history of Iran the book considers the political religious and cultural history of this rich and highly productive interval that was the springboard for the formation of new imperial Ottoman Safavid Mughal and Ozbek orders of succeeding centuries

*Images of Thought* Celina Jeffery, 2009-03-26 With many illustrations and diagrams *Images of Thought* provides easy to follow ways in which to read Indian Persian and European paintings in terms of composition proportion colour symbolism and references to myth Yet it also provides the intellectual contexts of Islamic cultures which inform our perceptions of how this visual language works The author uses salient aspects of critical theory anthropology and theology to sensitise viewers to the diversity and difference of cultural readings but never loses sight of the primacy of the visual and formal characteristics gestures geometrical structures and their cooperation with myths and theologemes The book provides access to one of the world's major visual traditions whose characteristics continue to inform and elucidate Indian and Islamic contemporary thought today *Images of Thought* is a major scholarly and provocative contribution not only to our understanding of cultural individuality but it offers important examples of how to engage in transcultural understanding and ways of seeing

**Biblical Figures in the Islamic Faith** Stephen J. Vicchio, 2008-07-01 Vicchio believes that by understanding how much Muslim tradition overlaps with the biblical traditions of Judaism and Christianity we might begin to expose a wedge of common ground on which understanding and respect might begin to be built Vicchio begins with a brief introduction sketching some fundamentals of Muslim history and culture and clearing away some common misconceptions His main goal however is to give us a detailed look at the treatment of biblical figures in the literature of Islam The broad range of his research and presentation is startling He begins with the Qur'an but continues on to the collected writing of the roughly two hundred years after Mohammed Hadith Sunnah Akhbar that came to be regarded as authoritative in the various traditions that developed in early Islam He then traces the interest in these biblical figures on into modern treatments of the role of these figures in Muslim scholarship and how these figures are understood and used in the traditions of Islam yet today The result of Vicchio's scholarship and presentation will be a revelation to most Christian and Jewish readers It has become somewhat commonplace to refer to Judaism Christianity and Islam as the three Abrahamic faiths This shows a beginning awareness of the beginnings of each of these three great religions birthed in the Middle East in a common ancestor Abraham Ibrahim Abraham's faithfulness and his closeness to God make him a revered figure in each of these three great faiths and for each Abraham is a beginning of the story of the particular relationship between God and the people of each of these religions from the Foreword

**The Artist Project** Christopher Noey, Thomas P. Campbell, 2017-09-19 Artists have long been stimulated and motivated by the work of those who came before them sometimes centuries before them Interviews with 120 international contemporary artists discussing works from The Metropolitan Museum of Art's collection that spark their imagination shed new light on art making museums and the creative process Images of works from The Met collection appear alongside images of the contemporary artists work allowing readers to discover a rich web of visual connections that
