Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections be it a committed relationship a hook up or a community in which to dabble in fringe sexual practices Popular culture film narrative television the news media and advertising present two very distinct pictures of the use of the Internet as related to intimacy From news reports about victims of online dating to the presentation of the desperate and dateless the perverts and the deviants a distinct frame for the intimacy Internet connection is negativity In some examples however a changing picture is emerging The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news resulting in more positive spin advertising and a more even handed presence of such liaisons in narrative television and film Both the positive and the negative media representations are categorised and analysed in this book to explore what they reveal about the intersection of gender sexuality technology and the changing mores regarding intimacy

The Psychology of Love Michele A. Paludi, 2012-03-09 From arranged marriages to online dating this four volume work presents everything from personal accounts to empirical evidence to document what creates love in our culture as well as around the world The field of biology views love as a hard wired mammalian drive akin to thirst and hunger In contrast psychology views love from a social and cultural perspective where our drive to find love and our responses to it are highly dependent on societal norms In The Psychology of Love esteemed author and educator Michele A Paludi examines love through all lenses thereby providing readers a deeper understanding of the ways we can express caring sensitivity empathy and respect toward one another Each chapter in this comprehensive four volume work includes a scholarly overview of empirical research and theories about the psychology of love In addition individuals own definitions of love are included Special attention is paid to accepted standards of love across a variety of cultures the ways individuals express liking and love across the lifecycle and patterns in dissolutions of friendships and romantic relationships making note of gender and race differences

The Structure of Digital Partner Choice Andreas Schmitz, 2016-11-01 This work approaches the modern phenomenon of online dating examining the ways people make use of its technical and social potential In particular the users mate preferences choices strategies and interactions are analyzed using the innovative method of click stream observations and web questionnaire data For the purpose of these analyses two major theories are used an explicit theory of individual mate choice and the more

general relational theory developed by Pierre Bourdieu which helps to highlight the social structures both underlying and resulting from mating online Results show that online dating is not a partner market free from social structure but that the traditional social conditions found offline are also reproduced in this virtual setting In contrast to the picture drawn by media discourse and advertising online dating represents a partner market which fulfills the promise of happiness in a socially differential way

Compensated Dating Cassini Sai Kwan Chu, 2018-01-16 This book considers a burgeoning social phenomenon compensated dating in Hong Kong that facilitates direct commercial sex exchange between consenting females from their mid teens through the late 20s and males from their early 20s to mid adulthood Informed by the transformation of intimacy the breakdown of institutional constraints the emergence of a new female sexual autonomy and the advancement of information technology this book moves beyond stereotypes of sex work to look at the complexities of compensated dating The phenomenon of compensated dating is distinctive from most other sex trades in that it involves intense emotional interactions and often extends beyond the commercial boundary Given the dynamic flexible and ambiguous nature of compensated dating it has become more of a space for sexual explorations and less of a rigid model of commercial sex at least in the eye of the participants This book walks through how men become involved in compensated dating and also sheds lights on how gender relations are negotiated with important implications on what it means to be a man and a woman in contemporary Hong Kong society It also speaks to the broader transformations of some of the key social structures and elements particularly gender and sexualities in the era of late modernity

Leading a Worthy Life Leon R. Kass, 2017-12-19 Most American young people like their ancestors harbor desires for a worthy life a life of meaning a life that makes sense But they are increasingly confused about what such a life might look like and how they might in the present age be able to live one With a once confident culture no longer offering authoritative guidance the young are now at sea regarding work family religion and civic identity The true the good and the beautiful have few defenders and the higher cynicism mocks any innocent love of wisdom or love of country We are super competent regarding efficiency and convenience we are at a loss regarding what it is all for Yet because the old orthodoxies have crumbled our interesting time paradoxically offers genuine opportunities for renewal and growth The old Socratic question How to live suddenly commands serious attention Young Americans if liberated from the prevailing cynicism will readily embrace weighty questions and undertake serious quests for a flourishing life All they and we need is encouragement This book provides that necessary encouragement by illuminating crucial and still available aspects of a worthy life and by defending them against their enemies With chapters on love family and friendship human excellence and human dignity teaching learning and truth and the great human aspirations of Western civilization it offers people who are

looking on their own for meaning and as well as to people who are looking to deepen what they have been taught or to square it with the spirit of our time

Online Dating as A Strategic Game Maurice Kwok-to Choi, Kwok-bun Chan, 2013-12-03 Based on a study using online ethnography as the major research method this book explains why and how men in Hong Kong use QQ an online instant messenger to chase women in mainland China especially in the neighboring city of Shenzhen Chasing women through QQ is a reciprocal exchange process during which the resources to be exchanged in the interaction are not negotiated Rather the men provide resources to the women hoping for rewards in return that are not guaranteed This characteristic of the exchange makes men who chase women through QQ very strategic in their action They try to maximize the rewards and minimize the costs by adopting myriad strategies such as constructing an attractive online identity by strategic self presentation The role of emotions in the exchange process is also examined Men learn the emotional norms through the online forum but sometimes it is difficult for them to control their emotions some men fall in love when they are not supposed to As it happens they have failed to calculate the costs and rewards rationally in that they may provide too many resources to the women without getting enough rewards in return This book provides original insights into the thought processes motivations desires anxieties and risks of Hong Kong men seeking short term sexual relations with women on the mainland These insights are highly relevant to our understanding of the quickly evolving use of social media a phenomenon of worldwide importance and deep implications

dozen interviews of active Second Life residents **LGBTQs, Media and Culture in Europe** Alexander Dhoest, Lukasz Szulc, Bart Eeckhout, 2016-11-10 Media matter particularly to social minorities like lesbian gay bisexual transgender and queer people Rather than one homogenised idea of the global gay what we find today is a range of historically and culturally specific expressions of gender and sexuality which are reflected and explored across an ever increasing range of media outlets This collection zooms in on a number of facets of this kaleidoscope each chapter discussing the intersection of a particular European context and a particular medium with its affordances and limitations While traditional mass media form the starting point of this book the primary focus is on digital media such as blogs social media and online dating sites All contributions are based on recent original empirical research using a plethora of qualitative methods to offer a holistic view on the ways media matter to particular LGBTQ individuals and communities Together the chapters cover the diversity of European countries and regions of LGBTQ communities and of the contemporary media ecology Resisting the urge to extrapolate they argue for specificity contextualisation and a provincialized understanding of the connections between media culture gender and sexuality
