Looking for Love in the Legal Discourse of Marriage Renata Grossi, 2014-09-01 This book examines the in visibility of romantic love in the legal discourse surrounding modern Australian marriage It looks at how romantic love has become a core part of modernity and a dominant part of the Western marriage discourse and considers how the ideologies of romantic love are or are not replicated in the legal meaning of marriage This examination

raises two key issues If love has become central to people's understanding of marriage then it is important for the legitimacy of law that love is reflected in both the content and application of the law More fundamentally it requires us to reconsider how we understand law and to ask whether it is engaged with emotions or separate from them Along the way this book also considers the meaning of love itself in contemporary society and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage or whether it simply mirrors them This book will be of interest to everyone working on love marriage and sexuality in the disciplines of law sociology and philosophy Essential Social Psychology Richard J Crisp, Rhianon N Turner, 2007-02-22 The book gives an accessible and thorough grounding in the key concepts the fundamentals the essentials of social psychology while providing a lively introduction to the major theoretical debates new approaches and findings in the discipline It focuses on theory and basic level empirical demonstrations for of the key phenomena along with discussion of current research and application to real world issues Publisher's website **Love, Justice, and Autonomy** Rachel Fedock, Michael Kühler, Raja Rosenhagen, 2020-12-28 Philosophers have long been interested in love and its general role in morality This volume focuses on and explores the complex relation between love and justice as it appears within loving relationships between lovers and their wider social context and the broader political realm Special attention is paid to the ensuing challenge of understanding and respecting the lovers personal autonomy in all three contexts Accordingly the essays in this volume are divided into three thematic sections Section I aims at shedding further light on conceptual and practical issues concerning the compatibility or incompatibility of love and justice within relationships of love For example are loving relations inherently unjust Might love require justice Or do love and justice belong to distinct moral domains The essays in Section II consider the relation between the lovers on the one hand and their broader societal environment on the other Specifically how exactly are love and impartiality related Are they compatible or not Is it unjust to favor one's beloved Finally Section III looks at the political dimensions of love and justice How for instance do various accounts of love inform how we are to relate to our fellow citizens If love is taken to play an important role in fostering or hindering the development of personal autonomy what are the political implications that need to be addressed and how In addressing these questions this book engenders a better understanding both of conceptual and practical issues regarding the relation between love justice and autonomy as well as their broader societal and political implications It will be of interest to advanced students and scholars working on the philosophy of love from ethical political and psychological angles *Rational Woman* Raia Prokhovnik, 2012-11-12 To feminists and some postmodernists reason emotion and man woman represent two fundamental polarities fixed deep within Western philosophy and reflected in the structures of our languages and two sets of hierarchical power relations in patriarchal society Raia Prokhovnik challenges the tradition of dualism and argues that rational woman need no longer be a contradiction in terms Prokhovnik examines in turn the nature of dichotomy its problems and an alternative the reason

emotion dichotomy dichotomies central to the man woman dualism such as sex gender and the heterosexualist norm

Ambiguous Pleasures Rachel Spronk, 2012 Among both male and female young urban professionals in Nairobi sexuality is a key to achieving a modern identity These young men and women see themselves as the avant garde of a new Africa while they also express the recurring worry of how to combine an African identity with the new lifestyles with which they are experimenting By focusing on public debates and their preoccupations with issues of African heritage gerontocratic power relations and conventional morality on the one hand and personal sexual relationships intimacy and self perceptions on the other this study works out the complexities of sexuality and culture in the context of modernity in an African society It moves beyond an investigation of a health or development perspective of sexuality and instead examines desire pleasure and eroticism revealing new insights into the methodology and theory of the study of sexuality within the social sciences Sexuality serves as a prism for analysing how social developments generate new notions of self in postcolonial Kenya and is a crucial component towards understanding the way people recognize and deal with modern changes in their personal lives

Hogg, Michael Hogg Graha, Graham M. Vaughan, Marcela Haro Morando, 2010-06-05 This edition provides a balanced coverage of research on social psychology It includes new material on the self and identity language culture health psychology as well as evolutionary psychology to meet the needs of students *Free Speech and the Politics of Identity* David A. J. Richards, 1999 *Free Speech and the Politics of Identity* challenges the scholarly view as well as the dominant legal view outside the United States that the right of free speech may reasonably be traded off in pursuit of justice to stigmatized minorities These views appeal to an alleged reasonable balance between two basic human rights the right of free speech and the right against unjust discrimination Compelling arguments of normative political theory and interpretative history show however that these rights are structurally linked the abridgement of one compromises the other To make this case David Richards offers an original political theory of toleration and of structural injustice that addresses the nature and scope of the right of free speech and the right against unjust discrimination its analytic focus is on the role played by members of subordinated groups in the protest of the terms of structural injustice the politics of identity advancing constitutional justice under law While the argument is developed on the basis of American constitutional experience from the antebellum period forward its normative force is brought to bear both in defending and criticizing some aspects of American law and in challenging the continuing legitimacy of laws against group libel obscenity and blasphemy under national legal systems including Germany France Britain Canada Israel India South Africa and others regional systems the jurisprudence of the European Court of Human Rights and public international law The book's innovative normative and interpretative methodology calls for a new departure in comparative public law in which all states responsibly address their common problems not only of inadequate protection of free speech but correlative failure to take seriously the continuing political power of such evils as anti-Semitism racism sexism and homophobia
