Curnutt,2013-06-12 The Columbine tragedy on April 20 1999 began a new era in law enforcement as it became apparent that the police response to such mass shootings must be drastically altered By the time the Sandy Hook Elementary School shooting occurred on December 14 2012 outdated police response strategies had been replaced with new aggressive tactics used by

Situational Awareness for Emergency Response Richard Gasaway,2013 Situational awareness is more

complex than simply noticing what is happening around you An emergency responder must capture clues and cues in the emergency environment make sense of the information and predict what will happen next In Situational Awareness for Emergency Response Richard Gasaway establishes the foundation of decision making and the role of situational awareness in high risk public safety environments He explains his original research on command decisions and the barriers that challenge a commander s situational awareness and offers lessons learned and best practices that can assist responders in preventing or overcoming the situational awareness barriers Situational Awareness for Emergency Response is an ideal resource for incident commanders line personnel who make high stress decisions and students learning to develop and maintain situational awareness

Limbic-Brainstem Roles in Perception, Cognition, Emotion and Behavior Hisao Nishijo,Robert Rafal,Marco Tamietto,2018-08-03 The brainstem limbic regions including the superior colliculus pulvinar and amygdala receive direct perceptual information as a rapid coarse subcortical sensory system bypassing early sensory cortical systems and play a central role in innate behaviors including motivated and avoidance behaviors Recent human neuropsychological studies including those on cortical blindness suggest that these subcortical sensory pathways are functional in the intact human brain and interact with more evolutionary recent cortical systems This eBook presents up to date advancements in this area and to highlight the functions of the brainstem limbic regions in a variety of perceptual cognitive affective and behavioral domains We hope that this current Research Topic provides a comprehensive review to understand roles of the subcortical brainstem limbic regions in some forms of sensory motor coupling cognitive and affective functions
