**Literary Structure** Douglas S. McComiskey,2007-01-01 Numerous scholars have noted various elements of literary structure in the Gospel of Luke many of them patterned such as chiasm Several of these scholars have rigorously explored the significance of such structure A common conclusion is that if Luke is consistent with other ancient writers then the observation of some elements of patterned structure e g what has already been discovered in the Gospel suggests that there is probably considerably more This book offers a comprehensive literary structure for the Gospel of Luke thoroughly and critically evaluates it and ultimately focuses on theology that may be derived from this structure As groundwork the Introduction provides rigorous tests for assessing the intentionality behind proposals of parallelism The first chapter then employs the tests in an evaluation of Robert C Tannehill s work on Luke Acts which is representative of studies on correspondences that are not strictly structural in nature His contribution enables us to grasp how Luke encourages the reader to read passages in the light of other passages within the Gospel and accordingly provides an interpretive aid for our study The second chapter applies the tests to the Lukan correspondences suggested by Charles H Talbert which are inherently structural His analysis of Luke Acts and other Greco Roman literature provides a strong theoretical foundation for our own proposal Chapter three surveys OT Greco Roman and NT texts that bear a similar patterned structure to what we discover in Luke The structure of Luke is presented and carefully evaluated in chapter four and the theological implications of that structure are developed in chapter five shedding much fresh light on Lukan theology    **Leadership Lessons:**
