Ralph Nader Reader Signed:

Ralph Nader Patricia Cronin Marcello, 2004-09-30 Traces the life and career of consumer advocate Ralph Nader discussing his run for the presidency and his role in protecting the consumer *A Consumers' Republic* Lizabeth Cohen, 2008-12-24 In this signal work of history Bancroft Prize winner and Pulitzer Prize finalist Lizabeth Cohen shows how the pursuit of prosperity after World War II fueled our pervasive consumer mentality and transformed American life Trumpeted as a means to promote the general welfare mass consumption quickly outgrew its economic objectives and became synonymous with patriotism social equality and the American Dream Material goods came to embody the promise of America and the power of consumers to purchase everything from vacuum cleaners to convertibles gave rise to the power of citizens to purchase political influence and effect social change Yet despite undeniable successes and unprecedented affluence mass consumption also fostered economic inequality and the fracturing of society along gender class and racial lines In charting the complex legacy of our Consumers Republic Lizabeth Cohen has written a bold encompassing and profoundly influential book Empowering Progressive Third Parties in the United States Jonathan H. Martin, 2015-11-19 This ground breaking collection of writings explores how progressive third parties in the U S can become more electorally successful and politically influential It is the only recently published book that focuses exclusively on how such parties may advance Their rise may be essential to countering the powerful growing sway of wealth within the two major American parties and to creating a more just democratic United States Contributors include key participants in and observers of the U S left third party movement Nearly all have previously authored books or articles on progressive politics Many have led effective left third party efforts and some have held elected office on behalf of a progressive third party Together the writers reflect on a wide range of relevant parties including the Green Party the Vermont Progressive Party the Labor Party the Working Families Party Socialist Alternative and potential new parties on the American left The authors highlight a variety of strategies and conditions that may facilitate electoral breakthroughs by such parties and their candidates Overall the collection suggests that U S progressive third parties may make more headway if they thoughtfully combine their idealism and sense of urgency with a flexible pragmatic approach to gaining power Planet Savers Kevin Desmond, 2017-09-08 Protecting the planet is everyone s work But we all have our own heroes in whatever area we are working Planet Savers brings together the varied stories of the hundreds of movers and shakers that have spoken up throughout history and taken action to defend the world from pollution deforestation species loss and climate change From Theodore Roosevelt to Al Gore from Francis of Assisi to David Attenborough and from hundreds more men and women that you will know little if anything about Scientists artists business people priests lawyers poets politicians activists and more from every continent of the world Their work has enthused us about the natural world and warned us that we must do much more to preserve it The Indian woman who became the world s first environmental martyr the Baptist Reverend who asked What Would Jesus Drive the

Quaker big game hunter who set up the first conservation organisation the Shakespearian actor who revolutionised organic gardening and the housewife whose campaign against toxic waste forced a President to act The book is a cornucopia of people who from time immemorial have put their careers reputations and lives on the line to protect our planet from its governing inhabitants the human race Today as thousands of species of animals and plants are faced with extinction thousands of years of indigenous knowledge is lost in the face of technological advance and we become more and more aware of the potential doomsday scenario of a warming world we need Planet Savers more than ever Our inspiration can be the 301 environmental lives portrayed in this book These people cared enough to do something about it Planet Savers is both a tribute and a catalyst a tribute to the people that loved the planet enough to want to act to save it and a catalyst for the people who will be inspired to act after reading it New Planet Savers are at work right now in rainforests and megacities in community centres and boardrooms at road protests and in courtrooms all over the world If this book has one great aim it is to inspire you the reader to join them It is a book that every home should own

Outdoor Activities, Negligence and the Law Julian Fulbrook, 2017-03-02 Recent years have witnessed several tragedies during school and youth expeditions This in turn has led to legislation and the tight regulation of Outdoor Activity Centres with successive governments issuing guidelines for teachers and others supervising such activities Inevitably there will always be risk in relation to adventurous pursuits in the outdoors but the law in this area seeks a balance between the educational benefits gained and the need to safeguard against potential hazards Mythologies have arisen including the suggestion that a blame culture is so overwhelming that no youth worker or teacher can sensibly engage anymore in such activities This succinct guide to the legal position refers to a wide range of outdoor activities and recent legal cases It demolishes some of the myths pointing out common pitfalls noted in the research and in the litigation together with an outline of robust safety features to combat potential hazards

Covenants Without Swords Jeanne Morefield, 2016-06-28 Covenants without Swords examines an enduring tension within liberal theory that between many liberals professed commitment to universal equality on the one hand and their historic support for the politics of hierarchy and empire on the other It does so by examining the work of two extremely influential British liberals and internationalists Gilbert Murray and Alfred Zimmern Jeanne Morefield mounts a forceful challenge to disciplinary boundaries by arguing that this tension on both the domestic and international levels is best understood as frequently arising from the same

The Corporate Cult Rich Zubaty, 2001-10 Are corporations cults Do they control our behavior thoughts information and emotions Zubaty makes a pretty good case for that Should the legal status of corporate persons be challenged as a religious violation a gross infringement of the supposed boundary between church and state He makes a pretty good case for that Have we done a good job of keeping religion out of government but a miserable job of keeping government out of religion He makes a pretty good case for that Is Darwinism a science Or a religion You ll get vertigo over his take on that Copyright Libri GmbH All rights reserved
