*The Israelite Samaritan Version of the Torah* Benyamim Tsedaka, Sharon Sullivan, 2013-04-26 This landmark volume presents the first ever English translation of the ancient Israelite Samaritan version of the Pentateuch or Torah A text of growing interest and importance in the field of biblical studies the Samaritan Pentateuch preserves a version of the Hebrew text distinct from the traditional Masoretic Text that underlies modern Bible translations Benyamim Tsedaka s expert English translation of the Samaritan Pentateuch is here laid out parallel to the more familiar Masoretic Text highlighting the more than 6 000 differences between the two versions In addition to extensive explanatory notes in the margins throughout the book s detailed appendices show affinities between the Samaritan and Septuagint versions and between the Samaritan and Dead Sea Scroll texts Concluding the volume is a categorical name index containing a wealth of comparative information

*Samaritan Scribes and Manuscripts* Alan David Crown, 2001 This book aims to provide the critical tools to help scholars in their use of Samaritan manuscripts The basic codicological tools is a series of complementary data bases compiled from typological studies of the physical properties of manuscripts Each typology is in effect a diachronic profile created by painstaking comparison and analysis of the physical properties of manuscripts of known provenance and or date Using these typologies or diachronic profiles it is possible to evaluate the chronology of the physical characteristics of any manuscript the quire or gathering structure ink ruling spacing of the text on the folio sewing of the sections Naturally the more information available about the physical properties of any manuscript the better the chance of making correlations between the typologies of different properties The basic rule in palaeography and codicology is that the researcher works on an inductive basis from as wide a sample as possible of dated manuscripts It is hoped that in the studies in this volume evidence has been provided which will serve as a guide both to the appearance and the nature of Samaritan manuscripts and to the evaluative process that one would employ in examining them for codicological purposes The reader should be able to apply the criteria provided here to the evaluation of whatever data can be retrieved from any undated Samaritan manuscripts with which he is confronted Alan D Crown in the preface

*The Samaritans*

Reinhard Pummer, 2016 Most people associate the term Samaritan exclusively with the New Testament stories about the Good Samaritan and the Samaritan woman at Jacob's well. Very few are aware that a small community of about 750 Samaritans still lives today in Palestine and Israel; they view themselves as the true Israelites having resided in their birthplace for thousands of years and preserving unchanged the revelation given to Moses in the Torah. Reinhard Pummer, one of the world's foremost experts on Samaritanism, offers in this book a comprehensive introduction to the people identified as Samaritans in both biblical and nonbiblical sources. Besides analyzing the literary, epigraphic, and archaeological sources, he examines the Samaritans' history, their geographical distribution, their version of the Pentateuch, their rituals and customs, and their situation today. Clothing Sacred Scriptures David Ganz, Barbara Schellewald, 2018-12-03 According to a longstanding interpretation, book religions are agents of textuality and logocentrism. This volume inverts the traditional perspective; its focus is on the strong dependency between scripture and aesthetics: holy books and material artworks, sacred texts and ritual performances. The contributions, written by a group of international specialists in Western, Byzantine, Islamic, and Jewish Art, are committed to a comparative and transcultural approach. The authors reflect upon the different strategies of clothing sacred texts with precious materials and elaborate forms. They show how the pretypographic cultures of the Middle Ages used book ornaments as media for building a close relation between the divine words and their human audience. By exploring how art shapes the religious practice of books and how the religious use of books shapes the evolution of artistic practices, this book contributes to a new understanding of the deep nexus between sacred scripture and art. Jewish Worship in Philo of Alexandria Jutta Leonhardt, Jutta Leonhardt-Balzer, 2001 As a knowledgeable contemporary of the later Second Temple, Philo of Alexandria's approach to worship and his view of the essence of Jewish worship are of particular interest to the study of that period. Jutta Leonhardt discusses his views on the Jewish festivals, especially the Sabbath, on prayer, psalms, hymns, praise, and thanksgiving, and on Temple offerings, sacrifices, and purification rites. These aspects are presented with their parallels in Jewish and pagan traditions and in Greek and Hellenistic philosophy. Jewish worship in Philo has never been studied as a coherent whole before. Only individual aspects of worship, such as prayer of petition or thanksgiving, or Philo has been used in studies on Second Temple Judaism as a quarry for general examples of acts of worship. Philo accepted and participated in Jewish worship and even knew about details of various Jewish traditions of his time. His writings, however, do not refer to them directly and cannot easily be used to reconstruct Jewish rituals of his time. His main aim is to discuss the rites as collected in the Mosaic Torah, since these are binding for all Jews. These laws are frequently presented using the terminology of pagan cults and interpreted with recourse to Greek philosophy. In this philosophical description of actual rites, there are parallels to Plato's references to religion in the ideal state in the *Nomoi*. Philo presents Judaism as the ultimate Hellenistic cult which combines the various aspects of the different pagan cults in a sublime and perfect form to represent mankind and the universe in the worship of the one God who created the world. **Congress**
