Nato 2000 A Political Agenda For A Political Alliance:

NATO 2000 Jamie Shea,1990 **NATO's New Mission** Rebecca R. Moore,2007-02-28 Reports of NATO's death have been greatly exaggerated Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history As Europe has become more unified and more democratic NATO has assumed new layers of significance in the global security environment In a post September 11 world the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no longer afford Decisions made at the 2004 Istanbul summit aimed at enhancing NATO's partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance's new more global presence as do new military missions in Afghanistan Iraq and Sudan Moore argues that a careful analysis of NATO's new more global focus suggests that it's not the nature of NATO's mission that has changed but rather its scope NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law Indeed the mission of projecting stability eastward was understood to be inextricable from the promotion of these values This new mission required that NATO devote greater attention to its political dimension In fact as the United States turned to promoting democracy around the world in the wake of September 11 it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO while divisions within the Alliance persist as to just how global NATO should be the post September 11 security environment ensures that NATO's survival depends upon its willingness to project security beyond Europe That mission will be as much political as it is military *Innovation in Multilateralism* Michael G. Schechter,2016-07-27 The chapters in this volume identify and assess the political process and bases of support for multilateralism in terms of the shifting power relations in world politics institutional innovations in the United Nations and non UN multilateralisms They seek to answer the question What can and should be done to confront salient issues of the global problematic More specifically the essayists ask whether currently existing multilateral mechanisms are up to the challenge *Air University Library Index to Military Periodicals* ,1991 **Encyclopedia of Conflicts Since World War II** James Ciment,2015-03-27 Thoroughly revised to include 25 conflicts not covered in the previous edition as well as expanded and updated information on previous coverage this illustrated reference presents descriptions and analyses of more than 170 significant post World War II conflicts around the globe Organized by region for ease of access Encyclopedia of Conflicts Since World War II Second Edition provides clear in depth explanations of events not covered in such detail in any other reference source Including more than 180 detailed maps and 150 photos the set highlights the conflicts that dominate today's headlines and the events that changed the course of late twentieth century history **Coming of Age** Helga

Haftendorn,2006 Covering German foreign policy since the end of World War II this book explores Germany's recovery from wartime defeat and destruction Through a chronological series of case studies it offers a document based account of 60 years of German policymaking

The Future: Warfare, military forces and technology ,1993 *Methods of Resolving Conflicts between Treaties* Seyed-Ali Sadat-Akhavi,2021-10-18 Despite the theoretical and practical importance of the question of conflict between treaties little has been written on the subject This monograph fills this gap by providing a detailed analysis of the main issues The book is divided into three parts The first deals with the definition of conflict causes of conflict and different types of conflict The second part examines different sources of international law in order to identify rules of international law relating to the resolution of conflicts The third part addresses the actual process of resolving conflicts between treaties After describing different stages of treaty conflict resolution it discusses some special principles advanced for resolving conflicts between certain types of treaties namely those relating to the protection of human rights those concerning dispute settlement and treaties dealing with private law issues

The European Community and the Security Dilemma, 1979-92 Holly Wyatt-Walter,2016-07-27 This book shows how the relationship between security and integration in Western Europe depends upon an enduring implicit bargain between the US and its European allies Despite internal and external pressures to develop a European security and defence identity distinct from NATO in the 1980s and 1990s EC member states have consistently rejected supranational integration in the areas of security and defence Despite considerable European dissatisfaction with American leadership of NATO Europe has continued to accept that leadership even after the end of the Cold War and the signing of the Maastricht Treaty

The Transatlantic Relationship Jarrod Wiener,2016-07-27 The Transatlantic Relationship written by a group of experts drawn from both sides of the Atlantic examines the security trade and cultural aspects of the United States European Union relationship It focuses in particular on the politics of alliance reconfigurations especially with regard to NATO the NACC and the OSCE the new issues in the new World Trade Organization the structural factors affecting NAFTA EU relations and the cultural dimensions of the relationship
