Science Fact and Science Fiction Brian Stableford, 2006-09-06 Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow

of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed Science Fiction Literature through History Gary Westfahl,2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics authors works and subgenres written by a distinguished scholar This encyclopedia deals with written science fiction in all of its forms not only novels and short stories but also mediums often ignored in other reference books such as plays poems comic books and graphic novels Some science fiction films television programs and video games are also mentioned particularly when they are relevant to written texts Its focus is on science fiction in the English language though due attention is given to international authors whose works have been frequently translated into English Since science fiction became a recognized genre and greatly expanded in the 20th century works published in the 20th and 21st centuries are most frequently discussed though important earlier works are not neglected The texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field **Rosinante to the Road Again** John Dos Passos,1922
