The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983 Tessa Verney Wheeler
Lydia C. Carr,2012-04-26 In this book Carr unravels the biography of the archaeologist Tessa Verney Wheeler a charming tiny woman whose untimely death left her archaeological career overshadowed by her distinguished husband Sir Mortimer Wheeler Despite a short career of just over twenty years Verney Wheeler published and excavated extensively while simultaneously developing new archaeological techniques brought archaeology into the lives of the general public through her connections with the Press and the encouragement of site tours and was an inspiring teacher to an impressive roster of students In this biography her life is recovered through an examination of her written work archives sites and photographs as well as through the memories of those who knew her By means of a discussion of the very personal life and work of one woman Carr explores the role of women in early British archaeology resulting in a fascinating picture of a woman and a vivid evocation of the interwar period in London and Wales From her work retraining colliery navvies as archaeological diggers in Roman amphitheatres on the Welsh borders to cheap omelettes with her students at the Lyons Corner House on Piccadilly in London Verney Wheeler crossed social and physical borders with a grace and appeal that remains very palpable today
The British National Bibliography Arthur James Wells,2006 "*The Concept of the 'Master' in Art Education in Britain and Ireland, 1770 to the Present* " MatthewC. Potter,2017-07-05 A novel investigation into art pedagogy and constructions of national identities in Britain and Ireland this collection explores the student master relationship in case studies ranging chronologically from 1770 to 2013 and geographically over the national art schools of England Ireland Scotland and Wales Essays explore the manner in which the Old Masters were deployed in education fuelled the individual creativity of art teachers and students were used as a rhetorical tool for promoting cultural projects in the core and periphery of the British Isles and united as well as divided opinions in response to changing expectations in discourse on art and education Case studies examined in this book include the sophisticated tradition of academic inquiry of establishment figures like Joshua Reynolds and Frederic Leighton as well as examples of radical reform undertaken by key individuals in the history of art education such as Edward Poynter and William Coldstream The role of Modern Masters like William Orpen Augustus John Gwen John and Jeff Wall is also discussed along with the need for students and teachers to master the realm of art theory in their studio based learning environments and the ultimate pedagogical repercussions of postmodern assaults on the academic bastions of the Old Masters **Bulletin of the United States National Museum** United States National Museum,1928 **Geological Maps** Frederick John North,National Museum of Wales,1928 National Union Catalog ,1973 Includes entries for maps and atlases *The Routledge Companion to English Folk Performance* Peter Harrop,Steve Roud,2021-07-12 This broad based collection of essays is an introduction both to the concerns of contemporary folklore

scholarship and to the variety of forms that folk performance has taken throughout English history. Combining case studies of specific folk practices with discussion of the various different lenses through which they have been viewed since becoming the subject of concerted study in Victorian times, this book builds on the latest work in an ever-growing body of contemporary folklore scholarship. Many of the contributing scholars are also practicing performers and bring experience and understanding of performance to their analyses and critiques. Chapters range across the spectrum of folk song, music, drama, and dance but maintain a focus on the key defining characteristics of folk performance: custom and tradition in a full range of performances from carol singing and sword dancing to playground rhymes and mummers' plays. As well as being an essential reference for folklorists and scholars of traditional performance and local history, this is a valuable resource for readers in all disciplines of dance, drama, song, and music whose work coincides with English folk traditions.
