El primer bloque es de microeconomía y empresa y desarrolla cuestiones generales relacionadas con la economía como ciencia social: el problema de la escasez de los bienes, los factores productivos y agentes económicos, el funcionamiento y diferentes tipos de mercado, los sistemas económicos más importantes, la empresa como agente económico de producción y reas en que se suelen organizar. El segundo es sobre macroeconomía y el sector público: trata del mercado de trabajo, el producto interior bruto y renta nacional, la inflación, los ingresos y gastos públicos, el déficit y deuda públicos, la política fiscal y presupuestos del Estado, el dinero y políticas monetarias, el crecimiento y ciclos económicos, el comercio exterior y balanza de pagos. En el tercero se incluyen importantes cuestiones tales como los mercados, instrumentos y reguladores financieros, el sistema bancario, la bolsa de valores, el mercado internacional de divisas y algunas organizaciones internacionales de carácter económico y financiero. Por último, en los anexos se incluye un amplio glosario así como siglas, abreviaturas y acrónimos. Balancing the Protection of Foreign Investors and States Responses in the Post-Pandemic World Yulia Levashova, Pascale Accaoui Lorfing, 2022-05-11 The COVID 19 pandemic has brought the debate on reform of the international investment agreement regime to the fore with renewed force. In this important and timely book, top professionals in the field collectively offer an in-depth investigation of the measures that States have taken or failed to take to deal with the pandemic's consequences and whether these actions or inactions can be construed as investment arbitration risks. In an extensive overview of the impact of COVID 19 on States and investors, including perspectives from UNCTAD, the European Union, the United States, Russia, India, South Korea and the African Union, this comprehensive guide on State defences and investor protection mechanisms tackles such aspects of the debate as the following: as affected by the pandemic, treatment of investors in times of pandemic and in the post-pandemic world; sufficient contribution to the economic development of the host State; disparities in bargaining power and use of pandemic power to accord preferential treatment. The final part of the book is dedicated to analysing case studies from around the world in the context of the pandemic and investor-State disputes. Understanding the way public health emergencies can shape international investment law is key to building a sustainable, stable investment environment. As the first detailed study of the post-pandemic development of investment law, this matchless collection takes a giant step toward reconciling the interests of foreign investors and sovereign States at various stages of economic development. With practical recommendations for both States and investors, it will be of immeasurable assistance to practitioners, policymakers and academics in anticipating and dealing not only with COVID-related measures but also with similar future contingencies. *Gestión económico-financiera de la empresa* Lluís
