sculptures to prints paintings and his large corpus of writings Foregrounding Gauguin s conscious use of ambiguity Gamboni unpacks what the artist called the language of the listening eye Gamboni shows that the interaction between perception cognition and imagination was at the core of Gauguin s work and he traces a line of continuity in them that has been previously overlooked Emulating Gauguin s wide ranging curiosity with literature psychology theology and the natural sciences not to mention the whole of art history this richly illustrated book provides new insight into the life and works of this well known yet little understood artist Paul Gauguin Anna Barskaya,2011-07-01 Paul Gauguin was first a sailor then a successful stockbroker in Paris In 1874 he began to paint at weekends as a Sunday painter Nine years later after a stock market crash he felt confident of his ability to earn a living for his family by painting and he resigned his position and took up the painter s brush full time Following the lead of C zanne Gauguin painted still lifes from the very beginning of his artistic career He even owned a still life by C zanne which is shown in Gauguin s painting Portrait of Marie Lagadu The year 1891 was crucial for Gauguin In that year he left France for Tahiti where he stayed till 1893 This stay in Tahiti determined his future life and career for in 1895 after a sojourn in France he returned there for good In Tahiti Gauguin discovered primitive art with its flat forms and violent colours belonging to an untamed nature With absolute sincerity he transferred them onto his canvas His paintings from then on reflected this style a radical simplification of drawing brilliant pure bright colours an ornamental type composition and a deliberate flatness of planes Gauguin termed this style synthetic symbolism Painting and Sculpture in Europe, 1880-1940 George Heard Hamilton,1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age **Gauguin** Belinda Thomson,2021-04-06 This authoritative account of the life and work of Paul Gauguin one of the most original artists of the late nineteenth century is revised and updated with color illustrations throughout Artist Paul Gauguin achieved a high public profile during his lifetime and was one of the first artists of his generation to achieve international recognition But his prominence has always been tangled up with the dramatic and problematic events of his life his self imposed exile on a remote South Sea island and his turbulent relationships with his peers as with the appeal of his art In this revised and updated edition art historian Belinda Thomson gives a comprehensive and accessible account of the life and work of one of the most complicated artists of the late nineteenth century Gauguin s painting sculpture prints and ceramics are discussed in the light of his public persona his relations with his contemporaries his exhibitions and their critical reception His private world beliefs and aspirations emerge

through his extensive cache of journals letters and other writings Fully illustrated in color and drawing on the new more global conversation surrounding the artist Gauguin is the definitive volume on this controversial and often contradictory figure *Gauguin's Challenge* Norma Broude, 2018-03-08 Several decades have now passed since postcolonial and feminist critiques presented the art historical world with a demythologized Paul Gauguin 1848 1903 a much diminished image of the artist hero who had once been universally admired as the father of modernist primitivism In this volume both long established and more recent Gauguin scholars offer a provocative picture of the evolution of Gauguin scholarship in the recent postmodern era as they confront and consider how the dismantling of the longstanding Gauguin myth positions us now in the 21st century to deal with and assess the life work and legacy of this still perennially popular artist To reassess the challenges that Gauguin faced in his own day as well as those that he continues to present to current and future scholarship they explore the multiple contexts that influenced Gauguin's thought and behavior as well as his art and incorporate a variety of interdisciplinary approaches from anthropology philosophy and the history of science to gender studies and the study of Pacific cultural history Dealing with a wide range of Gauguin's production they challenge conventional art historical thinking highlight transnational perspectives and offer clues to the direction of future scholarship as audiences worldwide seek to make multicultural peace with Gauguin and his art Broude has raised the bar of Gauguin scholarship ever higher in this groundbreaking volume which will be necessary reading for students and scholars of art history late 19th century French and Pacific culture gender studies and beyond *Getty Research Journal, No. 13* Gail Feigenbaum, 2021-03-09 The Getty Research Journal features the work of art historians museum curators and conservators around the world as part of Getty's mission to promote the presentation conservation and interpretation of the world's artistic legacy Articles present original scholarship related to Getty collections initiatives and broad research interests This issue features essays on a Parthian stag rhyton and new epigraphic and technical discoveries gendered devotion and owner portraits in illuminated manuscripts from northern France around 1300 a technical analysis of heraldic devices in a missal from Renaissance Bologna a new social and collective practice of drawing among French architect pensionnaires of the 1820s and 1830s at Pompeii artist Malvina Hoffman's representations of race during her travels to Southeastern Europe as part of her work with the American Yugo Slav Relief Raimundo de Madrazo y Garreta's painting *Reverie* The Letter and the small world sensation as a methodology for global art history arguments that disprove the attribution of the J Paul Getty Museum's sculpture *Head with Horns* to artist Paul Gauguin *Head with Horns* and Gauguin's creative appropriation of objects and the unpublished first draft of critic Clement Greenberg's essay *Towards a Newer Laocoon* **The Early Work of Paul Gauguin and Pre-Columbian Art** Robert Anthony Meldonian, 1963 [Gauguin's 'nirvana'](#) Paul Gauguin, Wadsworth Atheneum Staff, Stephen H. Kornhauser, Wadsworth Atheneum Museum of Art, Wadsworth Atheneum, 2001-01-01 Shortly before Gauguin made his first Tahitian journey in 1891 he spent nearly two years in the remote Breton fishing village of Le Pouldu Seeking creative

isolation in a primitive setting he pursued his art accompanied by several followers One of them was the Dutch painter Meyer de Haan who was able to pay the living expenses in Le Pouldu and was also knowledgeable in literary and philosophical matters that fascinated Gauguin Their association resulted in some of Gauguin's most remarkable works including the Wadsworth Atheneum's symbolist portrait of de Haan inscribed Nirvana This and the rich variety of paintings and sculpture by Gauguin produced in 1889-90 are the focus of this beautiful book Gauguin and de Haan settled into an inn at Le Pouldu run by an attractive unwed mother named Marie Henry who began a liaison with de Haan despite the fact that he was a sickly hunchback The intensity of relations between Gauguin and de Haan is reflected in many of the works including frescoes which they installed in the inn Gauguin's time in Le Pouldu was crucial to the advancement of his art and the vivid Breton subjects and personality of Meyer de Haan remained in his imagination to reappear even during his later Tahitian period In this book several distinguished experts draw on previously unavailable sources to examine in depth the history of this period Gauguin's relationship with de Haan their interest in religion and exotic cultures and the meaning of the many innovative symbolist works they produced

Sculpture 1900-1945 Penelope Curtis, 1999 This book provides a comprehensive analysis of the significant growth of sculpture as an artistic form in Europe and America from 1900-1945 Using a clearly defined thematic structure it identifies key issues and developments throughout this important period in the history of art Individual chapters cover public sculpture the monument the object image making the built environment the figurative ideal and different materials These themes broadly reflect the changing cultural and political climate of a turbulent period which included two world wars each preceded by widespread rising nationalism The practice of sculpture is considered within the wider artistic context of painting and architecture and the development of international art markets Auguste Rodin whose ground breaking exhibition opened in Paris in 1900 serves as the book's point of departure and as a recurrent point of reference

Potential Images Dario Gamboni, 2002 In Potential Images Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky's intention that his work could be interpreted in both figurative and non figurative ways and Duchamp's Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles
