McClennen,2018-05-25 Studying the case of Latin American cinema this book analyzes one of the most public and most exportable forms of postcolonial national culture to argue that millennial era globalization demands entirely new frameworks for thinking about the relationship between politics culture and economic policies Concerns that globalization would bring the downfall of national culture were common in the 1990s as economies across the globe began implementing neoliberal free market policies and abolishing state protections for culture industries Simultaneously new technologies and the increased mobility of people and information caused others to see globalization as an era of heightened connectivity and progressive contact Twenty five years later we are now able to examine the actual impact of globalization on local and regional cultures especially those of postcolonial societies Tracing the full life cycle of films and studying blockbusters like City of God Motorcycle Diaries and Children of Men this book argues that neoliberal globalization has created a highly ambivalent space for cultural expression one willing to market against itself as long as the stories sell The result is an innovative and ground breaking text suited to scholars interested in globalization studies Latin American studies and film studies *Postcolonial literature and the biblical call for justice* ,1994 These writers from postcolonial lands express readings of individual biblical texts as well as theoretical discussion of such issues as the challenge biblical justice makes to poststructuralism the tensions in synthesizing Christianity and indigenous cultures and the ethical dilemmas faced by writers opposing injustice **Going to the Tigers** Robert

Cohen,2022-08-16 In this funny and perceptive collection novelist and essayist Robert Cohen shares his thoughts on the writing process and then puts these prescriptions into practice from how to rant effectively as an essayist and novelist *The Piano Has Been Drinking* how to achieve your own style naming characters and creating them how one manages one's own identity with being a writer in time and space to the use of reference and allusion in one's work Cohen is a deft weaver of allusion himself In lieu of telling the reader how to master the elements of writing fiction he shows them through the work of the writers who most influenced his own development including Roth Ellison Kafka and Robinson Rooted in his own experiences this collection of essays shows readers how to use their influences and experiences to create bold personal and individual work While the first part of the book teaches writing the essays in the second part show how these elements come together
