Fifteenth Century England a Comprehensive Chronology WM. E. Baumgaertner,2021-03-02 This is the first volume of what will likely be four volumes of a comprehensive chronological history of fifteenth century England It begins in 1397 a necessary prelude to the rise of Henry IV and carries through to 1509 and the death of Henry VII The series includes inter related chronologies of Scotland Wales Ireland France Burgundy and Brittany Volume I covers from 1397 and the last few years of the reign of Richard II through the entire reigns of Henry IV and Henry V and ends a few months into the reign of Henry VI 1422 In the process it covers wars usurpations land and naval battles parliaments and great council meetings and the lives and deaths of many hundreds of prominent English Welsh Scottish Irish French Burgundian and Breton persons

The Psychedelic Sixties: a Social History of the United States, 1960-69 Richard T. Stanley,2013-05-28 The Psychedelic Sixties were turbulent times filled with periods of ecstasy and despair Who could have predicted that President Kennedy s Camelot would end with his televised assassination Or that Harvard psychologist Timothy Leary s Concord Prison Project would evolve into his becoming the pied piper of LSD the Psychedelic Revolution and the Hippie Movement To the credit of many Americans a key characteristic of the Psychedelic Sixties was the search for solutions to society s social problems But who could have predicted that President Johnson s Great Society would soon fall victim to race riots student protests and an increasingly unpopular war in Vietnam Throughout the sixties regular folks tried to find relief by watching TV comedies motion picture musicals and major sports events And music from The Beatles to The Rolling Stones Despite all the decade s chaos and bloodshed public and private schools at all levels grew at unprecedented rates And corporate America and our schools were more in cahoots than ever Want a good job Get a college degree And in 1969 as some Hippies still exclaimed Tune in turn on drop out an American named Neil Armstrong WALKED ON THE MOON Springer-Verlag: History of a Scientific Publishing House Heinz Sarkowski,2008-12-21 This book describes the fortunes and activities of one of the few specialist publishing houses still in the hands of the same family that established it over years ago and with it gives a p trayal of those members who directed it In doing so it covers a period of momentous historical events that directly and in rectly shaped the firm s actions and achievements But this volume tells not only in word and picture the story of Springer Verlag but also interwoven with it the story of scientific p lishing in Germany over the span of a hundred years The text densely packed with carefully researched facts and figures is illuminated and supplemented by many illustrations whose captions together with the author s notes contain a wealth of important and interesting information The reader is urged to read these captions as well as the notes so as to preciate in full the events and people described I have added a few footnotes to clarify or expand on some matters that may be unfamiliar to non German readers Because of the long period of time covered in these pages many of the documents and letters shown and commented upon are different in diction and style from

those of today An attempt was made in the translation to keep the flavour of the original language and not contemporise it
