The book is filled with wisdom and age-specific advice that will help parents manage all kinds of child-rearing questions and issues. A sampling of topics include:

- The Mind of a Child**: This chapter is the foundation for what is discussed throughout the book. It explores personality quirks and how they are formed and will talk about things that parents can do from day one to day one thousand and beyond to help their children develop. Tips will be about how to recognize their differences but still instill good habits. After all, good parenting is really about being a good psychologist, knowing your child's brain, and helping them develop who they are.
- Nutrition**: Of course, a big part of parenting is making sure that kids learn how to keep themselves healthy and fit for a lifetime. This chapter emphasizes good nutrition and eating habits for all ages; it will address biologic differences like number of taste buds and requirement for dozen exposures to taste to achieve change.
- Physical Activity**: With the help of Joel Harper, fitness expert who appears on all of the YOU DVDs, this chapter will be filled with information and advice on how to make sure you kids are growing in all the right places.
- Taking Care of YOU**: This chapter takes a step back to show how being a good parent also means taking care of yourself and your dreams in order to show your kids how to love. Tips on how parenting isn't always being selfless.

With these topics and many more, America's most trusted doctors once again come to the rescue and teach parents the best ways to raise healthy, happy children.
