Courting Migrants Katrina Burgess, 2020-07-20 Migrants have for some time engaged in the politics of their homelands from a distance but as this book argues politicians are increasingly looking beyond their national boundaries for electoral and political support While migrants rarely cast decisive votes in homeland elections they are not marginal to homeland politics *Courting Migrants* looks at how extraterritorial outreach by homeland states and parties alters the boundaries of political membership and intersects with migrant agency to transform politics at home It addresses three specific questions under what conditions and in what ways do homeland authorities reach out to migrants How do these migrants respond And to what extent does their response affect homeland governance Katrina Burgess argues that globalization and the spread of democracy since the 1970s have encouraged politicians in the Global South to reach out to migrants in search of economic resources foreign policy support and or electoral advantage They do so by cultivating feelings of loyalty that induce some kinds of migrant engagement while discouraging others Whether or not these politicians succeed depends on where migrants are located how many resources they have what kinds of identities they value and why they left their homeland in the first place This interaction between outreach and engagement has implications in turn for how migrants are responding to the current wave of populism and authoritarianism around the globe The book is based on in depth research on state migrant relations in four high migration countries Turkey Dominican Republic Philippines and Mexico

The Mescalero Apaches C. L. Sonnichsen, 2015-04-09 Frederick Webb Hodge remarked that the Eastern Apache tribe called the Mescaleros were never regarded as so warlike as the Apaches of Arizona But the Mescaleros history is one of hardship and oppression alternating with wars of revenge They were friendly to the Spaniards until victimized and friendly to Americans until they were betrayed again For three hundred years Mescaleros fought the Spaniards and Mexicans They fought Americans for forty more before subsiding into lethargy and discouragement Only since 1930 have the Mescaleros been able to make tribal progress C L Sonnichsen tells the story of the Mescalero Apaches from the earliest records to the modern day from the Indian's point of view In early days the Mescaleros moved about freely Their principal range was between the Rio Grande and the Pecos in New Mexico but they hunted into the Staked Plains and southward into Mexico They owned nothing and everything Today
