Arthurian Legends on Film and Television Bert Olton, 2008-10-23 The Arthurian legends are a crucial part of Western culture. With their enduring themes, archetypal characters and complex plots, it is not surprising that the stories of Camelot should find their way into films and television programs. From the moody *Excalibur* to the looney *Knighty Knight Bugs*, more than 250 entries give complete credits, synopses and analyses. Included are works based solely on Arthur and his literary origins and works that feature other figures like Galahad, Percival and the operatic favorites Tristan and Isolde. Also included are animated films, parodies like Monty Python's films like *Indiana Jones* and *the Last Crusade* with Arthurian themes and television series with Arthurian episodes such as *Babylon 5* and *MacGyver*. Operatic and dramatic works recorded for film and television like *Camelot* are also covered. Appendices, bibliography and index.
