Rational Design Of International Institutions:

The Rational Design of International Institutions Barbara Koremenos, 2001
The Rational Design of International Institutions Barbara Koremenos, Charles Lipson, Duncan Snidal, 2003-12-08 International institutions vary widely in terms of key institutional features such as membership scope and flexibility In this 2004 book Barbara Koremenos Charles Lipson and Duncan Snidal argue that this is so because international actors are goal seeking agents who make specific institutional design choices to solve the particular cooperation problems they face in different issue areas Using a Rational Design approach they explore five features of institutions membership scope centralization control and flexibility and explain their variation in terms of four independent variables that characterize different cooperation problems distribution number of actors enforcement and uncertainty The contributors to the volume then evaluate a set of conjectures in specific issue areas ranging from security organizations to trade structures to rules of war to international aviation Alexander Wendt appraises the entire Rational Design model of evaluating international organizations and the authors respond in a conclusion that sets forth both the advantages and disadvantages of such an approach
The Oxford Handbook of International Organizations Jacob Katz Cogan, Ian Hurd, Ian Johnstone, 2016-11-10 Virtually every important question of public policy today involves an international organization From trade to intellectual property to health policy and beyond governments interact with international organizations in almost everything they do Increasingly individual citizens are directly affected by the work of international organizations Aimed at academics students practitioners and lawyers this book gives a comprehensive overview of the world of international organizations today It emphasizes both the practical aspects of their organization and operation and the conceptual issues that arise at the junctures between nation states and international authority and between law and politics While the focus is on inter governmental organizations the book also encompasses non governmental organizations and public policy networks With essays by the leading scholars and practitioners the book first considers the main international organizations and the kinds of problems they address This includes chapters on the organizations that relate to trade humanitarian aid peace operations and more as well as chapters on the history of international organizations The book then looks at the constituent parts and internal functioning of international organizations This addresses the internal management of the organization and includes chapters on the distribution of decision making power within the organizations the structure of their assemblies the role of Secretaries General and other heads budgets and finance and other elements of complex bureaucracies at the international level This book is essential reading for scholars practitioners and students alike
The Continent of International Law Barbara Koremenos, 2016-04-07 This book demonstrates theoretically and empirically how international law s detailed design provisions help states cooperate despite harsh international political realities

Rethinking Power, Institutions and Ideas in World Politics Amitav Acharya, 2014-01-10 The study of international relations

has traditionally been dominated by Western ideas and practices and marginalized the voice and experiences of the non Western states and societies As the world moves to a post Western era it is imperative that the field of IR acquires a more global meaning and relevance Drawing together the work of renowned scholar Amitav Acharya and framed by a new introduction and conclusion written for the volume this book exposes the narrow meaning currently attached to some of the key concepts and ideas in IR and calls for alternative and broader understandings of them The need for recasting the discipline has motivated and undergirded Acharya s own scholarship since his entry into the field over three decades ago This book reflects his own engagement quarrels and compromise and concludes with suggestions for new pathways to a Global IR a forward looking and inclusive enterprise that is reflective of the multiple and global heritage of IR in an changing and interconnected world It is essential reading for anyone who is concerned about the history development and future of international relations and international relations theory

Interdisciplinary Perspectives on International Law and International Relations Jeffrey L. Dunoff, Mark A. Pollack, 2013 Influential writers on international law and international relations explore the making interpretation and enforcement of international law

The Working World of International Organizations Yi-Chong Xu, Patrick Moray Weller, 2018 This volume examines the actions and decisions of International Organizations IOs and through a comparative study of six IOs examines how their structures rules and norms shape the choice selections of players

The Concertation Impulse in World Politics Andrew Fenton Cooper, 2023-12-21 This book unravels the centrality of contestation over international institutions under the shadow of crisis Andrew Cooper makes a compelling case that concertation represents a fundamental institution as a peer competitor to multilateralism

International Standardization and Trade Regulation Sebastian Klotz, 2024-01-08 The open access publication of this book has been published with the support of the Swiss National Science Foundation As tariffs have fallen dramatically over the past decades behind the border measures such as technical barriers to trade TBT and sanitary and phytosanitary SPS measures have become increasingly important for international trade policy To facilitate trade governments sign trade agreements in which they agree to base such measures on international standards But who actually develops these standards This book takes a close look at the International Organization for Standardization and the Codex Alimentarius two prominent standard setting organizations in the area of TBT and SPS to investigate how international standardization influences the design of international trade agreements and vice versa
