Becoming John Dewey Thomas Dalton, 2002-09-11 As one of America's public intellectuals John Dewey was engaged in a lifelong struggle to understand the human mind and the nature of human inquiry. According to Thomas C. Dalton, the successful pursuit of this mission demanded that Dewey become more than just a philosopher; it compelled him to become thoroughly familiar with the theories and methods of physics, psychology, and neurosciences, as well as become engaged in educational and social reform. Tapping archival sources and Dewey's extensive correspondence, Dalton reveals that Dewey had close personal and intellectual ties to scientists and scholars who helped form the mature expression of his thought. Dewey's relationships with F. M. Alexander, Henri Matisse, Niels Bohr, Myrtle McGraw, and Lawrence K. Frank, among others, show how Dewey dispersed pragmatism throughout American thought and culture.

The Historical Jesus and the Literary Imagination, 1860-1920 Jennifer Stevens, 2010-01-01 A PDF version of this book is available for free in open access via the OAPEN Library platform www.oapen.org. Fictional reconstructions of the Gospels continue to find a place in contemporary literature and in the popular imagination. Present-day writers of New Testament fiction and drama are usually considered as part of a tradition formed by mid- to late twentieth-century authors such as Robert Graves, Nikos Kazantzakis, and Anthony Burgess. This book looks back further to the late nineteenth and early twentieth centuries when the templates of the majority of today's Gospel fictions and dramas were set down. In doing so, it examines the extent to which significant works of biblical scholarship both influenced and inspired literary works. Focusing on writers such as Oscar Wilde, George Moore, and Marie Corelli, this timely new addition to the English Association Monographs series will be essential reading for scholars working at the intersection of literature and theology.
