during five hundred years and nothing short of it could they accept as a basis of national settlement persuaded that any other guarantee of their liberties would be illusory Their demand was conceded the principle of freedom of conscience the root of all liberty was embodied in the new constitution and thus the whole inhabitants of Piedmont shared equally with the Waldenses in a boon which the struggles of the latter had been mainly instrumental in securing Not only so in process of time the constitution of Piedmont was extended to the rest of Italy and the whole Italian nation is at this hour sharing in the fruits which have sprung from the toil and the blood the unwavering faith and the heroic devotion of the Waldenses Nor is their work finished even yet They have understood the end for which they have been preserved through so many ages of darkness and conflict and have energetically thrown themselves into the evangelisation of modern Italy and doubtless these ancient confessors are destined to win in the land where they endured so many dark sorrows not a few brilliant triumphs and by the labours of the present to add to the obligations which Christendom owes them for the services of the past      *Bragelonne*
