Feminist Nationalism Lois West,2014-01-21 Feminist Nationalism demonstrates how feminism is redefining nationalism by presenting case studies from Europe the Middle East Africa Asia and the Americas Consisting of social movements and cultural ideologies feminist nationalism links struggles for women s rights with struggles for group identity rights and or national sovereignty in their goals of self determination Many analyses of nationalism assume it is identical for women and men in its definition and operation This collection challenges that framework by placing women at the center and demonstrating how feminism is redefining nationalism both in particular cases and in the global context **Place and**

Politics: Local Identity, Civic Culture, and German Nationalism in North Germany during the Revolutionary Era

Katherine Aaslestad,2005-12-01 This study examines North Germany during the transformative era of the French Revolution Napoleonic occupation and Wars of Liberation it reveals international exploitation military occupation economic destruction of the city state Hamburg as well as the republic s liberation and post Napoleonic autonomy Examining shifts within local culture and the role of public opinion on civic morality this book underscores the relationship between the civic ethics public language and collective memory in the construction of political identity and concludes that the transformation in values at the local level ultimately provides the crucial direction in the process of modern nation building Throughout the 1800s the public commemoration and memory of occupation and liberation rather than the actual Napoleonic experience shaped the development of German nationalism **Dying with an Enlightening Fall** David Pickus,2001-01-01 Dying with an
