**The Word in the Wind** Bruce L. Taylor, 2019-07-26 The growing use and appreciation of the Common Lectionary Revised has stimulated renewed attention to the Christian calendar in its fullness and an enrichment of liturgical worship In this volume Bruce Taylor offers a collection of theologically rich sacramentally sensitive and biblically centered sermons for the Sundays and feast days in the first half of Year A of the Lectionary featuring Gospel readings from Matthew with attention to the accompanying Old Testament and epistolary texts Included is a sampling of sermons written as engaging stories and a sermon presented during the Week of Prayer for Christian Unity Preachers will find here encouragement for their own homiletical observance of the liturgical year and ecumenical celebrations and the mutual and intimate relationship between Word and Sacrament All readers will find a thoughtful and stimulating resource for their own life of faith witness and devotion The English Dialect Dictionary: R-S Joseph Wright, 1904 **Play It Again, Sam** Samuel Jay

Keyser, 2025-05-27 Why we enjoy works of art and how repetition plays a central part in the pleasure we receive Leonard Bernstein in his famous Norton Lectures extolled repetition saying that it gave poetry its musical qualities and that music theorists refusal to take it seriously did so at their peril Play It Again Sam takes Bernstein seriously In this book Samuel Jay Keyser explores in detail the way repetition works in poetry music and painting He argues for example that the same cognitive function underlies both how poets write rhyme in metrical verse and the way songwriters like Duke Ellington and Billy Strayhorn Satin Doll and Richard Rodgers and Lorenz Hart My Funny Valentine construct their iconic melodies Furthermore the repetition found in these tunes can also be found in such classical compositions as Mozart's Rondo alla Turca and his German Dances as well as in galant music in general The author also looks at repetition in paintings like Gustave Caillebotte's Rainy Day in Paris Andy Warhol's Campbell's Soup Cans and Jackson Pollock's drip paintings Finally the photography of Lee Friedlander Roni Horn and Osmond Giglia Giglia's Girls in the Windows is one of the highest grossing photographs in history are all shown to be built on repetition in the form of visual rhyme The book ends with a cognitive conjecture on why repetition has been so prominent in the arts from the Homeric epics through Duke Ellington and beyond Artists have exploited repetition throughout the ages The reason why is straightforward the brain finds the detection of

repetition innately pleasurable Play It Again Sam offers experimental evidence to support this claim      **Why Our Children Can't Read, and what We Can Do about it** Diane McGuinness,1997 A neuropsychologist shows how outmoded methods for teaching reading have resulted in plummeting literacy levels and offers a new program      **Catalog of Copyright Entries** Library of Congress.
