Sands The Story Of Chicagos Front Yard:

The Sands Francesca Falk Miller, 1948 **The Chicago of Fiction** James A. Kaser, 2011-02-01 The importance of Chicago in American culture has made the city's place in the American imagination a crucial topic for literary scholars and cultural historians. While databases of bibliographical information on Chicago-centered fiction are available, they are of little use to scholars researching works written before the 1980s. In *The Chicago of Fiction: A Resource Guide*, James A. Kaser provides detailed synopses for more than 1,200 works of fiction significantly set in Chicago and published between 1852 and 1980. The synopses include plot summaries, names of major characters, and an indication of physical settings. An appendix provides bibliographical information for works dating from 1981 well into the 21st century, while a biographical section provides basic information about the authors, some of whom are obscure and would be difficult to find in other sources. Written to assist researchers in locating works of fiction for analysis, the plot summaries highlight ways in which the works touch on major aspects of social history and cultural studies, i.e., class, ethnicity, gender, immigrant experience, and race. The book is also a useful reader advisory tool for librarians and readers who want to identify materials for leisure reading, particularly since genre, juvenile, and young adult fiction, as well as literary fiction, are included. *Chicago's North Michigan Avenue* John W. Stamper, 1991-08-27 Since its opening in the 1920s, Chicago's North Michigan Avenue has been one of the city's most prestigious commercial corridors, lined by some of its most architecturally distinctive business, residential, and hotel buildings. Planned by Daniel Burnham in 1909, the avenue became the principal connecting link between downtown and the wealthy residential Gold Coast north of the Loop. Some thirty buildings were constructed along its path in the ten-year period before the Depression, an urban expansion comparable in significance to that of Pennsylvania and Park Avenues. John W. Stamper traces the complex development of North Michigan Avenue from the 1880s to the 1920s building boom that solidified its character and economic base, describing the initiation of the planning process by private interests, to its execution aided by the city's powerful condemnation and taxation proceedings. He focuses on individual buildings constructed on the avenue, including the Renaissance and Gothic-inspired Wrigley Building, Tribune Tower, and Drake Hotel, and places them within the context of factors governing their construction: property ownership, financing, zoning laws, design theory, and advertising. Stamper compares this stylistically diverse mixture of low and high-rise structures with earlier rejected planning proposals, all of which had prescribed a uniformly designed European-like avenue of continuous cornice heights, consistent facade widths, and complementary stylistic features. He analyzes the drastically different character the avenue took by 1930, with high-rise towers reaching thirty stories and beyond, in terms of the clash among economic, political, and architectural interests. His argument that the discrepancies between the rejected plans and reality illustrate the developers' choice of economic return over aesthetic community is extended through to the present avenue and the virtual disregard of the urban qualities proposed at its inception. Generously illustrated with an epilogue condensing the avenue's

history between the end of World War II and the present this is an exhaustive account of an important topic in the history of modern architecture and city planning

Second Metropolis Blair A. Ruble, 2001-05-28 By exploring and comparing North America's Russia's and Japan's second cities Chicago Moscow and Osaka *Second Metropolis* discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive political resource pragmatic pluralism

Living Landmarks of Chicago Theresa L. Goodrich, 2021-04-21 From the man shipped home in a rum barrel to the most dangerous woman in America Chicago history comes to life in these tantalizing tales *Living Landmarks of Chicago* goes beyond the what when and where to tell the how and why of fifty Chicago landmarks More than a book about architecture these are stories of the people who made Chicago and many of its most popular tourist attractions what they are today Each chapter is a vignette that introduces the landmark and brings it to life and the book is organized chronologically to illustrate the development of the city's distinct personality These fifty landmarks weave an interconnected tale of Chicago between 1836 and 1932 and beyond History lines Chicago's sidewalks Stroll down LaSalle or Dearborn or State and you'll see skyscrapers that have been there for a century or more It's easy to scurry by to dismiss the building itself but a hunt for placards turns up landmarks every few feet it seems Here's a Chicago landmark there's a National Historic landmark They're everywhere Ironically these skyscrapers keep the
