Readings in the Development of Settlement Work Lorene M. Pacey, 1950 **Readings in the Development of Settlement Work** Lorene M. Pacey, 1971 **Readings in the Development of Settlement Work. Edited by Lorene M. Pacey** Lorene M. Pacey (Ed), 1950 *The Rise of the Therapeutic State* Andrew J. Polsky, 1993-07-26 Assuming that marginal citizens cannot govern their own lives proponents of the therapeutic state urge casework intervention to reshape the attitudes and behaviors of those who live outside the social mainstream Thus the victims of poverty delinquency family violence and other problems are to be normalized But normalize to Andrew Polsky is a term that jars the ear as well it should when we consider what this effort is all about Here he investigates the broad network of public agencies that adopt the casework approach From Poor Law to Welfare State, 6th Edition Walter I. Settlement Houses Under Siege Michael Fabricant, Robert Fisher, 2002 This book focuses on the externally driven difficulties of service workers and agencies in shaping services such as the consequences of recent conservative social policies on agency life and the way in which the present political environment influences services through privatization

All that Fits a Woman T. Laine Scales, 2000 *All That Fits a Woman* Training Southern Baptist Women for Charity and Mission 1907 1926 is a detailed well researched and well written account of the lives of women missionaries and others

associated with the Women's Missionary Union Training School in Louisville Kentucky. It includes case studies of individual women and careful description and analysis of curriculum and architecture and material culture. The Women's Missionary Union Training School provided enormous educational opportunities for Southern Baptist women while ensuring that they would study and serve within limits defined for them by male seminary faculty and by women leaders of the WMU. This history offers a critical view from a feminist theoretical perspective focusing on the subtle forms of teaching that have been used and are still used today to exclude Southern Baptist women from the preaching ministry and from leadership within the denomination. This timely work resonates with current issues as Southern Baptists continue to draw national attention for their stance on submission of women to male authority. *All That Fits a Woman* will prove a major resource for students of women's history and religious history especially Protestantism.

Settlement Sociology in the Progressive Years Joyce E. Williams, Vicky M. MacLean, 2015-06-24. *Settlement Sociology in the Progressive Years* claims for sociology a lost history and paradigm only recently acknowledged for shaping the American sociological tradition. Williams and MacLean trace the key works of early scholar activists through the leading settlement houses in Chicago, New York, and Boston. The roots of sociology as a public enterprise for social reform are restored to the canon through early research, teaching, and social advocacy. The settlement paradigm of neighborly relations combining the visions of social gospelers and first wave feminists will resonate for a renewed public sociology today. Key to this paradigm was the movement to settle in neighborhoods and become active in the struggle for social change in a period of rapid industrialization, immigration, and urbanization.

Planning with Neighborhoods William M. Rohe, Lauren B. Gates, 2017-10-01. Neighborhood planning programs involve citizens in developing plans and self-help projects for their neighborhoods through local organizations. They also assist residents in reviewing projects developed by city agencies. Based on a survey of fifty-one neighborhood planning programs and in-depth case studies of Atlanta, Cincinnati, Houston, St. Paul, Wilmington, N.C., and Raleigh, *Planning with Neighborhoods* offers the first comprehensive description and evaluation of the effectiveness of these programs. Moving beyond theory, this study reviews the actual accomplishments and limitations of neighborhood planning programs and offers specific recommendations for designing a successful program. Included are a thorough history of neighborhood planning programs and an examination of the social, political, and planning theories that support their existence. Eight propositions on the benefits of a neighborhood-based approach to planning are derived from this theory and evaluated on the basis of actual experience with this type of program. Speaking to both academics interested in neighborhood issues and planning practitioners, *Planning with Neighborhoods* concludes with recommendations for establishing effective neighborhood planning programs and improving existing programs. A Genealogy of the Good and Critique of Hubris Phillip Dybicz, 2023 In the first postmodern genealogical history of social work this book identifies common practices of a particular era to inform the description of a cultural and philosophical framework that allows the reader to step inside the shoes of people from that era and understand the practices through their eyes These insights are then utilized to promote moral reflection of current practices of social welfare and hopefully avoid moral lapses that may arise from our present biases of understanding

From Charity to Enterprise Stanley Wenocur, Michael Reisch, 2001 How did social work evolve as a profession in the United States Stanley Wenocur and Michael Reisch examine the history of social work and provide a theoretical model of professionalization for analyzing its development They offer a provocative view of American social work as an enterprise seeking exclusive control over the definition production and distribution of an essential commodity Now in paperback for the first time From Charity to Enterprise sets the professionalization of social work into a dynamic social context The explicit political and economic framework of Wenocur and Reisch's model enables the authors to examine how various subgroups within social work lost or gained control of the professional enterprise at various points

Social Work and Social Order Ruth Crocker, 1992 Progressive era settlements actively sought urban reform but they also functioned as missionaries for the American Way which often called for religious conversion of immigrants and frequently was intolerant of cultural pluralism Ruth Hutchinson Crocker examines the programs personnel and philosophy of seven settlements in Indianapolis and Gary Indiana creating a vivid picture of operations that strove for social order even as they created new social services The author reconnects social work history to labor history and to the history of immigrants blacks and women She shows how the settlements vision of reform for working class women concentrated on restoring home life rather than on women's rights She also argues that while individual settlement leaders such as Jane Addams were racial progressives the settlement movement took shape within a context of deepening racial segregation Settlements Crocker says were part of a wider movement to discipline and modernize a racially and ethnically heterogeneous work force How they
