This book differs from the competition in that it provides examples and scenarios making it very easy for the reader to learn complicated tasks. It gives them everything they need for the commonly used tasks in a simple to understand manner. Quizzes and exercises strengthen the knowledge gained and ensure concepts are learned rather than memorized. **Sams Teach Yourself Borland C++ Builder 4 in 24 Hours** Kent Reisdorph, 1999. Artful Making offers the first proven research based framework for engineering ingenuity and innovation. This book is the result of a multi year collaboration between Harvard Business School professor Robert Austin and leading theatre director and playwright Lee Devin. Together they demonstrate striking structural similarities between theatre artistry and production and today's business projects and show how collaborative artists have mastered the art of delivering innovation on cue on immovable deadlines and budgets. These methods are neither mysterious nor flaky; they are rigorous, precise, and with this book's help, absolutely learnable and reproducible. They rely on cheap and rapid iteration rather than on intensive up front planning and with the help of today's enabling technologies they can be applied in virtually any environment with knowledge based outputs. Moreover, they provide an overarching framework for leveraging the full benefits of today's leading techniques for promoting flexibility and innovation from agile development to real options. **Sams Teach Yourself XML in 21 Days** Simon North, Paul Hermans, 1999.
