557 and the lapsing of the Licensing Act in 1695 In a period marked by deep religious divisions civil war and the uneasy settlement of the Restoration printed texts important as they were for disseminating religious and political ideas both heterodox and state approved interacted with oral and manuscript cultures These years saw a growth in reading publics from the developing mass market in almanacs ABCs chapbooks ballads and news to works of instruction and leisure Atlases maps and travel literature overlapped with the popular market but were also part of the project of empire Alongside the creation of a literary canon and the establishment of literary publishing there was a tradition of dissenting publishing while women's writing and reading became increasingly visible Bibliography and the Sociology of Texts D. F. McKenzie, 1999-09-16 In Bibliography and the Sociology of Texts D F McKenzie shows how the material form of texts crucially determines their meanings He unifies the principal interests of both critical theory and textual scholarship to demonstrate that as all works of lasting value are reproduced re edited and re read they take on different forms and meanings By witnessing the new needs of their new readers these new forms constitute vital evidence for any history of reading McKenzie shows this is true of all forms of recorded information including sound graphics films representations of landscape and the new electronic media The bibliographical skills first developed for manuscripts and books can he shows be applied to a wide range of cultural documents This book which incorporates McKenzie's classic work on orality and literacy in early New Zealand offers a unifying concept of texts that seeks to acknowledge their variety and the complexity of their relationships **The Stationers' Company** Robin Myers, 2001 This important new work written by a team of experts in their various fields examines the history of the Company over the past two centuries including the recent impact of new technology on a rapidly changing industry Particular pains have been taken to produce a work that is both authoritative and readable which will take its place alongside Cyprian Blagden's history of the Company published in 1960 The present book amply demonstrates the Company's role as an active City livery company that exercises its subtle influence nationally **The Oxford Companion to the Book: D-Z** Michael F. Suarez, H. R. Woudhuysen, 2010 This is a reference work by an international team of scholars covering the book from ancient times to the present day Introductory essays explore the history and technology of the book and the range of genres It provides surveys of the book around the

world which are followed by over 5 000 A Z entries *Rare Books, 1983-1984* Alice D. Schreyer, 1984 *The Book Collector*, 1996 **Rain and Rivers, Or Hutton and Playfair, Against Lyell and All Comers** George Greenwood (Colonel.), 1876 Medieval Scholarship: Biographical Studies on the Formation of a Discipline Helen Damico, 2014-02-04
