Rangers In World War II:

Rangers in World War II Robert W. Black, 2010-11-17 From the deadly shores of North Africa to the invasion of Sicily to the fierce jungle hell of the Pacific the contribution of the World War II Ranger Battalions far outweighed their numbers They were ordinary men on an extraordinary mission experiencing the full measure of the fear exhaustion and heroism of combat in nearly every major invasion of the war Whether spearheading a landing force or scouting deep behind enemy lines these highly motivated highly trained volunteers led the way for other soldiers they were Rangers With first person interviews in depth research and a complete appendix naming every Ranger known to have served author Robert Black a Ranger himself has made the battles of WWII come to life through the struggles of the men who fought to win the greatest war the world has ever seen

U.S. Army Rangers & Special Forces of World War II Robert Todd Ross, 2002 U S Army Rangers Special Forces of World War II tells the story of the U S Army's elite Rangers and special forces largely through pictures Never before has such an expansive view of World War II been offered in one volume Furthermore an extensive search of public and private archives unearthed an astonishing number of rare and never before seen images some in color Most notable are the nearly twenty exemplary photographs of Lieutenant Colonel William O'Darby's Ranger Force in Italy taken by Robert Capa who is considered by many to be the greatest combat photographer of all time Complementing the period photographs are numerous color plates detailing the rare and often unique items of insignia weaponry and equipment that marked the soldiers whose heavy task it was to lead the way

Rangers Michael Julius King, 1985 This Leavenworth Paper is a critical reconstruction of World War II Ranger operations conducted at or near Djebel el Ank Tunisia Porto Empedocle Sicily Cisterna Italy Zerf Germany and Cabanatuan in the Philippines It is not intended to be a comprehensive account of World War II Ranger operations for such a study would have to include numerous minor actions that are too poorly documented to be studied to advantage It is however representative for it examines several types of operations conducted against the troops of three enemy nations in a variety of physical and tactical environments As such it draws a wide range of lessons useful to combat leaders who may have to conduct such

operations or be on guard against them in the future Many factors determined the outcomes of the operations featured in this Leavenworth Paper and of these there are four that are important enough to merit special emphasis These are surprise the quality of opposing forces the success of friendly forces with which the Rangers were cooperating and popular support
