shows how amid a period of unprecedented sexual and social change the single became a key unisex identity and lifestyle. From around 1970 a growing cottage style matchmaking industry in Britain was offering the romantically solo a choice between computer dating firms such as Dateline or Computate introduction agencies and the lonely hearts pages of Private Eye, Time Out and others. Zoe Strimpel reveals how this rapidly expanding landscape of services was catering to a new breed of single people and how by the late 1990s singleness had become the culturally mainstream, wholly expected part of the romantic life cycle that it is today. Refuting the widespread idea that the Internet invented modern dating, this book uses an eclectic and engaging range of first person accounts and snapshots from the time to show that the story of contemporary romance mediated courtship and singleness began in a time long before Tinder. *More Than A Love Song* Cathy Cole, 2014-04-03. Rhi loves to sing but has no idea how amazing she is. Everything changes when a talent scout spots her performing at a wedding. Suddenly Rhi is in huge demand and promising to be a new music sensation. And on top of that her ex-boyfriend Max is doing everything in his power to win her back. But life is never that easy.
