Sangre de Cristo Martin Hewlett, 1994 Divine Blood Martinez Hewlett, 2016-02-02 It is an astonishing discovery a bloodstained burial shroud entombed in the crumbling walls of a historic French Monastery Carbon dating concludes the fabric is from the time of Christ A molecular biologist conducts a daring experiment the cloning of genetic material recovered from the cloth Now two men Father Laurent Carriere and scientist Josh Francis are plunged into the center of a worldwide religious and political power struggle But even as Washington and the Vatican vie for control of the relic members of a secret society take steps to reclaim the holy artifact they have sworn to protect by any means necessary Selected by the Literary Guild and the Doubleday Book Club **Encountering Life in the Universe** Chris Impey, Anna H. Spitz, William Stoeger, 2013-10-17 Encountering Life in the Universe examines the intersection of scientific research and society to determine the philosophy and ethics of relating to the Earth and beyond **The Cumulative Book Index**, 1998 A world list of books in the English language *The Scarlet Lake Mystery* Harold L. Goodwin, 2023-10-04 In *The Scarlet Lake Mystery* Harold L Goodwin presents a thrilling exploration of the intersection between nature and human ambition Set against the backdrop of a small lakeside town the narrative unfolds as an intricate whodunit blending suspense with vivid descriptions of the natural scenery that serves as both setting and character Goodwin s prose is marked by a keen attention to detail and an elegant pacing that heightens tension drawing readers into a web of secrets and motivations that challenge their perceptions of truth and loyalty The book resonates with themes of environmental stewardship and the moral dilemmas faced by those who exploit natural resources situating it within a contemporary literary context that reflects ongoing discussions around ecological consciousness Harold L Goodwin an accomplished writer and environmental advocate was inspired by his experiences growing up in a region rich with both natural beauty and the complexities of human interaction with the environment His deep understanding of ecological issues entwined with a sharp narrative style allows him to craft a story that not only entertains but also provokes thought about our responsibilities towards nature Goodwin s background in environmental science and his passion for storytelling position him uniquely to explore such themes effectively For readers who crave a richly woven mystery steeped in thematic depth *The Scarlet Lake Mystery* is a compelling and thought provoking choice The book is ideal for anyone who enjoys a gripping plot intertwined with environmental ethics making it a significant addition to the modern mystery genre Goodwin s work not only promises to keep readers on the edge of their seats but also encourages them to reflect on the larger implications of their interactions with the world around them **Perspectives on Science and Christian Faith**, 1993 **Sangre de Cristo Newsnotes** Daniel E. Jones, 1993 Fire in the Mind George Johnson, 2010-10-06 Are there really laws governing the universe Or is the order we see a mere artifact of the way evolution wired the brain And is what we call science only a set of myths in which quarks DNA and information fill the role once occupied by gods These questions lie at the heart of George Johnson s audacious exploration of the border between science

and religion cosmic accident and timeless law Northern New Mexico is home both to the most provocative new enterprises in quantum physics information science and the evolution of complexity and to the cosmologies of the Tewa Indians and the Catholic Penitentes As it draws the reader into this landscape juxtaposing the systems of belief that have taken root there Fire in the Mind into a gripping intellectual adventure story that compels us to ask where science ends and religion begins A must for all those seriously interested in the key ideas at the frontier of scientific discourse Paul Davies : □□□□□ □□□□□ 2005, **The Business of Conquest** Nicole D. Legnani, 2020-12-15 The Spanish conquest has long been a source of polemic ever since the early sixteenth century when Spanish jurists began theorizing the legal merits behind native dispossession in the Americas But in The Business of Conquest Empire Love and Law in the Atlantic World Nicole D Legnani demonstrates how the financing and partnerships behind early expeditions betray their own praxis of imperial power as a business even as the laws of the Indies were being written She interrogates how and why apologists of Spanish Christian empire such as Jos de Acosta found themselves justifying the Spanish conquest as little more than a joint venture between crown and church that relied on violent actors in pursuit of material profits but that nonetheless served to propagate Christianity in overseas territories Focusing on cultural and economic factors at play and examining not only the chroniclers of the era but also laws contracts theological treatises histories and chivalric fiction Legnani traces the relationship between capital investment monarchical power and imperial scalability in the Conquest In particular she shows how the Christian virtue of caritas love and charity of neighbor and thus God became confused with cupiditas greed and lust because love came to be understood as a form of wealth in the partnership between the crown and the church In this partnership the work of the conquistador became ultimately that of a traveling business agent for the Spanish empire whose excess from one venture capitalized the next This business was thus the business of conquest and featured entrepreneurial violence as its norm not exception The Business of Conquest offers an original examination of this period including the perspectives of both the creators of the colonial world monarchs venture capitalists conquerors and officials of religious figures such as Las Casas and finally of indigenous points of view to show how a venture capital model can be used to analyze the partnership between crown and church It will appeal to students and scholars of the early modern period Latin American colonial studies capitalism history and indigenous studies **Public Opinion** ,1898 The Nuclear Muse John Canaday, 2000 Canaday a poet and playwright who has been a Watson Fellow and a Starbuck Fellow in Poetry at Boston University analyzes a variety of texts produced by physicists before during and after WWII including Niels Bohr s The Quantum Postulate the technical lectures used for training at Los Alamos scientist s descriptions of their work and of the Trinity test and Leo Szilard s postwar novella The Voice of the Dolphins He looks at physicists use of figurative language in the development of quantum theory and examines the role played by the rhetorics of exploration and religion in the construction of the Los Alamos community Includes bandw historical photos Annotation copyrighted by Book News Inc Portland OR *Miraculous Images and Votive*
