## **Orleans Images Of America:**

Images of Sex Work in Early Twentieth-Century America Mollie LeVeque, 2019-04-18 Storyville was the infamous red light district of New Orleans. It was a world where normative social values didn't apply and was shrouded in mystery and myth until the photographs of E. J. Bellocq were rediscovered. Bellocq's depictions of Storyville's sex workers have typically been treated as tragic, ominous, and emblematic of New Orleans singularity. Yet such interpretations have projected gendered stereotypes of frailty and victimhood onto the women they portrayed. In *Images of Sex Work*, Mollie LeVeque interrogates these glib readings and argues that sex work was a routine aspect of life in a modern city. She supports this theory by examining a range of cultural forms such as crime fiction illustrations and paintings from contemporary urban centres like Paris, London, and New York. In doing so, she advances the new argument that Bellocq humanised his subjects, de-sensationalised sex work, and gave these women the dignity they were all too often denied. *The Business of Slavery and the Rise of American Capitalism, 1815-1860* Jack Lawrence Schermerhorn, Calvin Schermerhorn, 2015-01-01 Focuses on networks of people, information, conveyances, and other resources and technologies that moved slave-based products from suppliers to buyers and users. page 3 The book examines the credit and financial systems that grew up around trade in slaves and products made by slaves. *Educating the Sons of Sugar* R. Eric Platt, 2017-10-10 A study of Louisiana French Creole sugar planters' role in higher education and a detailed history of the only college ever constructed to serve the sugar elite. The education of individual planter classes (cotton, tobacco, sugar) is rarely treated in works of southern history. Of the existing literature, higher education is typically relegated to a footnote providing only brief glimpses into a complex instructional regime responsive to wealthy planters. R. Eric Platt's *Educating the Sons of Sugar* allows for a greater focus on the mindset of French Creole sugar planters and provides a comprehensive record and analysis of a private college supported by planter wealth. Jefferson College was founded in St. James Parish in 1831, surrounded by slave-holding plantations and their cash crop, sugar cane. Creole planters regionally known as the *ancien régime* population designed the college to impart a genteel liberal arts education through instruction, architecture, and geographic location. Jefferson College played host to social class rivalries. Creole, Anglo-American, and French immigrant mirrored the revival of Catholicism in a region typified by secular mores. It was subject to the Americanization of south Louisiana higher education and reflected the *ancien régime* population's decline as Louisiana's ruling population. Resulting from loss of funds, the college closed in 1848. It opened and closed three more times under varying administrations: French immigrant private sugar planter and Catholic Marist, before its final closure in 1927 due to educational competition, curricular intransigence, and the 1927 Mississippi River flood. In 1931, the campus was purchased by the Society of Jesus (Jesuits) and reopened as a silent religious retreat. It continues to function to this day as the Manresa House of Retreats. While in existence, Jefferson College was a social thermometer for the white French Creole sugar planter ethos that instilled the sons of sugar with a cultural heritage resonant of a region typified by the management of

plantations slavery and the production of sugar      *America's Disaster Culture* Robert C. Bell, Robert M. Ficociello, 2017-10-19 Are we inside the era of disasters or are we merely inundated by mediated accounts of events categorized as catastrophic America's Disaster Culture offers answers to this question and a critical theory surrounding the culture of natural disasters in American consumerism literature media film and popular culture In a hyper mediated global culture disaster events reach us with great speed and minute detail and Americans begin forming interpreting and historicizing catastrophes simultaneously with fellow citizens and people worldwide America's Disaster Culture is not policy management or relief oriented It offers an analytical framework for the cultural production and representation of disasters catastrophes and apocalypses in American culture It focuses on filling a need for critical analysis centered upon the omnipresence of real and imagined disasters epidemics and apocalypses in American culture However it also observes events such as the Dust Bowl Hurricane Katrina and 9 11 that are re framed and re historicized as natural disasters by contemporary media and pop culture Therefore America's Disaster Culture theorizes the very parameters of classifying any event as a natural disaster addresses the biases involved in a catastrophic event's public narrative and analyzes American culture's consumption of a disastrous event Looking toward the future what are the hypothetical and actual threats to disaster culture Or are we oblivious that we are currently living in a post apocalyptic landscape      *American Notes and Pictures from Italy* Charles Dickens, 1892      *The Civil War* DK, 2015-02-02 Following Abraham Lincoln's presidential victory in 1861 eleven Southern states withdrew from the Union to form the Confederate States of America sparking a war between the North and South in which a series of bitterly contested battles and sieges and countless minor skirmishes were fought DK's *The Civil War* is divided into seven chronological chapters each introduced by a general overview of the military and political situation Each of the war's major engagements is treated individually while still connecting the complicated relationships between the war's far flung theaters or the overall strategies of the two sides *The Civil War* also includes the reactions of ordinary soldiers and civilians to the momentous events they witnessed as well as features on major personalities military and civilian and on aspects of the war away from the battlefield such as the effects of the Northern blockade or the fate of prisoners The casualty toll of the Civil War still exceeds that of every other American war before and since put together Race and states rights remain potent issues to this day making the story of the Civil War as gripping today as it was when it divided the nation more than 150 years ago      *American Lumberman*, 1910      *Krauss: The New Orleans Value Store* Edward J.
