Mechanics of Wind-blown Sand Movements Xiaojing Zheng,2009-04-16 Mechanics plays a fundamental role in aeolian processes and other environmental studies This proposed book systematically presents the new progress in the research of aeolian processes especially in the research on mechanism theoretical modelling and computational simulation of aeolian processes from the viewpoint of mechanics Nowadays environmental and aeolian process related problems are attracting more and more attention We hope this proposed book will provide scientists and graduate students in aeolian research and other environmental research some mechanical methods and principles and introduce aeolian related problems of environment to mathematical and mechanical scientists

Wind as a Geological Process Ronald Greeley,James D. Iversen,1987-08-28 This book gives an account of geological aspects of windblown material Aeolian processes play an important role in modifying the surface of the Earth and they are also active on Mars Additionally they are thought to occur on Venus and possibly Titan as well The authors describe the following aspects wind as a geological process the aeolian environment physics of particle motion aeolian abrasion and erosion aeolian sand deposits and bedforms interaction of wind and topography and windblown dust A particular strength of the book is that it deals with aeolian processes in a planetary context rather than as a purely terrestrial phenomenon In so doing the authors ably demonstrate how we can gain better understanding of the Earth through comparative planetology This paperback reissue will enable the book to be used as a text for advanced students in planetary science Special terms are defined when they are first used There is a glossary and an exhaustive bibliography

Land Reclamation - Extending Boundaries H.M. Moore,H.R. Fox,S. Elliott,2003-01-01 Attempting to extend the boundaries of land reclamation this publication is a collection of conference papers addressing a range of topics from the practical challenges of cleaning up the most contaminated sites to the creation of new landscapes and the ethical issues surrounding land restoration

Combating Desertification in Asia, Africa and the Middle East G. Ali Heshmati,Victor R. Squires,2013-07-01 This book is about the how of desertification control as opposed to an analysis of the why and fills a gap in the desertification related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting accelerated soil erosion in sloping lands There are numerous illustrations to show the successful techniques This compilation demonstrates that desertification and land degradation can be controlled and reversed with existing techniques in such widely varying environments as the Sahel of Africa to Sri Lanka and the Philippines in SE Asia from mountains in Lesotho to low lands on desert margins in Mongolia Proven approaches include technical interventions changes in governance and to the legislative framework and policy reform The book fills a gap in the desertification related literature in that it shows what to do in situations ranging from fixing mobile sands to arresting

accelerated soil erosion in sloping lands *Arid Zone Geomorphology* David S. G. Thomas, 2011-02-08 The new edition of *Arid Zone Geomorphology* aims to encapsulate the advances that have been made in recent years in the investigation and explanation of landforms and geomorphological processes in drylands Building on the success of the previous two editions the Third Edition has been completely revised and updated to reflect the latest developments in the field Whilst this latest edition will remain a comprehensive reference to the subject the book has been restructured to include regional case studies throughout to enhance student understanding and is clearly defined into five distinct sections Firstly the book introduces the reader to Large Scale Controls and Variability in Drylands and then moves on to consider Surface Processes and Characteristics The Work of Water The Work of the Wind The book concludes with a section on Living with Dryland Geomorphology that includes a chapter on geomorphological hazards and the human impact on these environments Once again recognised world experts in the field have been invited to contribute chapters in order to present a comprehensive and up to date overview of current knowledge about the processes shaping the landscape of deserts and arid regions In order to broaden the appeal of the Third Edition the book has been reduced in extent by 100 pages and the Regional chapters have been omitted in favour of the inclusion of key regional case studies throughout the book The Editor is also considering the inclusion of a supplementary website that could include further images problems and case studies **Reclamation of Arid Lands** Mohammad Jafari, Ali Tavili, Fatemeh Panahi, Ehsan Zandi Esfahan, Majid Ghorbani, 2017-10-31 This book provides an overview of arid and semi arid lands conditions their general characteristics methods of management conservation exploitation and reclamation It also focuses on how to utilize the potential of arid lands with the minimum manipulation and alteration Arid and semi arid areas represent a major part of natural ecosystems not only in Iran but around the world and mismanagement and inappropriate exploitation of these areas may lead to further gradual degradation As such an understanding of the characteristics of these areas is vital if they are to be conserved and reclaimed **Deserts and Desertification** Yajuan Zhu, Qinghong Luo, Yuguo Liu, 2022-02-16 A desert is an ecosystem in an arid zone in which sand dunes cover the land and sandstorms often occur Although desert vegetation is sparse it plays an important role in ecosystem structure and function Desertification is one of the most severe environmental problems today Land desertification can be controlled through many measures such as eco villages eco agriculture biodiversity conservation and the combination of engineering and biology This edited volume provides new insights into the pattern of desert ecosystems and the progress of desertification control It is a useful resource for researchers in ecology forestry and land desertification control The Gulf War and the Environment Farouk El-Baz, R.M. Makharia, 2016-07-28 The Gulf War inflicted dramatic environmental damage upon the fragile desert and shore environments of Kuwait and north eastern Saudi Arabia Marine environments experienced oil spills inland oil lakes and burning oil wells caused widespread pollution This book first published in 1994 presents an in depth analysis of these environmental disasters their long term consequences and potential ways to repair the damage

Management of Problem Soils in Arid Ecosystems A. Monem Balba, 2018-05-02 Management of Problem Soils in Arid Ecosystems examines the challenges of managing soils in arid and semiarid regions. These soils contain low organic matter, are not leached, and accumulate lime, gypsum, and/or soluble salts, requiring special management and practices. This book discusses how to identify problems, reclaim the soils, and then use them efficiently and economically. Water management and desertification in these areas are also discussed. It contains extensive references as well as 40 tables and illustrations.
