Sanctioning Iran Hossein Alikhani, 2000 Enabling the Iranian Gas Export Options Maximilian Kuhn, 2014-01-17

Maximilian Kuhn investigates one of the most pressing yet neglected subjects in the field of global energy politics the integration of the Iranian gas market Possessing the world's second largest proven natural gas reserves Iran is a hypothetical energy giant in waiting Yet over three decades of internal divisions coupled with crippling international sanctions have left Iran unable to capitalize on its vast energy potential Increasing global demand for natural gas and a government in constant need of finding new sources of revenue to meet the needs of a fast growing population should lead Iran to eventually become a large scale gas exporter How this could take place and what the implications for global gas markets would be are the central research questions tackled by this study The study allows a look beyond international politics Iranian political decision making investment laws and pipeline games

US Foreign Policy and Iran Donette Murray, 2009-09-11

US Foreign Policy and Iran is a study of US foreign policy decision making in relation to Iran and its implications for Middle Eastern relations It offers a new assessment of US Iranian relations by exploring the rationale effectiveness and consequences of American policy towards Iran from the aftermath of the 1979 Iranian Revolution to the present day As a key country in a turbulent region and the recipient of some of the most inconsistent treatment meted out during or after the Cold War Iran has been both one of America's closest allies and an axis of evil or rogue state targeted by covert action and contained by sanctions diplomatic isolation and the threat of overt action Moreover since the attacks of 11 September 2001 Iran has played a significant role in the war on terror while also incurring American wrath for its links to international terror and its alleged pursuit of a nuclear weapons programme US Foreign Policy and Iran will be of interest to students of US foreign policy Iran Middle Eastern Politics and international security in general Donette Murray is a Senior Lecturer in the Department of Defence and International Affairs at the Royal Military Academy Sandhurst She was awarded a PhD in International History by the University of Ulster in 1997

Brenda Shaffer, 2006 Experts analyze the effect of cultural interests on the foreign policy of states in the Caspian region including Iran Azerbaijan Armenia Georgia Afghanistan Kazakhstan and Pakistan *East Asia and Iran Sanctions* Shirzad Azad, 2022-05-17 This book explores how international sanctions on Iran reshaped the contours of East Asia's interactions with the Middle Eastern state Almost all East Asian political entities from the industrialized and developed nations of Japan and South Korea to the communist and developing countries of China and North Korea have become major international partners of Iran over the past several decades In addition East Asian states were by and large thought to be among leading foreign beneficiaries of Iran sanctions and the overall impacts of sanctions in transforming both the scope and size of their rather multifaceted connections to the Middle Eastern country have been consequential Despite its significance academic studies about this topic have remained sparse and scattered This book aims to partially fill that research lacuna by surveying all relevant information and data available in the archives of several languages including Chinese English Japanese Korean and Persian While the book strives to cover the entire sanctions period most of the analysis focuses on the past one and a half decades when Iran came under the severest sets of international sanctions It was during this particular time period that international quandary over the Iranian nuclear program led to a slew of far reaching penalties and stringent restrictions levied against Iranians by the United Nations and the United States These recent waves of international sanctions and limitations transformed many quintessential characteristics of East Asia's interactions with Iran Such sanctions induced critical developments and changes moreover are bound to play an instrumental role in the direction and volume of exchanges

between East Asian states and Iran in the coming years and decades

Shrewd Sanctions Meghan L.

O'Sullivan, 2004-05-13 Policymakers will need all the tools at their disposal to craft an effective response to international terrorism and to protect and promote other U S interests in the coming decades In this quest to shape the right strategies for the challenges ahead economic instruments will play a central role O Sullivan an expert on the use of positive and negative tools of economic statecraft argues that in the post September 11th international climate the United States will be even more willing to use its economic power to advance its foreign policy goals than it has in the past This impulse she argues can lead to a more effective foreign policy given the many ways in which sanctions and incentives can forcefully advance U S interests But a recalibration of these tools sanctions in particular is necessary in order for them to live up to their potential Critical to such a reassessment is a thorough understanding of how the post cold war international environment globalization and American primacy in particular has influenced how sanctions work O Sullivan addresses this issue in a thorough examination of sanctions dominated policies in place against Iran Iraq Libya and Sudan Her findings not only highlight the many ways in which sanctions have often been poorly suited to achieve their goals in the past but also suggest how policymakers might use these tools to better effect in the future This book will provide a valuable resource for policymakers groping to find the right set of instruments to address both the old and the new challenges facing the United States It will also serve as an important resource to those interested in U S policy toward rogue states and in the status of the sanctions debate between policymakers and scholars

The United States and Iran Sasan Fayazmanesh, 2008-03-31 This book analyzes the

development of US dual containment policy towards Iran and Iraq with special reference to the former It covers the period from the early 1980s through to the present

US Foreign Policy and the Iranian Revolution C. Emery, 2013-10-15 This

book provides a fresh perspective on the origins of the confrontation between the US and Iran It demonstrates that contrary to the claims of Iran s leaders there was no instinctive American hostility towards the Revolution and explains why many assumptions guiding US policy were inappropriate for dealing with the new reality in Iran

The United States and Iran J.

Roshandel, Alethia H. Cook, 2009-07-20 Relations between Iran and the US have been strained for over 30 years This book provides unbiased discussions of issues such as historical relations the Iranian nuclear program and their support for

terrorist organizations It also identifies a wide range of possible US policy solutions to improve relations

Detering

Terrorism Andreas Wenger, Alex Wilner, 2012-09-19 During the Cold War deterrence theory was the cornerstone of U S foreign policy Following the 9 11 terrorist attacks however popular wisdom dictated that terrorist organizations and radical fanatics could not be deterred and governments shifted their attention to combating terrorism rather than deterring it This book challenges that prevailing assumption and offers insight as to when and where terrorism can be deterred It first identifies how and where theories of deterrence apply to counterterrorism highlighting how traditional and less traditional notions of deterrence can be applied to evolving terrorist threats It then applies these theoretical propositions to real world

threats to establish the role deterrence has within a dynamic counterterrorism strategy and to identify how metrics can be created for measuring the success of terrorism deterrence strategies In sum it provides a foundation for developing effective counterterrorism policies to help states contain or curtail the terrorism challenges they face *The Presidential Difference and Iran's Foreign Policy Under Khatami from 1997 to 2005* Azadeh Momeni,2024-06-25 The Presidential Difference and Iran's Foreign Policy Under Khatami from 1997 to 2005 explores the paradigm shift one that involved a change from confrontation to peaceful relations The main reason for this alteration rests on Muhammad Khatami's belief system whose discourse of Dialogue Among Civilizations aiming at coexistence and cooperation assured the international community that Iran would not pursue revolutionary aspirations but rather seek constructive and meaningful relations based on equality mutual respect and understanding Azadeh Momeni argues that the cornerstone of this sea change in foreign policy rests on Khatami's intellectual thoughts which is characterized by his belief system What sets this book apart is its unique approach employing Operational Code Analysis to analyze Khatami's belief system Operational Code Analysis is a quantitative method used in political psychology and international relations to understand the decision making processes and beliefs of political leaders "Dual Containment" Policy in the Persian Gulf A. Edwards,2014-12-16 This book offers a concise account of US dual containment policy towards Iran and Iraq during the 1990s an overlooked era between the tumult of the liberation of Kuwait and the terrorist attacks of September 11 2001 In particular it uses a theoretical framework derived from neoclassical realism to examine the impact of domestic US politics and interest groups on policymaking as well as perceptions of threat derived from two decades of mutual hostility between the US and Iran *The US Middle East Policy In Post 9/11 Era* Mukhtar Ahmad Bhat,2020-01-01 Middle East the mother of civilisations is one of the very few regions of global politics which have remained the hot spots and orbits around which the global power game revolved uninterruptedly In beginning it was due to its geopolitical location as it is at the crossroads and a trade link between big Asian African and European countries turned the region into a trade hub Then the life changing discoveries of natural resources particularly of oil and gas in the region as well as the industrial revolution in other parts of the world increased strategic importance of the region at the global level The adoption of policy of securing control over the resources by global powers gave new shape to the political structure and configuration like disintegration of Ottoman Empire and creation of new political entities in the region In addition to that the break out of the First and Second World Wars creation of Israel as well as the emergence of the Cold War are such events that transformed the region into a battle ground for the global super powers which ended at the collapse of the USSR in 1992 and emergence of the US as the dominant global power No doubt after the emergence of uni polar global order the region saw a phase of peace and end of the war gaming on the part of the big powers but the US continued to dominate the regional political structure During the same period the region also experienced one of the toughest periods of inter state wars first the decade long Iraq Iran war and then the Iraqi invasion of Kuwait which added more fuel to the

already increasing division and hatred among the regional countries

Iran in an Emerging New World Order Ali

Fathollah-Nejad, 2021-05-22 This book critically develops and discusses Iran's geopolitical imaginations and explores its various foreign policy schools of thought and their controversies. In doing so, the book covers Iran's foreign policy and international relations from 9/11 all the way to Rouhani's rise late 2014. Accounting for both domestic and the international balance of power, the book theorizes the post-unipolar world order of the 2000s, dubbed imperial interolarity, examines Iran's relations with non-Western great powers in that era and offers a critique of the Rouhani doctrine and its economic and foreign policy visions. Forged in the fires and intense deliberations of a PhD undertaken at a most unique institution of higher learning in the world, Ali Fathollah Nejad has produced one of the most informative and evocative studies of Iran's foreign policy and international relations to date. Framed in a highly original theoretical approach, Ali's nuanced analysis, drawing on a lorry load of primary and secondary sources, details the process and context of policy in the Islamic Republic, thus producing an unrivalled and lasting account of modern Iran's worldview and the behaviour of this revolutionary state in a fast-changing world. Anoush Ehteshami, Professor of International Relations, author of the forthcoming *The 100 Years War for Control of the Middle East*, Princeton University Press, 2021. Ali Fathollah Nejad has established himself as one of the most insightful observers of Iranian politics. Providing the analytical background to his assessments of Tehran's foreign policy in the 21st century, this book comes out opportunely at a time when a new U.S. administration is about to re-engage with Iran. Gilbert Achcar, Professor of Development Studies and International Relations, SOAS School of Oriental and African Studies, University of London. A decisive contribution to two avant-gardist fields of knowledge: Critical geopolitics and Iranian foreign relations. Anyone interested in cutting-edge research that brings together International Relations and Iranian Studies will revel in this important book. Arshin Adib Moghaddam, Professor in Global Thought and Comparative Philosophies, Department of Politics and International Studies, Senior Fellow on Iran Policy, Chicago Council on Global Affairs. How it represents itself and is represented by others, its myriad political and religious cultures, and how these shape the state and its international relations and locating those within a constantly changing global environment. Fathollah Nejad provides us with unique and alternative assessments of how Iran's foreign policy is shaped within the context of what he calls Imperial Interolarity. The creative interplay of these various factors makes this an indispensable text for anyone wishing to understand Iran and its international relations within the current global political environment. Na'eem Jeenah, Executive Director, Afro Middle East Centre, AMEC, Johannesburg. An eye opener for those who essentialize the role of Iran in contemporary International Relations. This landmark study covers the complexity of Iran's cultural geopolitics and the diversity of its interlocutors in 21st-century world politics. The book is useful for delving into the internal dynamics of Iranian politics and its connection with the spheres of power in international relations. It is a very methodical book. Theoretically flawless. A deep, brilliant, and enlightening academic text. Mois's Garduño Garcia, Professor in the Center for International Relations, National Autonomous University of

Mexico UNAM In this book Ali Fathollah Nejad goes beyond the usual one dimensional view that dominates the study of Iran's foreign policy and presents a comprehensive framework explaining the interrelated role of socio cultural economic and geopolitical elements in shaping the Islamic Republic's foreign policy orientation The book also focuses on a crucial period involving two critical transitions a systemic transition from the unipolar to the post unipolar world order and a domestic one from a hardline to a more moderate worldview All this makes the book a valuable contribution to the field Hamidreza Azizi Alexander von Humboldt Fellow Middle East and Africa Research Division German Institute for International and Security Affairs SWP former Assistant Professor of Regional Studies Shahid Beheshti University Tehran 2016 20 Iran in an Emerging New World Order provides a timely and original account of foreign policy making in the Islamic Republic of Iran especially the turbulent first decade of the new millennium Kamran Matin Senior Lecturer in International Relations Sussex University Associate Research Fellow Swedish Institute of International Affairs UI Ali Fathollah Nejad's Iran in an Emerging New World Order builds on a reliable scientific approach and an informed overview of Iranian foreign policy It identifies and examines the different factors which orientate it such as its various schools of thought and their debates the interplay between structure and culture and the one between internal and external realms Furthermore it casts light on the evolution of Tehran's choices including its look to the East In this new book Fathollah Nejad has provided a challenging study which demonstrates the need to go beyond conventional framings to include political culture and provides a new evaluation of Iran's international relations This is an original and significant contribution to the literature on international relations the workings of the Islamic Republic and the understanding of the latter's regional and global actions Firouzeh Nahavandi Professor of Sociology of Development and Political Science Director Institute of Sociology Director CECID Center for International Cooperation and Development Studies Universit libre de Bruxelles ULB as well as President Graduate School of Development Studies of French Community of Belgium Through its careful analysis of a modern political culture in Iran gestated in the context of an encounter with European colonial modernity and evolved in correspondence with a catalogue of internal and external others Ali Fathollah Nejad's timely book places contemporary geopolitical concerns against a much needed backdrop of colonial and anti colonial histories Siavash Saffari Associate Professor of West Asian Studies Department of Asian Languages and Civilizations Seoul National University If you really want to dive deep into Iran and understand the reasons why its leaders are operating in the current crisis this is the book you should read It teaches analysts and policy makers to understand the past to act wisely in the future Susanne Koelbl award winning Foreign Correspondent Der Spiegel

The Absence of Grand Strategy Steve A. Yetiv, 2008-04-21 Great powers and grand strategies It is easy to assume that the most powerful nations pursue and employ consistent cohesive and decisive policies in trying to promote their interests in regions of the world Popular theory emphasizes two such grand strategies that great powers may pursue balance of power policy or hegemonic domination But as Steve A Yetiv contends things may not always be that cut and dried Analyzing the

evolution of the United States foreign policy in the Persian Gulf from 1972 to 2005 Yetiv offers a provocative and panoramic view of American strategies in a region critical to the functioning of the entire global economy Ten cases from the policies of the Nixon administration to George W Bush s war in Iraq reveal shifting improvised and reactive policies that were responses to unanticipated and unpredictable events and threats In fact the distinguishing feature of the U S experience in the Gulf has been the absence of grand strategy Yetiv introduces the concept of reactive engagement as an alternative approach to understanding the behavior of great powers in unstable regions At a time when the effects of U S foreign policy are rippling across the globe *The Absence of Grand Strategy* offers key insight into the nature and evolution of American foreign policy in the Gulf

The United States and Persian Gulf Security Steven M. The Persian Puzzle Kenneth Pollack, 2005-08-09 In his highly influential book *The Threatening Storm* bestselling author Kenneth Pollack both informed and defined the national debate about Iraq Now in *The Persian Puzzle* published to coincide with the twenty fifth anniversary of the Iran hostage crisis he examines the behind the scenes story of the tumultuous relationship between Iran and the United States and weighs options for the future Here Pollack a former CIA analyst and National Security Council official brings his keen analysis and insider perspective to the long and ongoing clash between the United States and Iran beginning with the fall of the shah and the seizure of the American embassy in Tehran in 1979 Pollack examines all the major events in U S Iran relations including the hostage crisis the U S tilt toward Iraq during the Iran Iraq war the Iran Contra scandal American Iranian military tensions in 1987 and 1988 the covert Iranian war against U S interests in the Persian Gulf that culminated in the 1996 Khobar Towers terrorist attack in Saudi Arabia and recent U S Iran skirmishes over Afghanistan and Iraq He explains the strategies and motives from American and Iranian perspectives and tells how each crisis colored the thinking of both countries leadership as they shaped and reshaped their policies over time Pollack also describes efforts by moderates of various stripes to try to find some way past animosities to create a new dynamic in Iranian American relations only to find that when one side was ready for such a step the other side fell short With balanced tone and insight Pollack explains how the United States and Iran reached this impasse why this relationship is critical to regional global and U S

interests and what basic political choices are available as we deal with this important but deeply troubled country
