Santa Fe Design Elmo Baca, Suzanne Deats, 1995 **Santa Fe Modern** Helen Thompson, 2021-11-09 First survey of modernist and contemporary architecture and interiors in the richly layered architectural history of Santa Fe Santa Fe Modern reveals the high desert landscape as an ideal setting for bold abstracted forms of modernist houses Wide swaths of glass deep set portals long porches and courtyards allow vistas color and light to become integral parts of the very being of a house emboldening a way to experience a personal connection to the desert landscape The architects featured draw from the New Mexican architectural heritage they use ancient materials such as adobe in combination with steel and glass and they apply this language to the proportions and demands exacted by today's world The houses they have designed are confident examples of architecture that is particular to the New Mexico landscape and climate and yet simultaneously evoke the rigorous expressions of modernism The vigor and the allure of modern art and architecture hearten each other in a way that is visible and exciting and this book demonstrates the synergistic relationship between art architecture and the land
