Provided Meg can find the courage to defy her pride and save her siren's heart      **The Sirens of Wartime Radio and How the American Print Media Presented Them** Scott A. Morton, 2020-10-05 The Sirens of Wartime Radio and How the American Print Media Presented Them The Stories the Intrigue and the Evolving Coverage of Their Legacies analyzes press coverage from the American print media that helped construct popular images of Tokyo Rose Axis Sally Seoul City Sue and Hanoi Hannah Coverage of these radio sirens essentially constructed and defined these women's legacies for an American audience Scott A Morton examines newspaper and magazine coverage from the periods of each broadcaster and in doing so analyzes four primary research inquires Morton discusses how American newspapers and magazines portrayed each woman to American readers how the American mass media's portrayal of them evolved overtime from the mid 1940s through the present the ways in which the American mass media responded to these five female propagandists either directly or indirectly through print radio and visual media and how the legacy of each woman has been kept alive in popular culture in the decades since their last broadcasts Morton argues that for the most part coverage of the sirens was borne out of fascination and aversion fascination stemming from the novelty of women acting as high profile agents of enemy propaganda organizations and aversion stemming from the potential power they had over U S servicemen and the fact that they were viewed as traitors to the U S Scholars of media studies history and international relations will find this book particularly useful      *Fountain of Age* Nancy Kress, 2012 Nine science fiction stories address themes of alien abduction gene sculpting and love      **Engineering News-record** ,1907      Song of the Sirens Ernest K. Gann, 2000 Song of the Sirens is a classic Newsweek      **Fortress California, 1910-1961** Roger W. Lotchin, 2002 Fortress California now in paperback for the first time links the growth of the U S military industrial complex to civic leaders who competed for military bases and military contracts to ensure economic growth Analyzing the growth of Los Angeles San Diego and San Francisco from 1910 to 1961 Roger W Lotchin discredits the assumption that the industrialization of the Sunbelt was a result of a partnership between industry and the military He provides instead a detailed and forceful argument that municipalities used federal resources to build urban empires and metropolitan military complexes These have increased the flow of federal dollars into the state thereby shifting the focus of the military industrial complex from warfare to welfare      Siren Songs Lillian Eileen Doherty, 1995 A feminist critique of the Odyssey      **Reap the Whirlwind** Peter Houlihan, 2025-07-08 The bestselling author of Norco 80 returns with a riveting story of mid 1980s San Diego that placed one young Black man at the center of a whirlwind of crime and punishment that profoundly altered Southern California March 31 1985 Two white patrol officers in search of a gang member followed a pickup truck carrying seven young Black men up a dirt driveway in the Encanto neighborhood of Southeastern San Diego Minutes later gunshots rang out and the truck's driver Sagon Penn fled the scene in an officer's patrol car The incident stunned the city What followed would change it forever Penn was an idealist who believed in the power of Buddhist chants to bring about the oneness of humanity The two police officers were rising stars in one of the

most progressive police departments in the country yet one that had suffered more officers killed in the line of duty than any other While the facts of the case were never in dispute what remained unresolved was what if anything could justify such a violent confrontation For over two years a determined prosecutor and a charismatic defense attorney engaged in a sensational courtroom drama that revolved around matters of mental health racial biases and the self image of a once sleepy beach town grappling with its transformation into a major metropolitan area The Sagon Penn incident forever altered how San Diego would respond to incidents involving police and communities of color Based on court transcripts personal interviews and archival police reports Reap the Whirlwind is a gripping true crime narrative set against the evocative backdrop of Southern California
