Mt Taesong:

Mt. Taesong Li Yong Gyu, 2001-06-01 Mt Taesong is situated to the northeast of Pyongyang capital of the Democratic People's Republic of Korea The mountain abounds in relics which show the sagacity and patriotism of the Korean people who had honorably defended their country from foreign aggression since Koguryo renowned as a great power in the East transferred her capital to Pyongyang in 427 AD However the mountain had been neglected for a long time coupled with the tragic history of our people The mountain has great many legends which depict the wisdom and valor displayed by our people in the sacred battles to safeguard the country from foreign invaders The book was originally published in 1979 North Korea Robert Willoughby, 2008 A new edition of the first travel guide to cover the practical aspects of travelling to and around North Korea a country which both intrigues and concerns the international community Everything a genuine traveller needs is here including red tape and security issues access from South Korea and Beijing routes outwards from Pyongyang and opportunities for excursions into unspoilt countryside Altogether a fascinating insight into the culture and history of a country that currently exists in virtual isolation from the rest of the world **Historical Dictionary of Pyongyang** Justin Corfield, 2014-12-01 Offering a concise overview of Pyongyang's history and development the Historical Dictionary of Pyongyang presents a comprehensive historical survey of the city in the form of an alphabetical list of keywords and names with accompanying definitions Both well researched and authoritative the volume draws upon a wide range of modern sources and contains an introductory essay about the city a chronology a list of acronyms and abbreviations and an array of photographs *Mt. Taesong* Yong Gyu Li, Yŏng-gyu Yi, 1979 Democratic People's Republic of Korea, 1992 *Women of Korea*, 1987 Rationality in the North Korean Regime David W. Shin, 2020-07-06 How and why are the Kims rational There is no consensus about either the Kims rationality or how best to determine if they are rational actors Rationality in the North Korean Regime offers a concise and finite method to assess rationality by examining over ten cases of provocations from the Korean War to the August 2015 land mine incident The book asserts that Kim Il sung was predominantly a rational actor though the regime behaved irrationally at times under his rule and that both Kim Jong il and Kim Jong un have clearly been rational actors As a rational actor Kim Jong un is unlikely to give up his nuclear weapons but this work argues he can be deterred from using them if the United States demonstrates it is willing to co exist with his regime and pursues long term engagement to reduce Kim's concern that North Korea's sovereignty needs defending from U S hostile policy This could allow gradual social change within the country that could eventually lead to positive systemic change as well as soften Kim's rule In this regard time may be on the side of the U S South Korean alliance but the two allies must embrace the long view and learn to be more patient or risk another conflict on the Korean Peninsula **Historic Mt. Weapons Stephen C. Mercado, 2025-10-30 Uncover's Japan's secret Noborito Research Institute detailing its wartime spy gear weapons and postwar influence The technicians of the 9th Military Technical Research Institute known as the Noborito Research Institute toiled in the shadows of the Second World War to develop spy gear and special weapons for the Imperial Japanese Army IJA Their espionage devices including secret inks bugging devices and miniature cameras helped the Army's dreaded Kempeitai and the shadowy Yama Agency counter foreign spies and track domestic dissent Operatives of the IJA's Nakano School for intelligence operatives and commandos took the equipment into the field with them Noborito's forgers reproduced Chinese currency in an operation to wreck China's economy Scientists and technicians tested biological weapons on Chinese prisoners as part of a top secret project fielded by the IJA's infamous Unit 731 and developed a virus into a weapon to strike at America's cattle herds Others developed bombing balloons to attack the American heartland a target that lay far beyond Japan's reach by conventional means Stephen Mercado provides in this first book in English on an intelligence
