Rape Victims Of Crisis:

Rape Ann Wolbert Burgess, Lynda Lytle Holmstrom, 1974 *The Rape Crisis Intervention Handbook* S.L. McCombie, 2012-12-06 This handbook is intended to be a comprehensive resource for those involved in providing crisis intervention to rape victims. The medical, legal, and counseling needs of the rape victim are presented to prepare helping professionals to offer sensitive and skillful assistance to women who have suffered sexual assault. The interdisciplinary thrust of the book reflects our conviction that health professionals, police, and prosecuting attorneys must share their expertise and coordinate their efforts in order to successfully meet the multiple needs of rape victims and their families. While an extensive literature on rape has developed in the past decade to the best of our knowledge, there is no single source for the practical treatment-oriented information sought by those who work directly with victims. The primary objective of this book is to offer just such a guide to service providers. The book is organized into sections that deal with a specific area of the treatment of victims. Detailed guidelines are provided for the nursing, medical, counseling, police, and legal services involved in comprehensive crisis intervention. Interdisciplinary teaming and the emotional impact of rape on service providers are discussed by authors actively involved in rape crisis work. Rape laws are explained and court preparation for victim witnesses is carefully outlined. Of particular relevance to counselors is an overview of crisis theory and a psychodynamic perspective on rape trauma. [Rape and Its Victims](#) United States. Department of Justice, 1975 [CRISIS INTERVENTION IN CRIMINAL JUSTICE/SOCIAL SERVICE](#) James E. Hendricks, Cindy S. Hendricks, 2014-04-01 This expanded new edition continues to demonstrate and provide theoretical, analytical, and practical knowledge for first responders. Face-to-face interaction with the client/victim is part of the comprehensive approach advocated by the book, which requires interveners to assess the nature of a crisis and the condition of the victim in order to determine the appropriate course of action. The comprehensive balance of theory and practice presented in this book should enable the intervener in coupling his/her general knowledge of human psychology and emotional crisis with the specific and novel characteristics of various crisis situations. The text represents the work of national scholars who have expertise in criminal justice and social service issues. Their chapters focus on a Historical and Theoretical Overview, Ethics in Crisis Intervention, Practice, Intimate Partner Violence, Police Response to Domestic Violence, Children in Crisis, Elder Mistreatment, Suicide, Crisis of Rape and Survivor Intervention, Death Notification, and the Theory and Practice of Delivering Bad News, Terrorism and Crisis Intervention, and Mass Casualty Crisis Response and Communication. Helpful appendices in each chapter provide additional internet resources as well as a complete Model Law Enforcement Code of Ethics and Social Work Code of Ethics. This new edition retains important information while providing current case studies such as the Miracle on the Hudson River crash, the mass shootings at Virginia Tech, the Boston Marathon bombing, and the Yarnell Hill fire in Arizona. This exceptional book is designed for firefighters, police officers, community service officers, correctional workers, emergency medical workers, probation/parole officers, protective service workers.
