Raising The Allosaur:

Thunder of Time James F. David, 2006-04-04 Ten years ago the prehistoric past collided with the present as time itself underwent a tremendous disruption transporting huge swaths of the Cretaceous Period into the world of the twentieth century Entire neighborhoods and cities were replaced by dense primeval jungles and modern humanity suddenly found itself sharing the earth with fierce dinosaurs In the end desperate measures were taken to halt the disruptions and the crisis appeared to be over Until now Slowly at first but with increasing frequency time begins to unravel once more What s worse Nick Paulson Director of the newly formed Office of Security Science discovers that the time displacements are being manipulated by unknown parties utilizing a mysterious new technology Indeed the very integrity of the space time continuum appears to be at risk To preserve both the future and the past Nick and his allies must uncover the secrets hidden within in a lost temple at the center of a dino infested jungle and in an enigmatic structure on the surface of the moon But they are not alone in their quest A cult of ruthless fanatics is also intent on controlling the time waves and they will stop at nothing to reshape history to their own design At the Publisher s request this title is being sold without Digital Rights Management Software DRM applied

The Magnificent Bastards Wayne Kyle Spitzer, 2018-11-29 There was a single sharp tap of the drums followed by a rapid succession of beats as the crushed velvet curtains spread and the audience gasped for Tran had taken her position in the box and was even now being secured as Williams struck a gunfighter pose and his hand hovered next to his weapon

Ladies and gentlemen I think it goes without saying said the announcer over the speaker system Do not try this at home Williams relaxed his entire body even as his mind cycled through the calculations altitude the breeze humidity temperature the curvature of the earth the spinning of the earth It was like music a largely mathematical proposition a cold equation he d had a gift for ever since he could remember ever since he was a boy with a Daisy BB gun in the backyard of their southern California home He focused on the knife blade as the balloons to each side of it warbled in the breeze It was a funny thing sharpshooting so utterly unlike music in that each time he did it he felt like he was doing it for the first time felt like he was starting over from scratch With music his fingers just automatically found the frets just instantly knew where to begin and where to end he never felt as though he were lost in a vortex of potentialities never doubted his ability to perform But sharpshooting was a different beast altogether With sharpshooting he had to call on something outside of himself as well as from within something which was not his to control Something which either kissed him with its ghostly lips or turned away with perfect indifference like love itself he supposed Or God And then the drum taps stopped and he was alone with the breeze and it was time to make the intuitive leap which would set the bullet in motion And as he breathed out and drew his revolver and squeezed its trigger softer than he would a daisy he knew even before the crack and the ka chink and the pop of the balloons that the projectile had found its target That it had found the slim blade and split like an atom becoming two loaves rather than one two soft but lethal slugs which had spread like shrapnel in the Fresno heat and ruptured the red balloons releasing their air in a vacuum like rush and causing the audience to gasp and to cheer And then his wife was there having loosed her mock bonds and scrambled out of the tall wooden box with its crushed velvet curtains and bulletproof glass and she d bowed to the audience before embracing him like the wind and he had kissed her as he always did after completing their final act when air raid sirens sounded and he looked at the sky which had darkened with a storm front as fast moving as it was inexplicable

From the Land Beyond Beyond Jeff Rovin,1977 Whether it came from outer space beneath the sea or across the eons from prehistoric time you can be sure of one thing it came from the vivid imagination and technical expertise of a special effects genius An more often than not it was Willis O Brien or Ray Harryhausen Now from the archives of cinematic history comes the story of their work and others in a fascinating revealing look at how 150 of the most fantastic fantasy films were made The silent era and the origin of special effects the history and techniques of 3 D stop motion animation the equipment used in the studios how such overwhelming realism was achieved solving the unsolvable problems dealing with production costs and much much more including scene by scene discussions of the major films Cover *The Complete Flashback Saga* Wayne Kyle Spitzer,2018-10-10 They streamed out from the tree line in a veritable blitzkrieg the guns of the tanks rotating and firing the foot soldiers alternately taking cover behind vehicles and squeezing off bursts the raptors and triceratops and stegosaurus charging as Red and Charlotte and Roger and Savanna continued shooting and the children ran ammo and Bella lit the gasoline trenches as Gojira and the clerk prepared shoulder mounted rocket launchers As

hundreds of others joined the battle belatedly and began to kill and to be killed And then they were there they were at the gates and the triceratops and stegosaurs had waded into the burning trenches and begun serving as bridges sacrificing themselves so that the raptors and the foot soldiers could cross even as a column of bulldozers fanned out along the perimeter and prepared to break the lines for good dropping their blades which rattled and clinked against the hail of gunfire revving their engines spewing black smoke Bayonets cried Red as the raptors fell upon them thrusting his own so that it skewered one of the dinosaurs like a shish kabob even before he used its own weight and momentum to swing it over and behind himself *Beyond the Flashback: The Flashback/Dinosaur Apocalypse Trilogy, Book Three* Wayne Kyle Spitzer,2022-09-24

First came the time storm which erased half the population Then came the dinosaur apocalypse How did it all begin That depends on where you were and who you ask In some places it started with the weather which quickly became unstable and began behaving in impossible ways In still others it started with the lights in the sky which shifted and pulsed and could not be explained Elsewhere it started with the disappearances one here a few there but increasing in occurrence until fully three quarters of the population had vanished Either way there is one thing on which everyone agrees it didn't take long for the prehistoric flora and fauna to start showing up often appearing right where someone was standing in which case the two were fused spliced amalgamated It didn't take long for the great Time displacement called the Flashback which was brief but had aftershocks like an earthquake to change the face of the earth Nor for the stories some long and others short some from before the maelstrom and resulting societal collapse and others after to be recorded Welcome to the world of the Flashback a world in which man's cities have become overgrown jungles and extinct animals wander the ruins You can survive here if you're lucky and if you're not in the wrong place at the wrong time which is everywhere all the time But what you'll never do is remain the same for this is a world whose very purpose is to challenge you for better or for worse It is a world where frightened commuters will do battle with murderous bikers even as primordial monsters close in and others will take refuge in an underground theme park only to find their worst enemy is themselves Where ordinary people never do wells on a cross country motorcycle trip a woman on a redeye flight to Hell a sensitive boy stricken with visions of what's to come will find themselves in extraordinary situations and a gunslinger and his telekinetic ankylosaurus will embark on a dangerous quest A world where travelers will be trapped with an unravelling President of the United States and a band of survivors will face roving packs of monsters and men in post apocalyptic Seattle where rioting teenagers will face deadly predators as well as their own demons while ransacking the nation's capital where a Native American warrior will seek to bury his past and offer an elegy for all the Earth in what remains of Las Vegas In short it is a world where anything can and will happen So take a deep dive into these loosely connected tales of the Dinosaur Apocalypse each of which can be read individually or as a part of the greater saga tales of wonder and terror death and survival blood and beauty Do it today before the apocalypse comes **Riders on the Storm** Wayne Kyle Spitzer,2022-01-22 First came

the time storm which erased half the population Then came the Riders on the Storm Welcome to the world of the Flashback a world in which man s cities have become overgrown jungles and extinct animals wander the ruins You can survive here if you re lucky and if you re not in the wrong place at the wrong time which is everywhere all the time But what you ll never do is remain the same for this is a world whose very purpose is to challenge you for better or for worse In short it is a world where anything can and will happen So take a deep dive into these loosely connected tales of the Dinosaur Apocalypse each of which can be read individually or as a part of the greater saga tales of wonder and terror death and survival blood and beauty Do it today before the apocalypse comes Includes every Flashback Dinosaur Apocalypse story through 2021 in the order in which they were written

The Complete Ank and Williams Wayne Kyle Spitzer, 2018-10-10 Those I can hear said Luna and began retreating up the stairs again They only talk when they re about to attack Williams meanwhile had focused on Ank Jesus it called me by name Ank stared at him from beneath his brow Williams nodded slowly But how in God s name The only one who knew our names was Unless Williams misted up as he thought of the saloon girl who had shown him such affection I won t shoot them then I said I won t shoot them he snapped and turned toward Luna who was cowering at the top of the stairs We ll have to find another way To Luna he said It s all right sweetie Everything s going to be all right Meh Williams sighed angrily and moved toward the building s front windows which Ank had blocked with pinball machines and video games with only partial success Ank lumbered after him the tiled floor cracking beneath his elephantine feet Go away Williams hissed He peeked around one of the machines and saw the raptors lined up in the gathering dark waiting to make their move waiting to rush the snack bar and overwhelm them waiting to kill them or worse to turn them into creatures like themselves Are you talking to me whined the girl her voice seeming to bleed as if cut by invisible knives Why would you want me to go away all of a sudden No that s not what I meant I Williams held up his rifle pressed his forehead against it Come out Williams Yes my love come out A new voice Her voice Katrina Williams squeezed his eyes shut And then they were coming he could hear their growls and the tapping of their awful sickle claws against the cracked and broken pavement and Ank was charging past him breaking through the windows and walls roaring defiantly and when Williams looked up he saw the dinosaurs collide like thunderheads heard Luna scream her piercing drill bit scream and knew they d never make it to Barley to say nothing of Tanelorn
